Changing White Attitudes toward Black Political Leadership Zoltan L. Hajnal, 2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes *Encyclopedia of African American Politics* Robert C. A Crisis of Leadership and the Role of Citizens in Black America Stephen C.W. Graves, 2016-05-12 A theoretical examination of the concepts of the citizen citizenship and leadership A Crisis of Leadership and the Role of Citizens in Black America Leaders of the New School proposes to develop a prototype or model of effective Black leadership Furthermore it examines citizenship habits of the Black community based on their economic standing educational attainment participation in the criminal justice system and health and family structure It tracks data in these four categories from 1970 to today measuring effective leadership by the improvement or decline in the majority of African Americans standing in these four categories This book concludes that African Americans have negative perceptions of themselves as U S citizens which thus produce bad citizenship habits Additionally ineffective Black leaders since the Civil Rights era have been unwilling to demonstrate the purpose and significance of service particularly to the poor and disadvantaged members of the Black community Contemporary Black leaders post Civil Rights Era have focused primarily on self promotion careerism and middle class interests A new type of leader is needed one that stresses unity and reinforces commitment to the group as a whole by establishing new institutions that introduce community building **A Brief and Tentative Analysis of Negro Leadership**

Ralph J. Bunche, 2005-02-01 A world renowned scholar and statesman Dr Ralph J Bunche 1903 1971 began his career as an educator and a political scientist and later joined the United Nations serving as Undersecretary General for seventeen of his twenty five years with that body This African American mediator was the first person of color anywhere in the world to be awarded the Nobel Prize for Peace In the mid 1930s Bunche played a key role in organizing the National Negro Congress a popular front styled group dedicated to progressive politics and labor and civil rights reform A Brief and Tentative Analysis of Negro Leadership provides key insight into black leadership at the dawn of the modern civil rights movement Originally prepared for the Carnegie Foundation study An American Dilemma The Negro Problem and Modern Democracy Bunche s research on the topic was completed in 1940 This never before published work now includes an extended scholarly introduction as well as contextual comments throughout by Jonathan Scott Holloway Despite the fact that Malcolm X called Bunche a black man who didn t know his history Bunche never wavered from his faith that integrationist politics paved the way for racial progress This new volume forces a reconsideration of Bunche s legacy as a reformer and the historical meaning of his early involvement in the civil rights movement *Bibliography of African American Leadership* Cedric Johnson, Ronald W. Walters, 2000-06-30 Compiled in this volume is the most significant accumulation of works on the subject of African American leadership to date As the field of leadership studies continues to grow this timely work contributes to an understanding of the activities of those people and organizations that have been leaders of people of African descent and have contributed to the cultural and political affairs of the black community as well as the representation of the black community in mainstream American life The annotated entries cover a variety of works on subjects such as dedicated black leadership studies local descriptions and analyses biographies leadership organizations and audio visual materials This reference is an important contribution to the field of leadership studies in general and African American leadership in particular and will serve as a valuable research tool for educators and practitioners alike The entries are organized into six sections which offer a broad overview of the various aspects of African American leadership Part I Critical Studies and Appraisals focuses on the history of works dedicated to both national and local leaders and their politically relevant activities The next section Local Leadership Studies is organized around black leaders who served local communities and the various issues they addressed Part III looks at relevant social movements and ideologies that have highlighted the activities of black leaders Individual leaders who have made contributions to the political life of the black community are included in Part IV while leadership organizations are highlighted in Part V The concluding section of the volume looks at available audio visual materials A thorough index rounds out the bibliography Black Social Capital Marion Orr, 1999 Deindustrialization white flight and inner city poverty have spelled trouble for Baltimore schools Marion Orr now examines why school reform has been difficult to achieve there revealing the struggles of civic leaders and the limitations placed on Baltimore s African American community as each has tried to rescue a failing school system Examining the interplay between government and

society Orr presents the first systematic analysis of social capital both within the African American community black social capital and outside it where social capital crosses racial lines Orr shows that while black social capital may have created solidarity against white domination in Baltimore it hampered African American leaders capacity to enlist the cooperation from white corporate elites and suburban residents needed for school reform Orr examines social capital at the neighborhood level in elite level interactions and in intergovernmental relations to argue that black social capital doesn't necessarily translate into the kind of intergroup coalition needed to bring about school reform He also includes an extensive historical survey of the black community showing how distrust engendered by past black experiences has hampered the formation of significant intergroup social capital The book features case studies of school reform activity including the first analysis of the politics surrounding Baltimore's decision to hire a private for profit firm to operate nine of its public schools These cases illuminate the paradoxical aspects of black social capital in citywide school reform while offering critical perspectives on current debates about privatization site based management and other reform alternatives Orr's book challenges those who argue that social capital alone can solve fundamentally political problems by purely social means and questions the efficacy of either privatization or black community power to reform urban schools Black Social Capital offers a cogent conceptual synthesis of social capital theory and urban regime theory that demonstrates the importance of government politics and leadership in converting social capital into a resource that can be mobilized for effective social change
