America and the Black Body Carol E. Henderson, 2009 America and the Black Body is a timely exploration into the creative literary and visual uses of the black body in American print and visual culture More specifically this volume contemplates the social development of American identity and the multifarious ways this identity coalesces in the small gestures of preclusion that establish discernable markers of national belonging Such investigations underscore issues of power and disenfranchisement of race class and gender that mediate the representations of the black male and the black female body in real and imagined ways as it also reveals the invisible social and political ties that connect white men and women's identities to these racial imaginings Book Jacket

Black Theology—Essays on Gender Perspectives Dwight N. Hopkins, 2017-06-15 What do African American men have to do with gender In this collection of riveting and wide ranging essays Dwight N Hopkins draws on over thirty five years of wrestling with these questions Too often gender is seen as a woman's only discussion But in reality men have a gender too Some say it is biological others claim it has to do with socialization Hopkins's career has focused on defining what a black American man is and how he builds bridges of support and engagement with women Hopkins's research as a theologian and his experiences substantiate that the importance of religious viewpoints principled values and future hope remain key to any successful creation of a new African American male and new healthy male female interactions

Pathologizing Black Bodies Constante González Groba, Ewa Barbara Luczak, Urszula Niewiadomska-Flis, 2023-05-18 Pathologizing Black Bodies reconsiders the black body as a site of cultural and corporeal interchange one involving violence and oppression leaving memory and trauma sedimented in cultural conventions political arrangements social institutions and most significantly materially and symbolically engraved upon the body with the self often deprived of agency and sovereignty Consisting of three parts this study focuses on works of the twentieth and twenty

first century fiction and cultural narratives by mainly African American authors aiming to highlight the different ways in which race has been pathologized in America and examine how the legacies of plantation ideology have been metaphorically inscribed on black bodies The variety of analytical approaches and thematic foci with respect to theories and discourses surrounding race and the body allow us to delve into this thorny territory in the hope of gaining perspectives about how African American lives are still shaped and haunted by the legacies of plantation slavery Furthermore this volume offers insights into the politics of eugenic corporeality in an illustrative dialogue with the lasting carceral and agricultural effects of life on a plantation Tracing the degradation and suppression of the black body both individual and social this study includes an analysis of the pseudo scientific discourse of social Darwinism and eugenics the practice of mass incarceration and the excessive punishment of black bodies and food apartheid and USDA practices of depriving black farmers of individual autonomy and collective agency Based on such an interplay of discourses methodologies and perspectives this volume aims to use literature to further examine the problematic relationship between race and the body and stress that black lives do indeed matter in the United States

Black Bodies, White Gazes George Yancy, 2025-07-10 George Yancy's third edition of *Black Bodies White Gazes* applies a clear and dynamic phenomenological framework of race to the history and most recent headlines in social justice and race relations Including coverage of police murders and brutality against Black Americans and the rise of white nationalism this is a timeless introduction to the philosophy of race The third edition features new chapter introductions and discussion questions from philosopher Taine Duncan a new chapter giving critical phenomenological attention to contemporary anti Black violence against individuals such as George Floyd Ahmaud Arbery Sonya Massey and Kayla Moore and a new coda featuring the author's interview with photographer Daniel C Blight

Eating the Black Body Carlyle Van Thompson, 2006 Textbook [Feminist Philosophy of Mind](#) Keya Maitra, Jennifer McWeeny, 2022 This is the first collection of essays to focus on feminist philosophy of mind It brings the theoretical insights from feminist philosophy to issues in philosophy of mind and vice versa *Feminist Philosophy of Mind* thus promises to challenge and inform dominant theories in both of its parent fields thereby enlarging their rigor scope and implications In addition to engaging analytic and feminist philosophical traditions essays draw upon resources in phenomenology cross cultural philosophy

philosophy of race disability studies embodied cognition theory neuroscience and psychology The book's methods center on the collective consideration of three questions What is the mind Whose mind is the model for the theory To whom is mind attributed Topics considered with this lens include mental content artificial intelligence the first person perspective personal identity other minds mental illness perception memory attention desire trauma agency empathy grief love gender race sexual orientation materialism panpsychism enactivism and others Each of the book's twenty chapters are organized according to five core themes Mind and Gender Self and Selves Naturalism and Normativity Body and Mind and Memory and Emotion The introduction traces the development of these themes with reference to the respective literatures in feminist philosophy and philosophy of mind This context not only helps the reader see how the essays fit into existing disciplinary landscapes but also facilitates their use in teaching Feminist Philosophy of Mind is designed to be used as a core text for courses in contemporary disciplines and as a supplemental text that facilitates the ready integration of diverse perspectives and women's voices

Not Quite Hope and Other Political Emotions in the Gilded Age Nathan Wolff, 2019 *Not Quite Hope and Other Political Emotions in the Gilded Age* argues that late nineteenth century US fiction grapples with and helps to conceptualize the disagreeable feelings that are both a threat to citizens agency and an inescapable part of the emotional life of democracy then as now In detailing the corruption and venality for which the period remains known authors including Mark Twain Harriet Beecher Stowe Henry Adams and Helen Hunt Jackson evoked the depressing inefficacy of reform the lunatic passions of the mob and the revolting appetites of lobbyists and office seekers Readers and critics of these Washington novels historical romances and satiric romances a clef have denounced these books fiercely negative tone seeing it as a sign of cynicism and elitism *Not Quite Hope* argues in contrast that their distrust of politics is coupled with an intense investment in it not quite apathy but not quite hope Chapters examine both common and idiosyncratic forms of political emotion including crazy love disgust cynicism election fatigue and the myriad feelings of hatred and suspicion provoked by the figure of the hypocrite In so doing the book corrects critics too narrow focus on sympathy as the American novel's model political emotion We think of reform novels as fostering feeling for fellow citizens or for specific causes This volume argues that *Gilded Age* fiction refocuses attention on the unstable emotions that continue to shape our relation to politics as such

new and revolutionary ways But New Leftists did not respond as a tabula rasa On the contrary these young people s consciousnesses their culture their identities had arisen out of a history which for hundreds of years had privileged white over black men over women and America over the rest of the world Such a history could not help but distort the vision and practice of these activists good intentions notwithstanding A Hard Rain Fell SDS and Why It Failed traces these activists in their relation to other movements and demonstrates that the New Left s dissolution flowed directly from SDS s failure to break with traditional American notions of race sex and empire Enter The Body Carol Chillington Rutter,2002-09-11 One of the most provocative writers on women s performances of Shakespeare on stage and film in Britain today Rutter speculates on how the theatre plays women s bodies and how audiences read them
