Black Christians White Missionaries:

Black Christians and White Missionaries Richard Gray,1990 Africans have transformed Christianity Far from meekly accepting monolithic Western practices and interpretations Africans have appropriated the Christian faith for specific needs and added to it insights of their own As the centres of world Christianity shift towards Africa and Latin America the full impact of this transformation remains to be felt But its origins lie well before the twentieth century **Profiles of African-American Missionaries** Robert J. Stevens,Brian Johnson,2012-06-26 Profiles of African American Missionaries features the lives and ministries of the great African Americans who have gone to the world with the message of Christ It is a collection of stories sharing the ministries of several African American missionary pioneers from the 1700s to the present dealing with all the social and ministry issues that they had to face here and abroad Readers will be inspired by the dedication and commitment of these great African Americans as they lived out God s great commission to go into all the world and make disciples of all people It will inspire and challenge all readers to greater personal involvement in God s worldwide mission *God's Interpreters: The Making of an American Mission and an African Church* Les Switzer,2023-10-20 This study of the pioneer mission to the Zulu people differs from others in South African mission studies by offering a more nuanced understanding of the relationship between mission and church during the formative stages in the making of an African Christian community both in America and in British Natal Critical scholars continue to view the Western mission enterprise as an adjunct if not a tool of colonialism or at best a clash of cultures between white mission powerbrokers and powerless black Christian acolytes The author argues that they were partners from the beginning and in this endeavor the Christian identities of the missionaries as well as the Zulu were changed forever **African Christian Theology, Volume 1, Number 1, March 2024** Joshua Robert Barron,2024-07-11 The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes,Toyin Falola,2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world s most adhered to religion is practiced and understood on the continent of Africa *African-American Experience in World Mission* Vaughn J. Walston,Robert J. Stevens,2002 Collection of articles about the history of missions from an African American perspective *Understanding the British*

Empire Ronald Hyam, 2010-05-20 Understanding the British Empire draws on a lifetime's research and reflection on the history of the British Empire by one of the senior figures in the field. Essays cover six key themes: the geopolitical and economic dynamics of empire; religion and ethics; imperial bureaucracy; the contribution of political leaders; the significance of sexuality and the shaping of imperial historiography. A major new introductory chapter draws together the wider framework of Dr Hyam's studies and several new chapters focus on lesser-known figures. Other chapters are revised versions of earlier papers reflecting some of the debates and controversies raised by the author's work, including the issue of sexual exploitation, the European intrusion into Africa, including the African response to missionaries, trusteeship, and Winston Churchill's imperial attitudes. Combining traditional archival research with newer forms of cultural exploration, this is an unusually wide-ranging approach to key aspects of empire.

An Unpredictable Gospel Jay Riley Case, 2012-01-02 Jay Case examines the efforts of American evangelical missionaries arguing that if they were agents of imperialism they were poor ones. Western missionaries had a dismal record of converting non-Westerners to Christianity. [Christianity and the African Imagination](#)

David Maxwell, Ingrid Lawrie, 2022-08-08 During the twentieth century Christendom shifted its centre of gravity to the Southern Hemisphere. Africa becoming the most significant area of church growth. This volume explores Christianity's advance across the continent and its capturing of the African imagination. From the medieval Catholic Kingdom of Kongo to a transnational Pentecostal movement in post-colonial Zimbabwe, the chapters explore how African agents, priests and prophets, martyrs and missionaries, evangelists and catechists have seized Christianity and made it theirs. Emphasizing popular religion, the book shows how the Christian ideas and texts, practices and symbols which have been adapted by Africans help them accept existential passions and empower them through faith to deal with material concerns for health and wealth and to overcome evil.

To Save My Race from Abuse Edward J. Robinson, 2007-03-18 The story of a fascinating and important figure in black American religious history. Samuel Robert Cassius was born to a slave mother and a white father in Virginia in 1853 and became a member of the Restorationist Movement, Disciples of Christ while a coal miner in Indiana. For the rest of his long life he died in 1931 at age 78. Cassius was an active evangelist, prolific publicist, dedicated leader of black Disciples and an outspoken and uncompromising opponent of racism in religion and society. An indefatigable preacher, Cassius ranged throughout the Midwest, California and the southwestern states, founding and encouraging black Stone-Campbell Restorationist congregations. After entering the Oklahoma Territory in 1891, he worked for three decades as an educator, newspaper editor, social activist, postmaster and Justice of the Peace. Because he consistently incorporated social and racial issues into his religious writings, Cassius often found himself at odds with whites in the Stone-Campbell Movement, the very people he relied on for monetary support. He advocated a Booker T. Washington-style self-help ethos while at the same time firmly resisting racism wherever he encountered it. Largely invisible in a world dominated by such towering figures as Washington, Frederick Douglass, Ida B. Wells and W. E. B. DuBois, Cassius lived a life of virtual obscurity beyond the circle of the

Stone Campbell Movement His story is important because as a racial militant and separatist he presaged the schism that would engulf and fracture the Churches of Christ in the 1960s when blacks and whites went their separate ways and formed two distinct groups in one religious fellowship By combing through a plethora of primary sources that Cassius left behind in both religious and nonreligious journals Edward J Robinson has successfully reconstructed and recaptured the essence of Cassius complex and extraordinary life This book offers the first full length study of a man of remarkable attainment despite daily obstacles and resistance

Race, Nation, and Religion in the Americas Henry Goldschmidt, Elizabeth McAlister, 2004-08-12 A collection of new essays exploring the complex and unstable articulations of race and religion Drawing on original research the authors investigate how race and religion have defined global relations shaped the everyday lives of individuals and communities and how communities use religion to contest the power of racism

Christianity in South Africa Richard Elphick, Rodney Davenport, T. R. H. Davenport, 1997-01-01 At a strategic time in South Africa s history the Christian history which is absolutely basic to all developments is presented in a comprehensive and objective way Too little attention is given to the influence of religion in socio political accounts This is a creative and much needed contribution to scholarship and general knowledge An outstanding work Dean S Gilliland Fuller Theological Seminary

Christianity Rediscovered Vincent J. Donovan, 2014-07-24 This profound and thought provoking book is one of the classics of modern missionary writing Superficially just a good missionary story it actually says much more about issues such as the meaning of the eucharist and the method and content of evangelism

Hard-Fighting Soldiers Edward J. Robinson, 2023-09-29 In the first full length scholarly synthesis of the African American Churches of Christ Edward J Robinson provides a comprehensive look at the church s improbable development against a backdrop of African American oppression The journey begins with a lesser known preacher F F Carson in many ways a forerunner in the struggles and triumphs awaiting the preachers and lay people in the congregations to come Robinson then builds on scholarship treating well known figures including Marshall Keeble and G P Bowser to present a wide ranging history of African American Churches of Christ from their beginnings when enslaved people embraced the nascent Stone Campbell Christian Movement even though founder Alexander Campbell himself favored slavery The author moves on to examine how the churches grew under the leadership of S R Cassius even as Jim Crow restrictions put extreme pressure on organizations of any kind among African Americans Robinson s well researched narrative treats not only the black male leaders of the church but also women leaders such as Annie C Tuggle as well as notable activities of the church including music education and global evangelism thus painting a complete picture of African American Churches of Christ Through scholarship and compelling storytelling Robinson tells the two hundred year tale of how black believers survived and thrived on the discarded scraps of America forging their own identity fashioning their own lofty ecclesiology and hard theology and creating their own papers lectureships liturgy and congregations A groundbreaking exploration by a seasoned scholar in American religion Hard
