White Screens, Black Dance Pamela Kravenbuhl, 2025-07-30 White Screens Black Dance shows how several types of American masculinity were built through Black dance on mid twentieth century film and television It does so by analyzing case studies of major period stars both Black and white the Nicholas Brothers Gene Kelly Elvis Presley and Sammy Davis Jr In the process it also reveals the white stars appropriation of Black culture through dance which the author terms blackbodying Both this practice and the midcentury models of masculinity that it describes are ultimately shown to remain with us today on film TV and TikTok *Dancing on the Fault Lines of History* Susan Manning, 2025-01-28 Dancing on the Fault Lines of History collects essential essays by Susan Manning one of the founders of critical dance studies recounting her career writing and rewriting the history of modern dance Three sets of keywords gender and sexuality whiteness and Blackness nationality and globalization illuminate modern dance histories from multiple angles coming together in varied

combinations shifting positions from foreground to background Among the many artists discussed are Isadora Duncan Vaslav Nijinsky Ted Shawn Helen Tamiris Katherine Dunham Jos Lim n Pina Bausch Reggie Wilson and Nelisiwe Xaba Calling for a comparative and transnational historiography Manning ends with an extended case study of Mary Wigman s multidimensional exchange with artists from Indonesia India China Korea and Japan Like the artists at the center of her research Manning s writing dances on the fault lines of history Her introduction and annotations to the essays reflect on how and why these keywords became central to her research revealing the autobiographical resonances of her scholarship as she confronts the cultural politics of the late twentieth and early twenty first centuries

Culture Genevieve Fabre,Robert O'Meally,1994-12-08 As Nathan Huggins once stated altering American history to account fully for the nation s black voices would change the tone and meaning the frame and the substance of the entire story Rather than a sort of Pilgrim s Progress tale of bold ascent and triumph American history with the black parts told in full would be transmuted into an existential tragedy closer Huggins said to Sartre s No Exit than to the vision of life in Bunyan The relation between memory and history has received increasing attention both from historians and from literary critics In this volume a group of leading scholars has come together to examine the role of historical consciousness and imagination in African American culture The result is a complex picture of the dynamic ways in which African American historical identity constantly invents and transmits itself in literature art oral documents and performances Each of the scholars represented has chosen a different site of memory from a variety of historical and geographical points and from different ideological

theoretical and artistic perspectives Yet the book is unified by a common concern with the construction of an emerging African American cultural memory The renowned group of contributors including Hazel Carby Werner Sollors V v Clark Catherine Clinton and Nellie McKay among others consists of participants of the five year series of conferences at the DuBois Institute at Harvard University from which this collection originated Conducted under the leadership of Genevi ve Fabre Melvin Dixon and the late Nathan Huggins the conferences and as a result this book represent something of a cultural moment themselves and scholars and students of American and African American literature and history will be richer as a result

Modern Bodies Julia L. Foulkes, 2003-11-03 In 1930 dancer and choreographer Martha Graham proclaimed the arrival of dance as an art of and from America Dancers such as Doris Humphrey Ted Shawn Katherine Dunham and Helen Tamiris joined Graham in creating a new form of dance and like other modernists they experimented with and argued over their aesthetic innovations to which they assigned great meaning Their innovations however went beyond aesthetics While modern dancers devised new ways of moving bodies in accordance with

many modernist principles their artistry was indelibly shaped by their place in society Modern dance was distinct from other artistic genres in terms of the people it attracted white women many of whom were Jewish gay men and African American men and women Women held leading roles in the development of modern dance on stage and off gay men recast the effeminacy often associated with dance into a hardened heroic American athleticism and African Americans contributed elements of social African and Caribbean dance even as their undervalued role defined the limits of modern dancers communal visions Through their art modern dancers challenged conventional roles and images of gender sexuality race class and regionalism with a view of American democracy that was confrontational and participatory authorial and populist Modern Bodies exposes the social dynamics that shaped American modernism and moved modern dance to the edges of society a place both provocative and perilous
