The Countryside Explained John Seymour, 1978 **Reforming Rural Russia** Francis William Wcislo, 2014-07-14 As he examines administrative reform of Russian rural local government between the abolition of serfdom and World War I Francis William Wcislo takes as his theme the repeated attempts of tsarist statesmen to restructure the most critical mediating link between the autocratic state and a rapidly modernizing agrarian society His broader objective however is to use the issue of autocratic politics to probe the character and evolution of bureaucratic mentalit in this period Wcislo links the social psychological ideological and institutional nexus of the bureaucracy with its social underpinnings in rural society and lays bare the connections of the bureaucratic world with its traditional social base among the service nobility and the peasantry Placing the conflicting views of officials within the context of the two political cultures of old regime society he shows how bureaucratic reformers anxious to promote civic culture were undermined by defenders of traditional autocracy and the society of service estates soslovie with which that autocracy had coexisted This defense of tradition and the resulting failure of reformist initiatives were fundamental to the crisis of Russia in the early twentieth century Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Changing American Countryside Emery N. Castle, 1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers The Changing American Countryside a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can

greatly enrich our understanding of national life **Review the Impact of the 1983 Payment-in-kind Program on the Livestock Industry** United States. Congress. House. Committee on Agriculture. Subcommittee on Livestock, Dairy, and Poultry, 1984 Town and Country Planning in England and Wales John B. Cullingworth, 1971-12-15 The British Town and Country Planning machine is the most sophisticated in the world yet its inadequacies are only too apparent to those who are familiar with its evolution and operation During the last decade it has been in a constant state of change in an attempt to come to terms with the needs of a rapidly changing society This work attempts to provide a comprehensive picture of the planning system and the ways in which it is changing An historical introduction leads into an account of the machinery of planning and the major new provisions of the 1968 Town and Country Planning Act Special attention is then paid to the problems of land values amenity derelict land planning for leisure new and expanding towns urban renewal and the search for an adequate means of regional planning The book ends with an examination of some of the fundamental problems of public acceptance of and public participation in a democratic system of planning The book is aimed at the student and the general reader It is not a legal text but neither is it intended as a polemic Country Visions Paul J. Cloke, 2003 Country Visions is a highly readable challenging and incisive collection of essays exploring different ways of knowing rurality of understanding the countryside The essays suggest that we must go beyond cultural constructions of rural idyll and their accompanying political cultural and theoretical orthodoxies which risk both purification of transgressive presences and practices and ignorance of significant agency and performance It begs questions about how to read analyse and write about the country about how the countryside works for its actors and how it might work better in the future **The Powerful Garden** Valerie Dewaelheyns, Kirsten Bomans, Hubert Gulinck, 2011 **The Feel of the City** Nicolas Kenny, 2014-01-01 At the start of the twentieth century the modern metropolis was a riot of sensation City dwellers lived in an environment filled with smoky factories crowded homes and lively thoroughfares Sights sounds and smells flooded their senses while changing conceptions of health and decorum forced many to rethink their most banal gestures from the way they negotiated speeding traffic to the use they made of public washrooms The Feel of the City exposes the sensory experiences of city dwellers in Montreal and Brussels at the turn of the century and the ways in which these shaped the social and cultural significance of urban space Using the experiences of municipal officials urban planners hygienists workers writers artists and ordinary citizens Nicolas Kenny explores the implications of the senses for our understanding of modernity **OECD Rural Studies Rural Policy Review of Colombia 2022** OECD, 2022-11-25 Rural regions in Colombia have untapped potential to boost wealth and well being in the country Despite remarkable economic growth over the last two decades Colombia s development policy needs to increase its focus on rurality as regional inequalities remain high by OECD standards and structural challenges still prevent greater development in rural places *Managing Rural Environments* Andy Owen, 1999 This resource file offers extension and support tasks for Edexcel B geography Extended research ideas help with fieldwork and

investigation and sample questions and mark schemes provide practice for exams There are planning tools for teachers and additional case study materials and map outlines Rural Economy of India , **British Intelligence and the Fenians, 1855-1880** Padraic C Kennedy,2024-11-26 Shows how mid Victorian efforts to gather information about the Fenians laid the foundation for later British domestic intelligence in both Ireland and mainland Britain British Intelligence and the Fenians provides the first narrative account of the sustained and systematic use of espionage and secret policing in response to Fenianism between 1855 and 1880 It shows that despite the absence of a formal separate political police force or permanent intelligence agency the British administration in Ireland created a sophisticated intelligence network to combat the revolutionary threat posed by the Fenian Brotherhood in America and the Irish Republican Brotherhood in Britain The hub of this intelligence network was the Irish administration s F Department which analysed thousands of reports about Fenianism from throughout Great Britain North America and continental Europe Authorities also established a corresponding separate and secret organization in London Such arrangement provided both Irish and English officials ready access to shared intelligence about Fenianism until the end of the 1870s However government s agents never managed to infiltrate the leadership of the Fenian organization in Ireland Such failure left Ireland s rulers uncertain about Fenian intentions and prone to resort to extra legal measures in response to perceived threats The book makes an invaluable contribution to our understanding of early political policing and espionage in Britain By examining in detail what information was collected how it was analysed and disseminated and the use policy makers made of it it more generally offers an interpretation of the role of intelligence in governing Ireland PADRAIC C KENNEDY is Associate Professor at the Department of History and Political Science York College of Pennsylvania *Harnessing Fortune* Rebecca M. Empson,2011-04-14 This is the first detailed ethnography of rural Mongolian life since the collapse of the Soviet Union Based on fieldwork with migrant herding families who traverse the Northern Mongolian Russian border the volume explores how intimate social relationships and identities are drawn upon to engage with new political and economic uncertainties **Rural Tourism and Recreation** Lesley Roberts,Derek Hall,2001-01-01 This book reviews the theory and practice of tourism and recreation in rural areas in Europe Including numerous case studies 9 chapters cover the changing nature of recreation and tourism provision in rural areas the emergence of sustainability in the development debate the different levels of policy influencing recreation and tourism development and emphasizing the connectedness between local and global processes the role and influence of the local community in recreation and tourism changing patterns of tourism consumption the changing nature of tourism supply and the processes relating to the convergence of supply and demand **Rise of Resistance** Alex T. Wolf,2020-04-09 All of his life Lewis Smith knew only peace He was smart brave and always knew what the right thing to do Lewis was only fourteen years old when he saw his Father leave in a hurry one early morning Not knowing where his Father is heading Lewis follows him into town not knowing what was about to occur Nothing could prepare Lewis for what he encounters Within the first
