Cowstails And Cobras II:

Cowstails and Cobras II Karl Rohnke, Project Adventure, Inc, 1989 Cowstails and Cobras II is a rewrite of Karl Rohnke's classic guide to games initiative problems and adventure activities. It contains much and more of what made up the original standard in Adventure Education including sample curricula and leadership debriefing skills. The Evaluation of Adventure Based Counseling with at Risk Youth Sheila E. Combs, 2001 *Resources in Education*, 1993-07 Affordable Portables Chris Cavert, 1999 A must for educators, counselors and trainers who enjoy and understand the benefits of adventure based activities. This is a book of initiative activities and problem solving elements that you can create and use to start your own portable experiential challenge program or enhance the program you already have. All of the ideas here are presented with a tight budget in mind. The purpose is to provide a way for human services providers to afford the benefits challenge programming can offer. Cover Effective Leadership in Adventure Programming Simon Priest, Michael Gass, 2018-10-30 Some books address outdoor leadership, others focus on adventure programming. None delve into the specifics of both topics like Effective Leadership in Adventure Programming Third Edition does. The first edition of this book helped define the body of knowledge for an emerging profession. Two editions later, this groundbreaking text, now in full color, provides adventure leaders with the tools and evidence they need to show that their outdoor programs are effective and have a lasting impact on their participants. Internationally renowned authors Simon Priest and Michael Gass have significantly updated the content based on the latest research, issues and trends in the field of adventure education and leadership. They have reorganized chapters to conform to their new model of building core competencies. In addition, this third edition includes the following features: Material on technology, social justice, cultural adaptation, sustainability and facilitation techniques. An online instructor guide that offers activities, discussion questions and assessments compiled from a group of acclaimed instructors. A digital field handbook that offers quick reference to key models, concepts and checklists covered in the text. An expanded version of global perspectives valuable for long standing programs as well as those just beginning to enter the field. Effective Leadership in Adventure Programming details both the art and science of adventure leadership, helping a new generation of outdoor leaders develop their skills. The text extends the focus on evidence based models, theories and best practices, showing that science and research are as important to the profession as the natural beauty of the environment. The book describes the core competencies of outdoor leadership, providing a framework that helps leaders connect with participants in meaningful ways based on mutual goals. The focus on the science side is invaluable to new leaders and less experienced leaders, and it is a great refresher for leaders with more experience. This new edition offers a more detailed look at diversity and cultural competencies, preparing leaders to effectively manage diverse populations of participants. In addition, the content is in line with the updated accreditation standards from the Association for Experiential Education. The opening chapters of Effective Leadership in Adventure Programming supply a solid foundation in the research, philosophy, ethics and history of outdoor

leadership Numerous chapters explore the skills leaders need with topics that include technical activity safety and risk management environment organization instruction and facilitation The authors also examine leadership styles and conditional leadership issues communication sound judgment decision making problem solving and the trends and issues in adventure programming Effective Leadership in Adventure Programming will help readers understand the four adventure program areas recreation education development and therapy and how they influence the delivery of outdoor leadership The book is a valuable resource for the training and education of future outdoor leaders It will help readers know why they should work in the profession and understand how they can make a difference by being an effective outdoor leader Teaching Physical Activity Jim Stiehl,G. S. Don Morris,Christina Sinclair,2008 Teaching Physical Activity Change Challenge and Choice guides you in designing activities and games through which you can meet your objectives while engaging all the participants in your class or group Including foundational material on teaching activities and games 45 ready to use games and activities to get you started right away numerous tips ideas and strategies to help you fully understand and implement this approach

Handbook of Group Counseling and Psychotherapy Janice L. DeLucia-Waack,Cynthia R. Kalodner,Maria Riva,2013-12-02 The most comprehensive and thoroughly researched text available on this topic Handbook of Group Counseling and Psychotherapy Second Edition underscores the notion that group work is improved through increased collaboration between researchers and practitioners Edited by renowned leaders in the field this thoroughly updated and revised Second Edition explores current literature and research and offers suggestions for practice in psycho educational counseling and therapy groups The Handbook is divided into five main sections current and historical perspectives best practices multicultural and diverse groups groups in special settings and an introduction to special topics *Adventure Education as Cultural-Historical Activity* Jayson Owen Seaman,2006-04-17 The present study aims to illuminate the way participant learning in adventure experiences intersects with broader social cultural and institutional contexts and was guided by the following questions How is participant experience constructed in a facilitated small group adventure setting How is the construction of the adventure experience related to the intentions and orchestrations of the trainer How is the construction of the adventure experience related to the institutional and social context in which it occurs This study used grounded theory methodology Strauss Leontiev 1977 Vygotsky 1978 Activity as an analytic device facilitates the mapping of historical social and cultural influences on local action while grounded theory helps maintain close attention to local phenomena Aside from making methodological advances I develop several major concepts First I identify the object of adventure education as the morally improved and socially interdependent subject It is this object that defines and establishes the conditions toward which the activity is oriented and must be understood Second Participation frameworks position the subjects as interested actors who negotiate and align with one another through the course of different exercises As an analytic device participation frameworks help identify the way subjects expect the workshop to conform with their goals and

act on the basis of their expectations Third collaborative ideation is the process through which the object of adventure education is realized There are two sub parts to collaborative ideation vertically mediated action or the ways participants encounters with speech kinesthetic poses and physical instruments are orchestrated by the trainer for particular effect and horizontally mediated action or the ways participants become resources for each other s learning These factors reflect a complex process of interaction in which participants experience contradictions between the actions required for involvement in the adventure and the social expectations they have for situations

Controversial Issues in Adventure Programming Bruce Martin, Mark Wagstaff, 2012-05-04 *Controversial Issues in Adventure Programming* offers an engaging approach to the consideration of enduring current and emerging issues in the field. Written primarily for upper level undergraduate and graduate students, the text presents 20 issues in a debate format challenging students to participate in critical discourse concerning these issues as practitioners in the field of adventure programming. Respected authors Bruce Martin and Mark Wagstaff have assembled a team of more than 50 contributors from around the globe to reassess some of the underlying assumptions on which adventure programming is based. They have critically examined implications of new developments for emerging practice and discussed how best to position the field of adventure programming in addressing broader societal concerns. To set the stage for the debate, each issue is prefaced with a general overview including the evolution of the issue and its significance in light of broader social concerns. Then contributors present the pros and cons of each issue. A debate format helps students develop an understanding of the key points around each issue while also becoming familiar with current research pertinent to these issues. This approach also encourages students to grapple with these issues and begin to develop their own informed, thoughtful perspectives as they prepare for careers in adventure programming. *Controversial Issues in Adventure Programming* is divided into two parts. Part I begins by discussing issues of ongoing concern in the field, including the certification debate, motorized versus nonmotorized forms of outdoor recreation, and program accreditation. In part II, contemporary and emerging issues are presented, such as the use of online educational programming in the field of adventure programming. As a reference for practitioners and policy makers, *Controversial Issues in Adventure Programming* offers new and updated perspectives on enduring and emerging issues, as well as a synthesis of the most recent related scholarly literature. In addition, the text serves as a resource in understanding how the adventure programming industry can contribute to addressing issues of broad concern in society, such as public health, global climate change, stewardship of public lands and waterways, and education reform. *Controversial Issues in Adventure Programming* encourages readers to participate in some of the central debates occurring in the field. In particular, this timely resource will help students broaden their understanding of the field as they critically examine and respond to a range of enduring, contemporary, and emerging topics in adventure programming.

A Comparison of Two Outdoor Adventure Centres Pete McDonald, 2014-05-30 In 1983, the author spent a year working as an exchange teacher at Rubicon School Camp, Victoria, Australia. This paper, written towards the end of that year, compared many aspects of Rubicon School Camp and White Hall Centre, Derbyshire, UK. The paper was digitised and heavily edited or rewritten in 2014.
