Kroon, 2010-03-30 Defining more than 10 000 words and phrases from everyday slang to technical terms and concepts this dictionary of the audiovisual language embraces more than 50 subject areas within film television and home entertainment It includes terms from the complete lifecycle of an audiovisual work from initial concept through commercial presentation in all the major distribution channels including theatrical exhibition television broadcast home entertainment and mobile media The dictionary definitions are augmented by more than 700 illustrations 1 600 etymologies and nearly 2 000 encyclopedic entries that provide illuminating anecdotes historical perspective and clarifying details Flash 8: Projects for Learning Animation and Interactivity Rich Shupe, Robert

Hoekman, Jr., 2006-03-28 Macromedia Flash is fast becoming the Web s most widely used platform for creating rich media with animation and motion graphics but mastering Flash isn t easy Most entry level books teach through simple examples that concentrate on either animation or scripting but rarely both together To get the most from Flash 8 you not only need to be proficient in programming interface design you need the creativity for story telling and the artistic insights to design fluid

animation Flash 8 Projects for Learning Animation and Interactivity teaches Flash design rather than simply Flash itself With a standalone series of walkthroughs and tutorials for Flash beginners coming from a graphics field this book teaches Flash in the context of real world projects Rather than learn a Flash tool for the sake of it you learn which areas of Flash are important and which are less used simply by seeing how typical content is actually created And rather than a text heavy approach this graphically rich book leads you through hands on examples by illustration Each project in the book starts with goals and broad sketches before moving to design and scripting This helps you understand design intent the why of the process rather than just learning the interfaces and the how of it all Along the way you ll create Flash content that includes traditional animation techniques as seen in full length animated features and ActionScript based interactive animation such as custom web site interface designs You also learn how to combine both traditional animation techniques and ActionScript to create feature rich Flash assets from the ground up Co authored by educational developers with years of experience creating compelling content interfaces and applications Flash 8 Projects for Learning Animation and Interactivity offers a content driven approach that is also inspiration driven You learn because you re accomplishing something tangible not because you think you need to know how a tool works If you want to understand how various features of Flash come together to create a final end design this book provides you with both the insight and the know how
