Blind Men Of Hindoostan The Indopakistani Nuclear War:

Blind Men of Hindoostan Krishnaswami Sundarji,1994 *Pakistan's Nuclear Weapons* Bhumitra Chakma,2012-10-12

Pakistan is a vitally important country in the contemporary global political system It is a de facto nuclear state and a pivotal country in the War on Terror This book provides a comprehensive study of a nuclear armed Pakistan investigating the implications of its emergence as a nuclear weapons state Setting out the historical background of Pakistani nuclear development the book examines the lessons for proliferation that can be drawn from the Pakistan case It explains the changes and continuities of Pakistan s nuclear policy assessing its emerging force posture and the implications for Pakistani South Asian and global security It also considers the extent to which Pakistan can be said to have a nuclear doctrine the Pakistani nuclear command and control system and the relationship between Pakistan and the Non Proliferation regime Addressing the issue of whether Pakistan should be viewed as a proliferator and the implications of a nuclear Pakistan for global terrorism Pakistan s Nuclear Weapons is an important study of all the major issues surrounding Pakistan s emergence as a nuclear power

The Politics of Nuclear Weapons in South Asia Bhumitra Chakma,2016-02-24 An important and critical re evaluation of South Asia s post tests nuclear politics in contrast to other books this volume emphasises the political dimension of South Asia s nuclear weapons explains how the bombs are used as politico strategic assets rather than pure battlefield weapons and how India and Pakistan utilise them for politico strategic purposes in an extremely complex and competitive South Asian strategic landscape Written by a group of perceptive observers of South Asia this volume evaluates the current state of Indo Pakistani nuclear deterrents the challenges that the two countries confront in building their nuclear forces the post test nuclear doctrines of the two strategic rivals the implications of Indo Pakistani politics for regional cooperation the role of two systemic actors USA and China in the region s nuclear politics and the critical issues of confidence building and nuclear arms control

Pakistan's Tactical Nuclear Weapons Inderjit Panjra,2018-01-01 Amidst many developments in the constantly evolving Indo Pak conflict paradigm the latest and perhaps the most intriguing has been the induction of Tactical Nuclear Weapons TNWs by Pakistan While nuclear sabre rattling is not new to Pakistan s strategy this time around there seems to be a strong pitch among security analysts to project these as the proverbial Brahmastra in its possession foreclosing any sort of military retaliatory strike by India This is significant at a time when sporadic Pak sponsored terror attacks on Indian soil continue unabated For the Indian security analysts this raises some pertinent questions Is the threat of TNWs credible enough to deter India from launching a suitable military response to a Pakistan supported terror attack Does induction of TNWs by Pakistan materially alter the Indo Pak nuclear balance and consequently the direction any future conflict may assume What are the response options for India to retain restore the nuclear as well as overall security balance This book is an endeavour to find answers to all these In the process the author attempts to explore how the two protagonists view nuclear deterrence what is the relevance of nuclear weapons for both of

them how are the fundamental drivers of the ongoing conflict and the ever changing dynamics and influences in the region affecting it Using these parameters and the technical capabilities of TNWs believed to be held by Pakistan the author constructs five possible scenarios for the foreseeable future The outcome is interesting as it answers the fundamental question are Pakistan s TNWs indeed the game changer they are being touted as or are we giving the devil more than his due

India's Nuclear Debate Priyanjali Malik,2014-03-21 Making the right wing Bharatiya Janata Party s nuclear tests in 1998 its starting point this book examines how opinion amongst India s attentive public shifted from supporting nuclear abstinence to accepting and even feeling a need for a more assertive policy by examining the complexities of the debate in India on nuclear policy in the 1990s The study seeks to account for the shift in opinion by looking at the parallel processes of how nuclear policy became an important part of the public discourse in India and what it came to symbolise for the country s intelligentsia during this decade It argues that the pressure on New Delhi in the early 1990s to fall in line with the non proliferation regime magnified by India s declining global influence at the time caused the issue to cease being one of defence making it a focus of nationalist pride instead The country s nuclear programme thus emerged as a test of its ability to withstand external compulsions guaranteeing not so much the sanctity of its borders as a certain political idea of it that of a modern scientific and most importantly sovereign state able to defend its policies and set its goals

The Politics of Nuclear Weapons in South Asia Dr Bhumitra Chakma,2013-04-28 An important and critical re evaluation of South Asia s post tests nuclear politics in contrast to other books this volume emphasises the political dimension of South Asia s nuclear weapons explains how the bombs are used as politico strategic assets rather than pure battlefield weapons and how India and Pakistan utilise them for politico strategic purposes in an extremely complex and competitive South Asian strategic landscape Written by a group of perceptive observers of South Asia this volume evaluates the current state of Indo Pakistani nuclear deterrents the challenges that the two countries confront in building their nuclear forces the post test nuclear doctrines of the two strategic rivals the implications of Indo Pakistani politics for regional cooperation the role of two systemic actors USA and China in the region s nuclear politics and the critical issues of confidence building and nuclear arms control

India and Pakistan Stanley A. Wolpert,Stanley Wolpert,2010 Beginning with 1947 when India and Pakistan were born to conflict renowned India scholar Stanley Wolpert provides an authoritative accessible overview of what is potentially the world s most dangerous crisis He concisely distills sixty three years of complex history tracing the roots of the relationship between these two antagonists explaining the many attempts to resolve their disputes and assessing the dominant political leaders In addition to providing a comprehensive perspective on the origin and nature of this conflict Wolpert examines all the proposed solutions and concludes with a road map for a brighter future for South Asia

Blind Men of Hindoostan Krishnaswami Sundarji,1993 **The Evolution of Nuclear Strategy** Lawrence Freedman,Jeffrey Michaels,2019-07-31 The Evolution of Nuclear Strategy quickly established itself as a classic when it first appeared in 1981

This edition makes it even better incorporating as it does new material about the Cold War and up dating to include subsequent developments Filled with insights and penetrating analysis this volume is truly indispensable Robert Jervis Author of *How Statesmen Think* Freedman and Michaels have written a thorough and thought provoking guide to nuclear strategy The authors analyze the causes of both wise and unwise strategic decisions in the past and thereby shine a bright light on dilemmas we face in our common nuclear future Scott Sagan Stanford University USA With its comprehensive coverage clear and direct language and judicious summaries of a vast literature this new and wholly revised edition of *The Evolution of Nuclear Strategy* will be essential reading for any student of nuclear history strategic studies or contemporary international relations Matthew Jones London School of Economics and Political Science UK Sir Lawrence Freedman's *The Evolution of Nuclear Strategy* has been the first port of call for three generations of academics and policy makers wanting to familiarize themselves with the subject matter The success of this book could have led Professor Freedman to satisfy himself with regular updates or afterwords But the tireless author is now gracing us with an entirely revised edition of his masterpiece nearly forty years after its initial publication taking into account findings from archives and declassified documents At the same time *The Evolution of Nuclear Strategy* remains true to its original purpose and spirit an easy to read manual light with footnotes focusing on policy rather than on theory and thus the best possible introduction to an arcane subject In an era when nuclear strategy issues seem to be becoming relevant again its historical scope and breadth will make its reading or re reading even more useful if only because knowing about the absurdity of the Cold war arms race is a prerequisite if one does not want to repeat its mistakes Bruno Tertrais Deputy Director Fondation pour la Recherche Stratégique France This updated and improved edition of the classic text on the evolution of nuclear strategy is a must read for anyone attempting to understand the nuclear predicament and where it is heading Impressive in every respect T V Paul James McGill Professor of International Relations McGill University Canada and the author of *The Tradition of Non Use of Nuclear Weapons* After the end of the Cold War we hoped for a world in which nuclear weapons would have low salience or might even disappear into virtual non assembled arsenals Alas they are coming to the fore again With changes in political context and technology it is thus pressing that the Bible on the Evolution of Nuclear Strategy should be updated Lawrence Freedman's great classic has been admirably updated with the help of Jeff Michaels The work just as its previous editions thus remains the definitive and authoritative point of reference on nuclear strategy in the twenty first century Beatrice Heuser Chair of International Relations University of Glasgow Scotland First published in 1981 Lawrence Freedman's *The Evolution of Nuclear Strategy* was immediately acclaimed as the standard work on the history of attempts to cope militarily and politically with the terrible destructive power of nuclear weapons It has now been completely rewritten drawing on a wide range of new research and updated to take account of the period following the end of the cold war and covering all nuclear powers

South Asian Security and International Nuclear Order Mario Esteban Carranza, 2016-04-01 Mario

Carranza studies in depth the linkages between Indo Pakistani nuclear relations and the International Nuclear Order. He critically analyzes the de facto recognition by the United States of India and Pakistan as nuclear weapon states and looks at the impact of that recognition on the International Nuclear Order and its linchpin the Nuclear Non Proliferation Treaty NPT. The book provides a critical analysis of the New International Nuclear Order sponsored by the United States after the September 11 terrorist attacks and the place of India and Pakistan in that order. The author considers the survival of India and Pakistan in relation to a strategy of nuclear deterrence and debates the possibility of establishing a robust nuclear arms control regime in South Asia as part of a broader effort to revive global nuclear arms control and disarmament negotiations.

India's Nuclear Diplomacy After Pokhran II Ajai K. Rai, 2009. India's emergence as a confident and responsible nuclear nation has required careful crafting of its nuclear policies. After Pokhran II and the Chagai Hills tests, the South Asian security architecture and with it the whole matrix of nuclear diplomacy had undergone a paradigmatic shift. India's nuclear diplomacy too acquired a new prominence after these events. It was important for India to improve its bilateral relations with major powers for strategic reasons. At the same time it needed to address the challenge of its burgeoning energy needs at home. India's Nuclear Diplomacy After Pokhran II presents an analytical perspective based on a narrative exposition of the facts and issues involved in international nuclear gamesmanship, taking every care to maintain objectivity and balance. Flowing from years of intensive research and reflection, this book breaks new ground by focusing on India's nuclear diplomacy with the major global and regional powers and the rationale of its stand vis-à-vis the NPT and CTBT. To reach out to the general reader in addition to scholars of the subject, this book unravels the intricacies and technicalities of the post Pokhran II diplomacy in lucid and comprehensible phraseology. *India's Sentinel: Select Writings of Air Commodore Jasjit Singh* AVSM, VrC, VM (Retd) Dr Manpreet Sethi, Dr Shalini Chawla, 2014-07-15. Air Commodore Jasjit Singh was one of India's foremost strategic analysts. The only constant for him in over three decades of research, analyses and writing was the centrality of national interest. Indeed, the man never let the nation down, whether as an air warrior or a strategist, ever ready to voice his views irrespective of how the wind was blowing and always remaining practical in approach. Ever an optimist, he believed that India would inevitably rise to power by the sheer size of its economy and human resource potential. A greater concern for him, however, was the need to sensitize his compatriots to the national security challenges that would arise as the country rose and to equip them with the capability to optimally address these. He did so through his writings and talks. This book is a modest compilation of his select writings on two specific issues: nuclear strategy and Pakistan, since he considered these as critical amongst India's many security challenges. Of course, the range of Jasjit Singh's writings and the expanse of his knowledge is immense and beyond capture in one book. But this is a small effort in the direction of spreading his message, ideas to the current and future generation of scholars and policy makers. Hopefully, it will encourage students of national security to look for more of his writings beyond the few that we have been able to carry in this volume. *Pakistan's Nuclear*

Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India's nuclear weapons tests Pakistan tested six nuclear weapons. Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence. This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed strategic environment. After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test. It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study. The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence. The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option. Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence. Conceptually providing a deeper understanding of Pakistan's post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels. It will be a useful contribution in the field of Nuclear Policy Security Studies Asian Politics Proliferation Non Proliferation Studies and Peace Studies. This book will be of interest to policy makers scholars and students of nuclear policy nuclear proliferation and arms control related research. UGC-NET/JRF/SET Political Science (Papers II and III) S Chand Experts, The book is an effective resource for the preparation of Political Science papers of UGC NET JRF SET exams. It contains MCQs on relevant topics such as Political Theory Comparative Politics Public Administration and International Relations. The book is also a unique and well structured resource as a it can be used with any good textbook in undergraduate or postgraduate course b it can be used with any preparation system because it meshes with any lesson plan learning approach or teaching methodology and c it would help aspirants calculate their learning quotient and make their preparation and assessment better.

The Oxford Handbook of Indian Politics Sumit Ganguly, Eswaran Sridharan, 2024-07-11 The study of Indian politics has witnessed a dramatic revival worldwide in the last few decades. There have been significant developments in national politics since 2014 with the advent of the single party majority government of the Bharatiya Janata Party the first such majority since 1984. Moreover the results of the 17th Lok Sabha Lower House election in India in 2019 have had major implications for the party system in India. In the light of these developments The Oxford Handbook of Indian Politics provides the most comprehensive up to date coverage of the state of contemporary Indian politics. To that end it examines the evolution of core institutions processes policies and associated issues that are being debated in India's politics.

It also provides historical contexts discusses the state of the extant literature in each issue area and suggests avenues for future research The contributors to this volume are all noted scholars and researchers in their respective fields of specialization located both in India and around the world The major topics covered include the Constitution citizenship the houses of Parliament the Cabinet the judiciary federalism and local governments elections parties and coalitions secularism and minorities caste gender and migration political violence political finance political economy and foreign and defence policies In effect The Oxford Handbook of Indian Politics offers scholars analysts and students a sweeping overview of the current landscape of Indian politics with particular attention to issues that have emerged over the past decade

Planning the Unthinkable Peter René Lavoy, Scott Douglas Sagan, James J. Wirtz, 2000 The proliferation of chemical biological and nuclear weapons is now the single most serious security concern for governments around the world This text compares how organisations shape the way leaders intend to employ these armaments *India's Nuclear Bomb and National Security* Karsten Frey, 2007-01-24 Karsten Frey gives an analytic account of the dynamics of India's nuclear build up putting forward a new comprehensive model which goes beyond the classic strategic model of accepting motives of arming behaviour and incorporates the dynamics in India's nuclear programme *Maintaining Nuclear Stability in South Asia* Neil Joeck, 2013-09-13 Argues that while nuclear weapons and ballistic missiles cast a shadow over Indo Pakistani relations they do not create strategic stability He asserts that the development of command and control mechanisms would enhance stability but that diplomatic steps focused on missiles must also be considered Improved command and control and diplomatic engagement will provide some insurance that nuclear weapons are not used in any future conflict *Engaging India* Gary K. Bertsch, Seema Gahlaut, Anupam Srivastava, 1999-07-12 First published in 1999 Routledge is an imprint of Taylor Francis an informa company

The Rise of Indian Military Power: Evolution of an Indian Strategic Culture, 2015-07-15 This is a monumental and decisively shape outcomes For this economic power must be rapidly converted into usable military power India must field dominant war fighting capabilities in South Asia
