Blood and Bone I. M. Lewis, 1994 An analysis challenging contemporary anthropological understanding of kinship structures *Blood and Bone* I. M. Lewis, 1994 An analysis challenging contemporary anthropological understanding of kinship structures **The Ethiopian State at the Crossroads** Leenco Lata, 1999 *Understanding the Somalia Conflagration* Afyare Abdi Elmi, 2010-06-04 Is peace building in Somalia possible Devastated by a US backed Ethiopian invasion and years of civil war Somalia has long been without a central government against this background of violence and instability Somali academic Afyare Abdi Elmi explains the multiple dimensions of the conflict seeking a peace building consensus Somalia is a failed state and a Muslim state a combination the West assumes means it s a breeding ground for extremism Coupled with the country s reputation as a piracy hotspot this combination of internal division and outside interference makes for an intensely hostile landscape Elmi shows that only by addressing the problem of the statelessness in the country can the long process of peace begin He highlights clan identities Islam and other countries in the region as the key elements in any peace building effort setting out a path for the international community to follow *British Somaliland* Brock Millman, 2013-12-04 British Somaliland provides a history of the administration of the British Somaliland Protectorate from the time when Somaliland first became governable following the defeat of Abdullah Hassan to independence Describing the interplay between general imperial policies and greater realities and developments in Somaliland the focus of the book remains on the mechanism by which the Protectorate was operated The regime that developed was in the end a highly autocratic despotism generally benign but occasionally predatory Independence when it arrived was in retrospect a tragedy Somaliland was absorbed into Somalia and a governmental style which suited the conditions of the Protectorate was dissolved into something very different Since the collapse of Somalia re emergent Somaliland appears to be attempting to re connect to a past remembered as something of a golden age Highly topical as Somaliland is re emerging this book is an invaluable resource for students and scholars of African History Imperial History and British History *International Perspectives on Family Violence and Abuse* Kathleen Malley-Morrison, 2012-12-06 In this book in which definitions and examples of abuse from men and women from every continent and a very diverse set of backgrounds are considered The volume provides information on the extent to which family violence is a recognized problem in each country research findings available on different forms of family violence and information on governmental responses to family violence Finally the value of an international human rights approach to abuse and violence in families is considered The book presents an unparalleled international coverage addressing all forms of family violence in Australia and at least two countries from every other continent Each chapter begins by describing the cultural context in which family violence and abuse take place These sections emphasize the role of women and children in the country Providing a multitude of voices each chapter includes fascinating and often dramatic definitions and examples of abuse from ordinary citizens of the country The concluding

chapter elaborates on the appropriateness of a human rights approach in addressing family violence cross nationally and cross culturally and provides an excellent integration of much of the material from the previous chapters The book is intended for advanced undergraduates and graduate students in psychology and sociology as well as pre professionals and professionals in medicine law and social services It has strong relevance and value to individuals training in counseling counselor education and clinical psychology Because of its readable style and extensive use of quotations from citizens of the countries studied for the book it may also appeal to a much broader audience including a lay audience

This book examines major Hispanic African and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes Through both historical and contemporary case studies the contributors examine how race and ethnicity affect the places we live work and visit illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups While primarily addressed to students and scholars in the fields of racial and ethnic geography these case studies will be accessible to anyone interested in race place connections race ethnicity boundaries the development of racialization and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico Taken together they show how individuals and culture groups through their ideologies social organization and social institutions reflect both local and regional processes of place making and place remaking that occur within and beyond the continental United States

As Pastoralists Settle Elliot Fratkin, Eric Abella Roth, 2006-03-30 *The Social Health and Economic Consequences of Pastoral Sedentarization in Marsabit District Northern Kenya* ERICABELLA ROTH AND ELLIOT FRATKIN 1 INTRODUCTION Formerly nomadic livestock keeping pastoralists have settled in many regions of the world in the past century Some groups including those in the former Soviet Union Iran and Israel have settled in response to state enforced measures others including Saami in Norway or Bedouins in Saudi Arabia in response to changing economic opportunities East Africa home to many cattle and camel keeping pastoral societies has been among the most recent to change The shift to sedentism by East African pastoralists increased dramatically in the late 20th century as a result of sharp economic political demographic and environmental changes Prolonged drought population growth increased reliance on agriculture and political insecurities including civil war and ethnic conflict have all affected the ability of pastoralists to keep their herds Still the majority of pastoralist households in Kenya Ethiopia Somalia and Tanzania remain committed to raising livestock even as they adapt to farming or urban residence Pastoral production remains a major economic focus in the savannas and scrub deserts of Africa due to both its ecological adaptability and the economic incentive to market livestock and their products Fratkin 2001 Pastoralists settle for a variety of reasons some in response to pushes away from the pastoral economy others to the pulls of urban or agricultural life *The Country that Does Not Exist* Gérard Prunier, 2021 Conveys how one of the world's newest nations came into being and survived against all odds **The Church Going Global** Tormod Engelsen, Erling Lundeb, Dagfinn Solheim, 2011 *States, Scarcity, and Civil Strife in the Developing World* Colin H. Kahl, 2006 Over the past several decades civil and ethnic wars have undermined prospects for economic and political development destabilized entire regions of the globe and left millions dead *States Scarcity and Civil Strife in the Developing World* argues that demographic and environmental stress the interactions among rapid population growth environmental degradation inequality and emerging scarcities of vital natural resources represents one important source of turmoil in today's world Kahl contends that this type of stress places enormous strains on both societies and governments in poor countries increasing their vulnerability to armed conflict He identifies two pathways whereby this process unfolds state failure and state exploitation State failure conflicts occur when population growth environmental degradation and resource inequality weaken the capacity legitimacy and cohesion of governments thereby expanding the opportunities and incentives for rebellion and intergroup violence State exploitation conflicts in contrast occur when political leaders themselves capitalize on the opportunities arising from population pressures natural resource scarcities and related social grievances to instigate violence that serves their parochial interests Drawing on a wide array of social science theory this book argues that demographically and environmentally induced conflicts are most likely to occur in countries that are deeply split along ethnic religious regional or class lines and which have highly exclusive and discriminatory political systems The empirical portion of the book evaluates the theoretical argument through in depth case studies of civil strife in the Philippines Kenya and numerous other countries

The book concludes with an analysis of the challenges demographic and environmental change will pose to international security in the decades ahead *Peacebuilding in the African Union* Abou Jeng, 2012-08-02 Particularly in the context of internal conflicts international law is frequently unable to create and sustain frameworks for peace in Africa In *Peacebuilding in the African Union* Abou Jeng explores the factors which have prevented such steps forward in the interaction between the international legal order and postcolonial Africa In the first work of its kind Jeng considers whether these limitations necessitate recasting the existing conceptual structure and whether the Constitutive Act of the African Union provides exactly this opportunity through its integrated peace and security framework Through the case studies of Burundi and Somalia Jeng examines the structures and philosophy of the African Union and assesses the capacity of its practices in peacemaking In so doing this book will be of great practical value to scholars and legal practitioners alike **Religion in**

Context I. M. Lewis, 1996-04-18 Religious power assumes many strikingly different forms which are often regarded as unique unrelated and even mutually exclusive *Religion in Context* however adopts a holistic approach and argues that these apparently contradictory mystical experiences are in fact part of a web of mutually defining and sustaining elements Stressing the importance of rigorous social contextualisation I M Lewis analyses phenomena such as spirit possession witchcraft cannibalism and shamanism revealing connections between them and with the world religions This expanded and updated edition illuminates critical aspects of religious power and demonstrates the value of a comparative approach to formulating anthropological theory It will be of value to students of anthropology religion and to anyone concerned with the nature of religion in the modern world **Understanding Somalia** I. M. Lewis, 1993 Lewis brings his considerable

knowledge of the area to set out in accessible form and in highly readable style the complexities of Somali societal and clan structure traditions and historically significant events This information handbook is recommended briefing material for aid workers or journalists visiting the area Essential reading for those planning to visit or work in Somalia and for the general reader with an interest in the Horn it lifts the veil on a fascinating and functioning heritage **The Suicidal State in**

Somalia Mohamed Haji Ingiriis, 2016-04-01 This book is a critical reposition of the study of military regimes in Africa Documenting and delving deep into the reign and rule of General Mohamed Siad Barre regime in Somalia from 1969 up to 1991 the book puts emphasis on African agencies ostensibly shaped by external beneficiaries and patrons over what went wrong with Africa after the much awaited post colonial period It does so by critically engaging with the wider theoretical and conceptual frameworks in African Studies which more often than not tend to attribute the post colonial African State raptures to colonialism The main thesis of the book is that colonialism left Africa on its own space wherein African leaders could have made a difference By putting discrete perspectives into historical context the book circumnavigates through comparative and comprehensive holistic approach to the Siad Barre regime to reveal how colonialism did not produce less than what criminalisation of the State resulted in Somalia This empirical analysis is crucial to understanding the

contemporary conundrum facing the Somali world today The argument is that the contemporary conflicts are not only attributable to but also because of the past plunders of the post colonial leaders trained by the departed colonial authorities Employing nuanced analytic concepts and categories the aim of the book is to refine the past to recapture the present and envision the future Framing new ways of analyzing military regimes in Africa begins with re assessment of how the Siad Barre regime was previously approached Marshalling extensive and extraordinary amount of sources the book unveils the intricacies and contradictions of the dictatorship and its impact on the Somali psyche The book locates the evolution of the regime within the wider context of the Cold War political contestation between the East and the West Unparalleled in depth and analysis this book is the first full length scholarly study of the Siad Barre regime systematically explaining the politics and process of the dictatorial rule The historicity of exploring Somali State trajectory entails employing a Braudelian *longue durée* approach Thus three interrelated sets of contexts questions inform the study how Siad Barre himself came into power how he ruled and maintained his authoritarian reign over the Somalis and who had assisted him from inside and outside the Somali world

The Rule of the Clan Mark S. Weiner,2013-03-12 A revealing look at the role kin based societies have played throughout history and around the world A lively wide ranging meditation on human development that offers surprising lessons for the future of modern individualism The Rule of the Clan examines the constitutional principles and cultural institutions of kin based societies from medieval Iceland to modern Pakistan Mark S Weiner an expert in constitutional law and legal history shows us that true individual freedom depends on the existence of a robust state dedicated to the public interest In the absence of a healthy state he explains humans naturally tend to create legal structures centered not on individuals but rather on extended family groups The modern liberal state makes individualism possible by keeping this powerful drive in check and we ignore the continuing threat to liberal values and institutions at our peril At the same time for modern individualism to survive liberals must also acknowledge the profound social and psychological benefits the rule of the clan provides and recognize the loss humanity sustains in its transition to modernity Masterfully argued and filled with rich historical detail Weiner's investigation speaks both to modern liberal societies and to developing nations riven by clannism including Muslim societies in the wake of the Arab Spring
