Smith, Tony Keddie, 2023-11-30 This collection of essays from a diverse group of internationally recognized scholars builds on the work of Steven J Friesen to analyze the material and ideological dimensions of John's Apocalypse and the religious landscape of the Roman East. Readers will gain new perspectives on the interpretation of John's Apocalypse, the religion of Hellenistic cities in the Roman Empire, and the political and economic forces that shaped life in the Eastern Mediterranean. The chapters in this volume examine texts and material culture through carefully localized analysis that attends to ideological and socioeconomic contexts, expanding upon aspects of Friesen's research and methodology while also forging new directions. The book brings together a diverse and international set of experts, including emerging voices in the fields of biblical studies, Roman social history, and classical archaeology, and each essay presents fresh, critically informed analysis of key sites and texts from the periods of Christian origins and Roman imperial rule. *Revelation and Material Religion in the Roman East* is of interest to students and scholars working on Christian origins, ancient Judaism, Roman religion, classical archaeology, and the social history of the Roman Empire, as well as material religion in the ancient Mediterranean more broadly. It is also suitable for religious practitioners within Christian contexts.

The Mishnaic Sotah Ritual Ishay Rosen-Zvi, 2012-05-11 This study analyzes the specific textual formation of Mishna Sotah. Diverging significantly from its origins in the book of Numbers, the Mishnaic ritual was traditionally read by scholars as an ancient Mishna narrating an actual ritual practiced in the second temple. In contrast to this generally accepted view, this book claims that while Sotah does contain some traditions, its overall composition has a clear ideological and academic form. Furthermore, comparisons with parallel Tannaitic sources reveal the ideological redaction which carefully selected only those opinions which support its rewriting of the ritual as a public punitive ritual, while rejecting all reservations and opposition to its specific punitive character, even ignoring the possibility of innocence of the suspected adulteress. The author's groundbreaking conclusion is that regardless of the form the real ritual did or did not take at the temple, the specific Mishnaic ritual was re-invented by the rabbis in the second century C.E. From its very inception, it was purely textual, reflecting rabbinic imagination rather than memory.

Rituals of Triumph in the Mediterranean World Anthony Spalinger, Jeremy Armstrong, 2013-07-01 Societies both ancient and modern have frequently celebrated and proclaimed their military victories through overt public demonstrations. In the ancient world, however, the most famous examples of this come from a single culture and period: Rome in the final years of the Roman Republic and early Roman Empire, while those from other cultures such as Egypt, Greece, Neo-Assyria, and indeed other periods of Roman history are generally unexplored. The aim of this volume is to present a more complete study of this phenomenon and offer a series of cultural reactions to successful military actions by various peoples of the ancient Mediterranean world, illustrating points of similarity and diversity and demonstrating the complex and multifaceted nature of this trans-cultural practice. The book nevertheless represents a valuable collection of papers on a not so widely researched topic and is clearly a stepping stone for further research, as indeed the editors intended it to be.
