**Tracing and Documenting Nazi Victims Past and Present** Henning Borggräfe, Christian Höschler, Isabel Panek, 2020-06-08 After World War II tracing and documenting Nazi victims emerged against the background of millions of missing persons and early compensation proceedings This was a process in which the Allies international aid organizations and survivors themselves took part New archives documentation centers and tracing bureaus were founded amid the increasing Cold War divide They gathered documents on Nazi persecution and structured them in specialized collections to provide information on individual fates and their grave repercussions the loss of relatives the search for a new home physical or mental injuries existential problems social support and recognition but also continued exclusion or discrimination By doing so institutions involved in this work were inevitably confronted with contentious issues such as varying political mandates neutrality vs solidarity with

those formerly persecuted data protection vs public interest and many more Over time tracing bureaux and archives changed methods and policies and even expanded their activities using historical documents for both research and public remembrance This is the first publication to explore this multifaceted history of tracing and documenting past and present
