change May Day celebrations in England in the 1400s featured a festival king called Robin Hood Later Versions By the 1500s more elaborate versions of the legend had begun to appear Some of these suggested that Robin was a nobleman who had fallen into disgrace and had taken to the woods to live with other outlaws Robin also acquired a girlfriend named Maid Marian and a new companion a monk called Friar Tuck His adventures were then definitely linked to Sherwood Forest Beginning in the 1700s various scholars attempted to link Robin Hood with a real life figure either a nobleman or an outlaw But none of their theories have stood up to close examination Robin was most likely an imaginary creation although some of the tales may have been associated with a real outlaw Also at about this time Robin began to be linked with the reigns of King Richard I The Lionhearted who died in 1189 and of King John who died in 1216 The original medieval ballads however contain no references to these kings or to a particular time in which Robin was supposed to have lived Later versions of the Robin Hood legend placed more emphasis on Robin's nobility and on his romance with Marian than on the cruelty and social tension that appear in the early ballads In addition to inspiring many books and poems over the centuries Robin Hood became the subject of several operas and in modern times numerous movies
