The Greek Experience of India Richard Stoneman, 2021-06-08 An exploration of how the Greeks reacted to and interacted with India from the third to first centuries BCE When the Greeks and Macedonians in Alexander s army reached India in 326 BCE they entered a new and strange world They knew a few legends and travelers tales but their categories of thought were inadequate to encompass what they witnessed The plants were unrecognizable their properties unknown The customs of the people were various and puzzling While Alexander s conquest was brief ending with his death in 323 BCE the Greeks would settle in the Indian region for the next two centuries forging an era of productive interactions between the two cultures The Greek Experience of India explores the various ways that the Greeks reacted to and constructed life in India during this fruitful period From observations about botany and mythology to social customs Richard Stoneman examines the surviving evidence of those who traveled to India Most particularly he offers a full and valuable look at Megasthenes ambassador of the Seleucid king Seleucus to Chandragupta Maurya and provides a detailed discussion of Megasthenes s now fragmentary book Indica Stoneman considers the art literature and philosophy of the Indo Greek kingdom and how cultural influences crossed in both directions with the Greeks introducing their writing coinage and sculptural and architectural forms while Greek craftsmen learned to work with new materials such as ivory and stucco and to probe the ideas of Buddhists and other ascetics

An Anxious Pursuit Joyce E. Chaplin, 2012-12-01 In An Anxious Pursuit Joyce Chaplin examines the impact of the Enlightenment ideas of progress on the lives and minds of American planters in the colonial Lower South She focuses particularly on the influence of Scottish notions of progress tracing the extent to which planters in South Carolina Georgia and British East Florida perceived themselves as a modern improving people She reads developments in agricultural practice as indices of planters desire for progress and she demonstrates the central role played by slavery in their pursuit of modern life By linking behavior and ideas Chaplin has produced a work of cultural history that unites intellectual social and economic history Using public records as well as planters and farmers private papers Chaplin examines innovations in rice indigo and cotton cultivation as a window through which to see planters pursuit of a modern future She demonstrates that planters actively sought to improve their society and economy even as they suffered a pervasive anxiety about the corrupting impact of progress and commerce The basis for their accomplishments and the root of their anxieties according to the Chaplin were the same race based chattel slavery Slaves provided the labor necessary to attain planters vision of the modern but the institution ultimately limited the Lower South s ability to compete in the contemporary world Indeed whites continued to wonder whether their innovations

some of them defied by slaves truly improved the region Chaplin argues that these apprehensions prefigured the antimodern stance of the antebellum period but she contends that they were as much a reflection of the doubt inherent in theories of progress as an outright rejection of those ideas *Gandhi in His Time and Ours* David Hardiman,2003 This biographical study of Mahatma Gandhi focuses on the global legacy of his ideas relating to religion non violence the state and economics and discusses how these have been taken up in the years since his death in 1947 Empire, Industry and Class Anthony Cox,2013 He making and re making of the imperial nexus of jute 1840 1940 The coming of the up countrymen labour conditions and class formation in the Bengal jute industry 1875 1910 The making of juteopolis and the imperial nexus of jute 1875 1910 Working class militancy and labor politics in juteopolis 1885 1923 Challenging the jute wallahs non co operation communism and the Marwaris 1918 30 The imperial nexus and labor politics in dundee during the 1920s The breaking of the Dundee Calcutta nexus 1930 40 Conclusion Foundations of Indian Contract Law ,2024-11-25 This new volume analyses the central doctrines and concepts of Indian contract law and provides guidance on the interpretation of the Indian Contract Act 1872 by examining its historical philosophical and comparative foundations Featuring contributions from practitioners and academics from around the world the book follows a methodology carefully calibrated to address the shortcomings in traditional Indian contract law scholarship The primary presuppositions of this methodology are that a the answers to many difficult questions of Indian contract law can be found in the history of the Contract Act and b while it is difficult to understand the Contract Act other than against the backdrop of the common law one should not assume that Indian contract law mirrors the common law on all difficult points Each chapter therefore pays close attention to the legislative history of the relevant provision s of the Contract Act Based on a holistic analysis of the Contract Act s drafting history and its current interpretation Foundations of Indian Contract Law is a carefully crafted volume providing the input needed to influence the Indian courts approach to contract law inform meaningful legislative reform and more broadly catalyse a culture of critical scholarship on Indian private law Formed of 24 chapters and a conclusion by Professor Hugh Beale former Commercial Law and Common Law Commissioner at the Law Commission of England and Wales the volume presents an authoritative exposition of a branch of the law that is of considerable interest and great practical importance for practitioners scholars and students interested in Indian contract law **Peasant Labour and Colonial Capital** Sugata Bose,1993-03-11 A critical work of synthesis and interpretation of agrarian change in India over the long term **Censorship** Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many

Baptists, Bengalis, and the Construction of Agricultural and Horticultural Science in India, 1793-1840 Laura

Tavolacci,2025-09-26 The Agricultural and Horticultural Society of India was founded in 1820 by an English Baptist missionary William Carey He was part of a network of missionaries centred at Srirampur Serampore the Danish settlement close to Calcutta This book explores the ways that missionaries included plants in their projects of proselytization to better understand the origins of this scientific society It includes an investigation of the farms and gardens at each mission station the missionaries work with indigo plantations and different scientific projects leading up to the creation of the agricultural society Amidst all of this plants became an important target and sign of moral improvement marking a sort of moral frontier which reiterated racial hierarchies Nevertheless various entanglements with Bengali converts gardeners malis and the elite bhadralok class also impacted the missionary vision In the initial years of the scientific organisation missionaries and their interlocutors upheld a romantic and hierarchical vision of agrarian society that mixed gardening with large scale agriculture but an economic depression in 1833 followed shortly by William Carey s death in 1834 ended this composite vision The Society began to focus instead on the production of more remunerative agricultural cash crops like sugar and cotton over horticultural crops like vegetables and fruit trees
