Blue Coated Worker:

The Blue-Coated Worker Robert Reiner, 1978-09-07 This 1978 book addresses the way in which police unions had become increasingly militant and formed a significant political force demanding better pay and conditions and a say in social and penal policy In this study Robert Reiner considers the development of British police unionization and the views of the police themselves towards unionism Dr Reiner is able to relate these two issues to one another particularly insightfully as a result of his interviews with a sample of policemen in a large city force which illustrate the policeman's world view The central contention of the book is that the police occupy a contradictory position in class structure Economically they are employees who form unions to advance their interests like other workers but their political role of preserving the social order imposes special inhibitions on the character of their unionism and can alienate them from other trade unionists *The Blue-Coated Worker* Robert Reiner, 1978

The Lower Deck of the Royal Navy 1900-39 Anthony Carew, 1981 *Facing Up to Thatcherism* Mike Ironside, Roger V. Seifert, 2000 Throughout the 1980s Margaret Thatcher dominated political life in the UK This work analyzes the responses of NALGO The National and Local Government Officers Association members activists leaders and officials to the government's public sector reform and restructuring programme *Representations of Policing in Northern Irish Theatre* T. W. Saunders, 2023-03-31 This monograph provides the first sustained chronological account of Northern Irish police officers representation in theatre Importantly its scope comprises a critical period of national and organisational development beginning with the Partition of Ireland in 1921 and the founding of the Royal Ulster Constabulary RUC one year later in 1922 It progresses through the relevant theatrical and historical events of the century through the period after the RUC's dissolution and replacement with the Police Service of Northern Ireland PSNI in 2001 and concludes in 2021 to coincide with the centenary of Partition As such this project is distinctive in its ability to trace paradigm shifts in perceptions of the police over time as they intersect with relevant historical events and milestones of political conflict in the province *Democratic Policing in a Changing World* Peter K. Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today's relationship between democracy and policing *Democratic Policing in a Changing World* documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies *Thinking About Criminology* Simon Holdaway, Paul Rock, 2005-08-11 First published in 1998 Routledge is an imprint of Taylor Francis an informa company *Protectors of Privilege* Frank Donner, 1992-09-30 This landmark exposé of the dark history of repressive police operations in American cities offers a richly

detailed account of police misconduct and violations of protected freedoms over the past century In an incisive examination of undercover work in Chicago Los Angeles New York and Philadelphia as well as Washington D C Detroit New Haven Baltimore and Birmingham Donner reveals the underside of American law enforcement **Controlling the Constable** Tony Jefferson, Roger Grimshaw, 2023-03-31 In the early 1980s the question of how far the police should be accountable for their actions had become extremely vexed The impending new Police Bill the Scarman report and the pressure from many sides for an independent complaints machinery hinged on this issue and a careful review of the problem was badly needed The Cobden Trust commissioned Tony Jefferson and Roger Grimshaw to research into the matter and **Controlling the Constable** originally published in 1984 is the result of their findings The authors examine closely the concept of constabulary independence at the time They look at the relevant legal history and at how this independence was used by chief constables from day to day On this basis they then re assess two of the most controversial policing operations of modern times Brixton prior to the 1981 Riots and Southall on 23 April 1979 a day which resulted in hundreds of arrests and the death of Blair Peach They conclude that the concept embodies a fundamental incoherence the reliance on the law to guide the chief constable and the failure of the law to do so They show that all the current proposals for reform which entailed greater emphasis on the democratic system as a guide could result in similar incoherence A new approach to the conflict between legal authority and democratic authority was urgently needed **Controlling the Constable** points the way to the only satisfactory resolution and this included a concept of justice which was coherent and which could serve as a real guide for the chief constable in using his discretion The book was controversial but quite clear on one point however independent any new complaints procedure may become and however much committees were consulted by chief constables via Scarman type liaison committees until the problem was tackled on this fundamental level there could be no significant change in police behaviour **Police Community Support Officers** Megan O'Neill, 2019 **Police Community Support Officers Cultures and Identities within Pluralised Policing** presents the first in depth ethnographic study of Police Community Support Officers PCSOs since the creation of the role in 2002 Situated within the tradition of police ethnographies this text examines the working worlds of uniformed patrol support staff in two English police forces Based on over 350 hours of direct observation and 33 interviews with PCSOs and police constables in both urban and rural contexts **Police Community Support Officers** offers a detailed analysis of the operational and cultural realities of pluralised policing from within Using a dramaturgic framework the author finds that PCSOs have been undermined by their own organisations from the beginning which has left a lasting legacy in terms of their relationships and interactions with police officer colleagues The implications of this for police cultures community policing approaches and the success of pluralisation are examined The author argues that while PCSOs can have similar occupational experiences to constables their particular circumstances have led to a unique occupational culture one which has implications for existing police culture theories The book considers these findings in light

of budget reductions and police reforms occurring across the sector processes in which PCSOs are particularly vulnerable

The Official History of Criminal Justice in England and Wales Tim Newburn, 2024-09-12 This is the fifth and final volume in the Official History of Criminal Justice in England and Wales This volume covers the uneven and often irresolute evolution of policing from the late 1940s to the end of the 1990s concentrating on the impact of a succession of scandals on the reputation and regulation of the police and the fluctuating relations between central government local authorities and police forces in shaping the control of police funding policy and organisation particularly in response to a growth in the scale and intensity of social protest and above all on the shifting sands of the policing of public order illustrated in the prolonged miners strike and urban unrest of the 1980s It is a complement to earlier volumes in the series that focused on the liberalisation of the laws on capital punishment abortion and homosexual relations between adult men in the 1960s the founding of the Crown Court in 1971 and the Crown Prosecution Service in 1985 transformations in penal policy and the politics of law and order It will be of much interest to scholars of British political history criminology and sociology

The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians they have had no difficulty in finding their subject The difficulty rather is that an outpouring of research and writing is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of topical monographic research and presented an interpretation of the development of modern British society since 1750 from three perspectives those of regional communities the working and living environment and social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

Policing at the Top Bryn Cless, 2011 Chief police officers make far reaching strategic command decisions about policing armed responses operations against criminals and allocation of resources yet they are often unknown even to their forces In this ground breaking social study Bryn Cless presents their frank and sometimes controversial views

The Vigilant Eye Greg Marquis, 2017-01-19T00:00:00Z In The Vigilant Eye Greg Marquis combines the narrative and chronological approach of traditional institutional history with the critical approaches of social history legal history and criminology The book begins with the English and Irish roots of nineteenth century British North American policing and traces the development of the three models of law enforcement that would shape the future the local rural constable the municipal police department and the paramilitary territorial constabulary Marquis examines the development of provincial police services whose expansion coincided with the rise of mass automobile ownership and controversies over alcohol prohibition and control and their eventual absorption into the RCMP In terms of political policing the vigilant eye has monitored harassed and disrupted

various social and political movements ranging from Fenians to communists to Quebec separatists and environmentalists Marquis argues that the style of community policing in vogue during the 1970s and 1980s lacked confidence and had a limited impact Canada's simplistic crime fighting model undermines genuine reform including curbs on the use of deadly force on citizens and justifies the increased militarization of policing Marquis argues that it is time for citizens to turn their vigilant eye towards police and policing in their own communities

Deciphering the Enterprise Culture (Routledge Revivals) Roger Burrows, 2015-07-24

The idea of the enterprise culture has been much vaunted over the last few decades the growth of self employment and small business ownership has been an important feature of the restructuring of the British economy Because it is a concept that is difficult to evaluate controversial and politically sensitive social scientists were slow to analyse it Consequently it had been caricatured and many questions about its impact on society and the economy had been left unanswered This collection which was first published in 1991 presents a critical analysis of the various manifestations of the enterprise culture Drawing upon a range of research it deals with a number of related topics The result is a powerful analysis of the material and ideological

role of the petty bourgeoisie in contemporary capitalism Its multidisciplinary approach which contributions from leading scholars in the field makes this book of interest to anyone wanting to make sense of the socio economic restructuring of Britain

Joining Forces Nigel G. Fielding, 2023-03-31 The police their methods and their relations with the community had been the focus of considerable criticism and debate in the 1980s While there were few books available on police training it was widely recognised that training lay at the heart of many initiatives for police reform Originally published in 1988 this book based on a five year study provides a detailed picture of the training of police recruits in Britain at the time The results themselves have centre stage in the book which addresses questions basic to any working group what kind of people join whether they think the job changes them their evaluation of the training and their officers their thoughts on new policies such as equal opportunities and community policing A direct connection is made between the recruits impressions and experiences and their growing conception of what makes for good policing The book traces how their attitudes to the force and their own roles change as they become familiar with the work and the occupational culture The formal and informal socialization process is a crucial influence on the standards of competence which lie behind every contact between police and public and is central to our understanding of how the police operate The author is a well known researcher in the police world both here and in the USA He relates his findings throughout to the North American experience which provides valuable points of comparison The important new material he presents informs debate and will still be of keen interest to students and researchers in the field

Police Research Mollie Weatheritt, 2023-03-31 In marked contrast to the decade before the 1980s saw an enormous growth of sociological research on the police and on policing Originally published in 1989 the chapters in this book stand as evidence both of the growth of police research in those years and its variety Contributors were asked to take stock of research in their respective fields and to assess where policing research had got to and how it had arrived there The resulting contributions range from broad

conceptual reviews chapters 1 5 and 9 to concentration on specific pieces of empirical work some of which was being reported for the first time chapters 7 and 8 Other papers were concerned with the relationship actual and potential between research and policy chapters 2 3 and 4 yet others on charting and accounting for developments in policing policy and speculating about their likely effects chapters 10 and 11 Today it can be read and enjoyed in its historical context
