Sports in the Western World William Joseph Baker, 1988 Human beings cannot live by bread alone They dream and they strive Not merely for warmth do they take fire from the altar of the gods curiosity is their glory and their pain They climb mountains cross uncharted seas and explore outer space for reasons other than material benefit They thrive on challenges Seekers of laurel they especially measure themselves in competition with fellow humans Where there is no contest they create one From deep within and from millennia past comes the impulse for athletic competition This book is about the history of competitive sports in the Western world from ancient religious ritual and simple tribal contests to highly organized modern spectacles From the introduction

Sport Matters Eric Dunning, 2013-04-03 1999 North American Society for the Sociology of Sport Annual Book Award Sport Matters offers a comprehensive introduction to the study of modern sport from a sociological perspective It covers such topics as the history of sport the development of ideas of fair play sport and the emotions the professionalization of sport race relations and sport and sport and gender Unique in its cross cultural analysis it uses examples from around the globe including sports spectator violence in North America the growth of international soccer and the role of sport in the European identity

Violence in Europe Sophie Body-Gendrot, Pieter Spierenburg, 2010-07-10 Has violence changed over the centuries Has it always held the same meanings for us Will it always be a given in society Taking the sociocultural long view Violence in Europe analyzes the prevalence and role of violence from street crime to terrorist attacks homicide to genocide in the evolution of human and national behaviour The editors and 14 colleagues in history anthropology sociology and psychology focus on Northern and Western Europe examining centuries of violent phenomena from the cultural logic of

the Middle Ages to today's soccer riots and security alerts The contributors' examination of social constructions, honour codes, class and gender roles and public ambivalence, acceptance, abhorrence, fascination regarding violence, sheds needed light on current dynamics in law enforcement, political systems and what many have termed the civilization of violence Findings from Britain, France, Ireland, Belgium and Scandinavia explore The paradoxes of ethnic violence and insider/outsider thinking in an increasingly multicultural world Trends in interpersonal violence during wartime and peacetime The gendering of violence from early French marital laws to London's underground nightlife The growth of cities, modernization, conflict, aggression, Modern prevention and surveillance strategies, effective solutions, complicating the problem or some middle ground Reflecting innovative methods of research and interpretation Violence in Europe is thought provoking and instructive for researchers and students in psychology and criminology And with the mounting global presence of violence today this is reading with profound implications for the future

Motivation and Emotion in Sport John H. Kerr, 2014-01-02 Why did Michael Jordan quit basketball and take up baseball? Why was Martina Navratilova so successful as a professional tennis player? These and many other questions about aspects of motivation and emotion in sport are addressed in this book which is newly available in paperback Reversal theory's systematic conceptual framework allows a unique perspective for interpreting behaviour in sport contexts Within each chapter, real life examples are combined with research findings to provide an understanding of the emotional background and changes which accompany the individual's unique experience in sport In addition, suggestions as to applications of reversal theory in new areas of sport psychology and the future direction of reversal theory based sport research are outlined For those interested in a truly insightful understanding of human behaviour in sport this book will be required reading

Sport Histories Eric Dunning, Dominic Malcolm, Ivan Waddington, 2004-06-01 *Sports Histories* draws on figurational sociology to provide a fresh approach to analysing the development of modern sport The book brings together ten case studies from a wide range of sports including mainstream sports such as soccer, rugby, baseball, boxing and cricket to other sports that until now have been largely neglected by sports historians such as shooting, motor racing, tennis, gymnastics and martial arts This groundbreaking work highlights key debates in the analysis of modern sport such as the relative influence of intra-national class conflict and international conflict, the relative prominence of commercially led processes in different contexts, the centrality of concerns over violence, differences between elite and mass led sports developments Above all *Sport Histories* proves the distinctiveness of the figurational sociological approach and its usefulness in the study of the development of modern sport
