**Argufun: The Bitch is Back! Based On A True Story**, *Singer-Songwriters of the 1970s* Robert McParland, 2022-08-09. The 1970s saw a wave of singer-songwriters flood the airwaves and concert halls across the United States. This book organizes the stories of approximately 150 artists whose songs created the soundtrack to people's lives during the decade that forever shaped musical composition. Some well known, others less known, these artists were the song poets and storytellers who wrote their own music and lyrics. Featuring biographical information and discography overviews for each artist, this is the only one-volume encyclopedic overview of this topic. Featured artists include Carole King and James Taylor, Joni Mitchell and Jackson Browne, Bob Dylan and Paul Simon, Bruce Springsteen, Gordon Lightfoot, Elvis Costello and dozens of other song poets of the seventies.

*Bob Dylan: The Stories Behind the Songs, 1962-69* Andy Gill, 2021-04-15. In this book, Andy Gill assesses the circumstances behind Dylan's most famous songs, tracing the artist's progress from young tyro folkie to acclaimed protest singer and through the subsequent changes which saw him invent folk rock and transform rock n' roll with symbolist poetry, before retreating into country-tinged conservatism just as his followers were engaged in the great psychedelic freak show of the late 1960s. Even then, he couldn't help but innovate, introducing the world to another strain of popular music: country rock, which would come to dominate the American charts through the next decade. Always one step ahead of the crowd, always pushing himself to extend the boundaries of his art, the Dylan of the 1960s remains a beacon of integrity to which fans and fellow musicians keep returning.

*BOB DYLAN: WHAT THE SONGS MEAN* Michael Karwowski, 2019-11-19. The meaning of Bob Dylan's songs has long been debated by fans, critics and academics. When in 2016 Dylan was awarded the Nobel Prize in Literature, the significance of his songs was confirmed. Yet their meaning has never been demonstrably explained. Dylan himself has said that people can learn everything about him through his songs if they know where to look. This book shows his millions of fans exactly where that is. Dylan has written hundreds of songs, many of which are acknowledged masterpieces: *Blowin' in the Wind*, *Like a Rolling Stone*, *Mr. Tambourine Man*, the list goes on. In the 1960s, he was hailed as a prophet. Since then, he's generally been considered a genius. One thing he's always been, though, is an enigma. In *Bob Dylan: What the Songs Mean*, critic Michael Karwowski analyses the lyrics. In the process, he opens up all sorts of avenues into philosophy, mysticism, religion, literature, art and, of course, music. This is a must-read book for anyone who wants to learn more about the meaning behind the songs or anyone interested in understanding how a genius sees the

world It also considers the impact Dylan s words have had not only on his fans but on the worlds of popular music culture and beyond
