*The Bloodhound Gang in the Case of the 264-pound Burglar* Sid Fleischman, Bill Morrison, Children's Television Workshop, 1982 The Bloodhound Gang is called in to find out who stole Mrs Tolliver's life savings **Uncommon People I Have Known** Frank P. Sherwood, 2013-09-04 The title and subtitle say a great deal about the character of this book These are stories about people who inevitably stand out in a crowd for their personal attributes their ethical standards the ways in which they have coped with great problems and their remarkable achievements Significantly fourteen of the sixteen stories in this book are about people who have in some way contributed to better government Several have worked directly in government others have been teachers and still others have found ways to make contributions Not all the stories are about people in the U S The two stories from Brazil involve people who stayed at home and did their good work there in the other two instances already blossoming careers at home were ended by extreme governmental changes In all cases however these are people who must be admired for their extreme dedication to the highest ideals of service In effect this book can be considered a primer on government that works The two whose stories did not directly concern government contributed mightily to a better society One was a highly productive author who in later years concentrated on children's books and wrote more than 50 of them The other pioneered a wholly different journalistic undertaking the city regional magazine Today these publications are found throughout the country and are distinguished by their design quality and their commitment to the communities they serve *Library of Congress Catalogs* Library of Congress, 1983 *National Union Catalog*, 1982, 1983 *American Education*, 1980 *Monographic Series* Library of Congress, 1982 *Subject Catalog* Library of Congress, **Children's Literature Review** Melissa Hug, 1988-05 Presents literary criticism on writers and illustrators for children and young adults Critical essays are selected from leading sources including published journals magazines books monographs reviews and scholarly papers **Newbery and Caldecott Medalists and Honor Book Winners** Muriel Brown, Rita Schoch Foudray, James W. Roginski, 1992 This is an enlarged version of the 1982 edition updated to include the 1991 recipients It offers the same inclusive listing of Newbery and Caldecott Medal and Honor Books library collections with significant holdings and background readings on each of the 325 award winning authors and illustrators The volume is organised by author illustrator and identifies the first appearance of each title It also includes separate listings of Newbery Medal and Honor Books Caldecott Medal and Honor Books collections a background reading bibliography and an author illustrator title index It has a companion volume Newberry and Caldecott Medal and Honor Books in Other Media and the two books are also available as a set at a price of u72 00 **Children's Book Review Index**, 1985 *National Union Catalog*, 1983 Includes entries for maps and atlases *Technology, Science Teaching, and Literacy* Kenneth P. King, 2005-12-27 This book deals with the use of technology in science teaching The author is not nor has ever had an intention of being a techie Rather I spent the first decade of my professional life as a high school physics teacher making

occasional uses of technology to further student understanding and to automate my own teaching practices During my graduate work my interest in the use of technology continued Catalyzed to some extent by the increasing availability of graphical interfaces for computers the realization struck that the computer was more and more becoming a tool that all teachers could use to support their teaching practice not simply those with a passion for the technology itself The rapid changes in the hardware and software available however frequently caused me to reflect on the usefulness of technology if it were to change at such a rapid pace would anyone save for those who diligently focused on the development of these tools be able to effectively use technology in science teaching Was change to rapid to yield a useful tool for teachers To address this interest I examined the nature of science teaching during this century using the equally fluid notion of scientific literacy which formed the organizing principle for this study The result is a examination of how technology was used to accomplishing this goal of producing scientifically literate citizens What was observed is that technology indeed consistently came to the service of teachers as they attempted to achieve this goal *American Book Publishing Record* ,1983-04

*Major Authors and Illustrators for Children and Young Adults* Joyce Nakamura,1993 Contains updated and revised sketches on nearly 800 of the most widely read authors and illustrators appearing in Gale s Something about the author series **100 Most Popular Children's Authors** Sharron L.
