Man-Made Monsters Mad Marv, 2005-08 On the surface Man Made Monsters by Mad Marv is a terrifying collection of short stories with a horror conspiracy theme It has all of the elements fans of the genre would expect blood guts and utter mayhem It's funny at times and positively frightening at others One thing that separates this book from the herd is the sense that the words on the page are real The reader is given an exclusive view of sickening events that seem like they've really happened As the stories unfold the eerie feeling builds into full blown fear The title says it all The five main stories have a common thread Monsters are real and they are created by man's hand Science and technology running amok have negative consequences In Mad Marv's world genetically engineered beasts stalk the city streets remote controlled zombie armies threaten to devour and super viral strains turn people into disfigured bloodsuckers Men can be brought back from the grave and women can be programmed to kill The unsettling part of all this is that Mad Marv's world is ours too Contributing to what makes this book so devilishly fun are the chapters called Recipe for Disaster These vignettes sprinkled throughout the book give recipes for monster making at home For anyone who has ever wanted to create a golem or incubate a homunculus the instructions are here These recipes are detailed and backed by historic precedence while offering contemporary cautionary tales Alchemy gave birth to science The magicians of the Renaissance are no different from the pharmaceutical companies of today Mad Marv's writing style is punchy and to the point Like a knife in the back he assaults the reader He doesn't bore you with lengthy descriptions of weather or setting but he might make you puke with the details of brains splattering on a wall While he's not verbose he does manage to weave intricate tales His stories are full of plot twists and bone jarring revelations There is a decided anti establishment tone to his writing
