**Footbinding and Women's Labor in Sichuan** Hill Gates, 2014-12-05 When Chinese women bound their daughters feet many consequences ensued some beyond the imagination of the binders and the bound The most obvious of these consequences was to impress upon a small child's body and mind that girls differed from boys thus reproducing gender hierarchy What is not obvious is why Chinese society should have evolved such a radical method of gender marking Gendering is not simply preparation for reproduction rather its primary significance lies in preparing children for their places in the division of labor of a particular political economy Drawing on extensive fieldwork and interviews with almost 5 000 women this book examines footbinding as Sichuan women remember it from the final years of the empire and the troubled times before the 1949 revolution It focuses on two key questions what motivated parents to maintain this custom and how significant was girls work in China's final pre industrial century In answering these questions Hill Gates shows how footbinding was a form of labor discipline in the first half of the twentieth century in China when it was a key institution in a now much altered political economy Countering the widely held views surrounding the sexual attractiveness of bound feet to Chinese men footbinding as an ethnic boundary marker its role in female hypergamy and its connection to state imperatives this book instead presents a compelling argument that footbinding was in fact a crucial means of disciplining of little girls to lives of early and unremitting labor This vivid and fascinating study will be of huge interest to students and scholars working across a wide range of fields including Chinese history oral history anthropology and gender studies      **Hedonizing**

**Chinese Textiles** Verity Wilson, 2005-08 Every Chinese textile tells a story and this book tells many stories of Chinese life and legend through the sumptuous textiles that adorn its pages Breathtaking in workmanship colour and design they were made for a purpose and it is those created for celebrations that dominate the selection in this book As well as dealing with technique and influence Wilson tells the story of each piece why it was made and for whom and introduces us to a galaxy of characters from China's history and legend The superb photography allows us to see how richly these textiles reflect the culture from which they come      Catalog of Copyright Entries.
