Pacific Northwest Region Invasive Plant Program, Preventing and Managing Invasive Plants, 2005 **Blue-Green Coalitions** Brian Mayer, 2011-02-23 What do unions and environmental groups have to gain by working together and how do they overcome their differences In Blue Green Coalitions Brian Mayer answers these questions by focusing on the role that health related issues have played in creating a common ground between the two groups By recognizing that the same toxics that cause workplace hazards escape into surrounding communities and the environment workers and environmentalists are able to collaborate for the protection of all Mayer examines three contemporary cases of successful labor environmental alliances to demonstrate how health and safety issues are used to create durable and politically influential social movement coalitions o Alliance for a Healthy Tomorrow a coalition of environmental labor community and public health organizations in Massachusetts that has developed a successful prevention based approach to safe workplaces and a clean environment o The Work Environment Council in New Jersey which succeeded in passing the first statewide right to know law and concentrates on protecting citizens from the dangerous toxics generated by the state s chemical industries o The Silicon Valley Toxics Coalition an organization that began in the 1980s fighting hazardous high tech practices that were affecting the Valley residents and the high tech industry s largely immigrant workforce In Mayer s ethnographic accounts of the challenging work of bringing these blue green coalitions together it becomes clear that stereotypes about environmentalists and workers are largely irrelevant when thinking about who is at risk of exposure to dangerous toxic substances Both movements share a common concern for protecting their members health from toxic hazards that are by products of the modern industrial economy *Pacific Northwest ... Williams, 2009 The Northwest has been at the forefront of forest management and research in the United States for more

than one hundred years In *The U S Forest Service in the Pacific Northwest* Gerald Williams provides an historical overview of the part the Forest Service has played in managing the Northwest s forests Emphasizing changes in management policy over the years Williams discusses the establishment of the national forests in Oregon and Washington grazing on public land the Great Depression World War II and the rise of multiple use management policies He draws on extensive documentation of the post war development boom to explore its effects on forests and Forest Service workers Discussing such controversial issues as roadless areas and wilderness designation timber harvesting forest planning ecosystems and spotted owls Williams demonstrates the impact of 1970s environmental laws on national forest management The book is rich in photographs many drawn from the Gerald W Williams Collection housed in University Archives at Oregon State University Libraries Extensive appendices provide detailed data about Pacific Northwest forests Chronicling a century of the agency s management of almost 25 million acres of national forests and grasslands for the people of the United States *The U S Forest Service in the Pacific Northwest* is a welcome and overdue resource *Cruising World* ,2006-05 **USDA Forest Service Experimental Forests and Ranges** Deborah C. Hayes,Susan L. Stout,Ralph H. Crawford,Anne P. Hoover,2014-07-22 USDA Forest Service Experimental Forests and Ranges EFRs are scientific treasures providing secure protected research sites where complex and diverse ecological processes are studied over the long term This book offers several examples of the dynamic interactions among questions of public concern or policy EFR research and natural resource management practices and policies Often trends observed or expected in the early years of a research program are contradicted or confounded as the research record extends over decades The EFRs are among the few areas in the US where such long term research has been carried out by teams of scientists Changes in society s needs and values can also redirect research programs Each chapter of this book reflects the interplay between the ecological results that emerge from a long term research project and the social forces that influence questions asked and resources invested in ecological research While these stories include summaries and syntheses of traditional research results they offer a distinctly new perspective a larger and more complete picture than that provided by a more typical 5 year study They also provide examples of long term research on EFRs that have provided answers for questions not even imagined at the time the study was installed *Cruising World* ,2008-10 **Using Social and Information Technologies for Disaster and Crisis Management** Jennex, Murray E.,2013-01-31 *Using Social and Information Technologies for Disaster and Crisis Management* highlights examples of disaster situations in recent years in which social and information technologies were useful in distributing and receiving information updates This comprehensive collection brings together research for practitioners and researchers interested in the uses of information technology in crisis management **Pacific Northwest ... Plant Disease Management Handbook** ,2004 **Otherwise Law-Abiding Citizens** Matt Stolick,2008-12-16 Matthew Stolick presents a detailed social and scientific exploration of the social history of cannabis chemical make up of the cannabis plant and effects of cannabis use By offering a truly interdisciplinary look at this

highly political issue he clearly articulates the reasoning behind the categorical rejection of legal cannabis use by the United States and other nations Approaching the discussion of cannabis use from perspectives embedded within philosophy political science psychology and neurobiology Stolick provides an even handed account of the scientific realities and social practicalities surrounding the use of cannabis for both medical and recreational purposes Drawing on the moral thought of Aristotle Kant Mill and Christianity the book demonstrates the amoral nature of cannabis use Grounding discussion of cannabis use in both moral theory and scientific fact this book gives readers a thorough understanding of the social and political issues that continue to dictate cannabis law **Wildfire Risk** Wade E. Martin,Carol Raish,Brian Kent,2010-09-30

The continuing encroachment of human settlements into fire prone areas and extreme fire seasons in recent years make it urgent that we better understand both the physical and human dimensions of managing the risk from wildfire Wildfire Risk follows from our awareness that increasing public knowledge about wildfire hazard does not necessarily lead to appropriate risk reduction behavior Drawing heavily upon health and risk communication and risk modeling the authors advance our understanding of how individuals and communities respond to wildfire hazard They present results of original research on the social economic and psychological factors in responses to risk discuss how outreach and education can influence behavior and consider differences among ethnic racial groups and between genders with regard to values views and attitudes about wildfire risk They explore the role of public participation in risk assessment and mitigation as well as in planning for evacuation and recovery after fire Wildfire Risk concludes with a dedicated section on risk modeling with perspectives from decision sciences geography operations research psychology experimental economics and other social sciences Billboard
