Cinema of the Psychic Realm Paul Meehan, 2009-10-21 Cinema is ideally suited to the world of psychic phenomena A technique as simple as a voice over can simulate mental telepathy while unusual lighting set design or creative digital manipulation can conjure clairvoyant visions precognition or even psychokinesis This book analyzes the depiction of paranormal powers in film examining how movies like Star Wars Independence Day The Green Mile and dozens of others both reflect and influence the way modern society thinks about psychic abilities The theme is explored in nearly 100 films from a variety of genres including drama comedy horror science fiction crime melodrama and children's films providing a concise review of the history and concepts of mainstream cinematic parapsychology *Bloody Murder* Michelle Ann Abate, 2013-03 Off with her head decreed the Queen of Hearts one of a multitude of murderous villains populating the pages of children's literature explored in this volume Given the long standing belief that children ought to be shielded from disturbing life events it is surprising to see how many stories for kids involve killing *Bloody Murder* is the first full length critical study of this pervasive theme of murder in children's literature Through rereadings of well known works such as Alice's Adventures in Wonderland the Nancy Drew Mystery Stories and The Outsiders Michelle Ann Abate explores how acts of homicide connect these works with an array of previously unforeseen literary social political and cultural issues Topics range from changes in the American criminal justice system the rise of forensic science and shifting attitudes about crime and punishment to changing cultural conceptions about the nature of evil and the different ways that murder has been popularly presented and socially interpreted *Bloody Murder* adds to the body of inquiry into America's ongoing fascination with violent crime Abate argues

that when narratives for children are considered along with other representations of homicide in the United States they not only provide a more accurate portrait of the range depth and variety of crime literature they also alter existing ideas about the meaning of violence the emotional appeal of fear and the cultural construction of death and dying *Astrology and Psychic Phenomena* Andre Kole,Terry Holley,2016-09-06 Astrology Tarot cards Ouija boards spiritism psychic healing palm reading and old fashioned fortune telling now called psychic consulting all these are popular in America today Psychic hotlines are heavily represented on television with testimonials to their amazing ability to give people accurate details about their past and predictions about their future Are psychics indeed gifted with supernatural powers Andre Kole and Terry Holley show convincingly how the success of these and other paranormal phenomena depends on deceit and slight of hand rather than on genuine supernatural powers This is an age when countless groups and movements new and old mark the religious landscape in our culture As a result many people are confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully the Zondervan Guide to Cults and Religious Movements series provides essential information and insights for their spiritual journeys The second wave of books in this series addresses a broad range of spiritual beliefs from non Trinitarian Christian sects to witchcraft and neo paganism to classic non Christian religions such as Buddhism and Hinduism All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood **The Philosopher's Stone** ,1991 *The Seventh Sense* Lyn Buchanan,2009-11-24 For the past thirty years the United States government has secretly trained a select corps of military personnel in the art of remote viewing the psychic ability to perceive the thoughts and experiences of others through the power of the human mind Now for the first time Lyn Buchanan a world renowned expert on remote viewing and its potential tells the complete candid story of his experiences Assigned for nearly a decade to a clandestine U S Army intelligence group Buchanan trained military personnel who utilized their inherent psychic abilities as a data collection tool during the Iran hostage crisis the Chernobyl disaster and the Gulf War In this incredible account Buchanan tells how he was

selected for his unique psychic abilities and how he was transformed from an ordinary soldier into one of our nation's leading psychic spies. Working on top secret government and military projects using mental espionage created permanent life altering changes within Buchanan. Now after many years of analysis and interpretation he reveals the techniques and mental exercises used to train remote viewers and demonstrates that each of us carries a dormant psychic ability that we can explore and use ourselves. For anyone interested in a hard scientific look at the reality of psychic covert operations in the world today or anyone who has ever wondered if he or she could have the inherent skills to become a remote viewer this fascinating chronicle of life as a psychic spy will reveal the answers.
