All In A Days March:

Fight All Day, March All Night Wayne Mahood,2012-11-05 In 1862 twenty one year old Morris Brown Jr left his studies at Hamilton College to take up the Union cause He quickly rose in rank from sergeant major to captain and acting regimental commander for the 126th New York Volunteers In letters written to his family in Penn Yan New York Brown describes his experiences at war the unseemly carping between fellow officers the fear that gripped men facing battle and the longing to return home Brown s letters also reveal an ambitious young man who not only wanted recognition but also wanted to assure himself of a financial future Above all this is the story of a courageous young man told mostly in his own words Few Civil War soldiers were as articulate as Morris Brown Jr fewer served in a regiment that saw so much combat still fewer commanded a regiment at such a young age and even fewer were recognized by the newly minted Medal of Honor

Forty Miles a Day on Beans and Hay Don Rickey,2012-11-28 The enlisted men in the United States Army during the Indian Wars 1866-91 need no longer be mere shadows behind their historically well documented commanding officers As member of the regular army these men formed an important segment of our usually slighted national military continuum and through their labors combats and endurance created the framework of law and order within which settlement and development become possible We should know more about the common soldier in our military past and here he is The rank and file regular then as now was psychologically as well as physically isolated from most of his fellow Americans The people were tired of the military and its connotations after four years of civil war They arrayed their army between themselves and the Indians paid its soldiers their pittance and went about the business of mushrooming the nation s economy Because few enlisted men were literarily inclined many barely able to scribble their names most previous writings about them have been what officers and others had to say To find out what the average soldier of the post Civil War frontier thought Don Rickey Jr asked over three hundred living veterans to supply information about their army experiences by answering questionnaires and writing personal accounts Many of them who had survived to the mid 1950 s contributed much more through additional correspondence and personal interviews Whether the soldier is speaking for himself or through the author in his role as commentator historian this is the first documented account of the mass personality of the rank and file during the Indian Wars and is only incidentally a history of those campaigns
