alone Others are call and response We rarely sing together all of us at once and in the same place but we do From time to time Quite often when we are not trying to Quite often we sing together but from different places in time and space A call There is some sense of our nomad self our nomad soul which responds to an inner and an outer call It is as if the inner thrum that ambient hum of our individual life is lured to and infatuated with the outer thrum that other ambient hum of life the one for all that is The calls meet up and they bond themselves covalently That which is inside is magically seduced by that which is outside Come and join the Caravan you are already a part of *Idealism, Pragmatism, and Feminism* John J.

Kaag,2011-01-01 *Idealism Pragmatism and Feminism* provides an account of the life and writings of Ella Lyman Cabot 1866 1934 a woman who received formal training but not formal recognition in the field of classical American philosophy It highlights the themes of idealism pragmatism and feminism as they emerged in the course of career as an educational reformer and ethicist that spanned nearly four decades Cabot s writings developed in graduate seminars at Harvard and Radcliffe at the turn of the century complement and in many cases anticipate the thinking of the fathers of the American philosophical cannon Charles Sanders Peirce Josiah Royce William James and John Dewey Her formal philosophical writing focuses on the concepts of growth creativity and the moral imagination a fact that is especially interesting given that these concepts are developed by a woman who faced serious obstacles in her personal and intellectual development Indeed these concepts are not merely philosophical ideals but practical tools that Ella Lyman Cabot used to negotiate the gender roles and intellectual marginalization that she faces at the turn of the century The discipline of philosophy was very slow to incorporate the insights of women into its self definition An analysis of the writings of Ella Lyman Cabot reveals this point but also the pointed ways in which she sought to express her genuinely creative insights **The General Baptist repository, and**
