2012 Hurricane Arnaldo Ricciulli, 2009-11-16 On 2012 Daniel Mayhew a brilliant weather researcher works with Kelly Delaney totally dedicated to protecting the environment to build Sub Zero a hurricane suppression system When Kelly's theories about a category 6 hurricane are proven true Sub Zero is pressed into service Unknown to either of them General Stefano Lowe part of a shadowy group known as the Lucky Thirteen is out to stop them As Daniel and Kelly fight to disperse the storm Kelly's family asks her to come home They're convinced the world is entering the End of Times Meanwhile Daniel's father ignoring the signs of a storm approaching goes sailing General Stefano Lowe is electrocuted trying to sabotage the system and the Sub

Zero system successfully disperses the storm Later Daniel s father is found alive Taking him to the hospital Kelly and Daniel realize that they have a future together even as another storm starts to build Book Review What would you do to prevent death and destruction from a huge storm or hurricane Imagine being able to create a system that could dissipate a storm and make sure it never reached hurricane force Daniel Mayhew invented something called Sub Zero that could do just that He presented it to the National Hurricane Center and it was approved by most of the members But there is a group called the Lucky 13 that would not relish its success and will do anything to discredit him and make sure the project never gets off the ground Daniel finds hurricanes exciting exhilarating even though he understands their dangers Creating the Sub Zero which could prevent the loss of property lives and destruction would save billions of dollars to anywhere these hurricanes or devastating storms hit Kelly Delaney who also works for the Hurricane Center understands the threat to global warming and develops her own theory and presents it She is concerned that category 6 hurricane storms will eventually be a thing of the present and suggests that the government buy up all of the coastal land and allow it to return to nature However both plans are unpopular and without government support there would be little chance either would be successful When Daniel is successful in getting the government to fund his program the group called the Lucky 13 has to find a way to discredit him and the program too As these unscrupulous people convince Daniel s father that he stole his money for his own purposes and not for what it was intended and then falsified papers making it seem that the project was over budget it appeared the end had finally come even before this project could be implemented Daniel is a weather researcher with many wild ideas about stopping hurricanes before they make landfall Kelly s predictions about category 6 storms are related to deaf ears But what would happen if a storm of this magnitude was brewing and no one did anything to prepare for it or believed it was going to happen Well you would have a group of wealthy men whose only goal is to make money off of the destruction deaths and devastation caused by these storms The more damage the deaths the more destruction the more money their construction and oil companies would make during the reconstruction process Arnaldo Ricculi takes the reader on a dangerous ride through many storms and one impending storm that could destroy the world A book about global warming a topic that is relevant and important Caring about the environment is important and Daniel and Kelly team up to stop the storm and teach the children of the state of Florida about hurricane safety in a well crafted program they both create in order to teach children how dangerous hurricanes can be Will Daniel ever get to implement his project Will it work to decrease the density volume and size of this catastrophic storm How will this change Daniel s fathers poor perception of him and Kelly s about her As the sixth storm called Fina

African Americans and the Mississippi River Dorothy Zeisler-Vralsted, 2022-09-30 This book follows the historical trajectory of African Americans and their relationship with the Mississippi River dating back to the 1700s and ending with Hurricane Katrina and the still contested Delta landscape Long touted in literary and historical works the Mississippi River remains an iconic presence in the American landscape Whether referred to as Old Man River or the Big

Muddy the Mississippi River represents imageries ranging from the pastoral and Acadian to turbulent and unpredictable. However, these imageries revealed through the cultural production of artists, writers, poets, musicians, and even filmmakers did not reflect the experiences of everyone living and working along the river. Missing is a broader discourse of the African American community and the Mississippi River through the experiences of African Americans with the Mississippi River, which included narratives of labor, free and enslaved, refuge, floods, and migration, a different history of the river and its environs emerges. The book brings multiple perspectives together to explore this rich history of the Mississippi River through the intersection of race and class with the environment. The text will be of great interest to students and researchers in environmental humanities including environmental justice studies, ethnic studies, and US and African American history.

Memories of Hurricane Katrina and Other Musings Jack O'Connor, 2011-02-24 Jack O'Connor was a police officer at the University of Massachusetts for twenty-one years. After retiring from the police department, he moved to New Orleans and was employed as director of security for a New Orleans hotel chain. He was in the hotel where he was based in downtown New Orleans when Hurricane Katrina struck and devastated the city. O'Connor uses a blend of poetry and prose to describe what he saw, heard, and felt during the great disaster. He not only tells of the damage and horror but he also shows the goodness of man that this tragedy brought out. He also describes how an event that brought so much pain and suffering to thousands also brought about some very major positive changes in his life. Home. They say home is where the heart is. I don't doubt that this is all very true. Do you know what this really means? My home is really in New Orleans. While Katrina ravaged New Orleans, and I watched in fascinated wonder, I only saw its power and wild fury. As it played out in a very small scene. Over the following days and weeks, when I saw the devastation twice done, bitter tears flowed down my cheeks. As I saw the very soul torn from my home.

Hers is a story of personal spirit, a childhood lived creatively and courageously, and the human will to persevere against overwhelming odds.

Memories Marianne Pilgrim Davidson, 2021-12-21 The main character Ann is born into poverty in 1947. It shows how her family controls her and keeps her in poverty through their attitudes regarding gender inequality, immigrants, and minorities. We learn from her how to break this cycle to get out of poverty. She grows up in Brooklyn with a single mother and an absentee father and tells the story through her memories. You hear about the three generations of women who were chained to poverty because of ignorance, attitude, low self-esteem, gender inequality, and dependence under the control of men. Then you will see how our main character starts to believe she needs to break free. You live with her through adolescence where she does something she regrets for the rest of her life. Then on to young adulthood where she unbelievably goes to college and breaks out of the attitudes of poverty and makes it on her own. She learns to see things in a new light and starts to question her old world teachings and the meaning of right and wrong. You see her married, divorced, remarried, and then in old

age It teaches us how one can reeducate oneself out of a poverty attitude and into the middle class Inside the Hurricane
Adam Knight,2010-09-21 This is the true story of one boy's struggle to survive the rage and violence of an alcoholic father

monstrous and egregious treatment frequently resulted in physical battering and a mindset consisting of terror and fear But
despite the horrific trauma that this young boy endured and the sustained effect that it has had on his psyche he not only
survived the dysfunctional environment of his early childhood but actually prevailed in the face of those overwhelming odds

Nathaniel Jones,2006-07 As a fictional work this novel is used by the author to describe what could have or may have
happened in the events of Hurricane Katrina Daniel the main character is left behind in New Orleans with his three brothers
and mother who all live in a poor section of the city Like many in the Big Easy his family does not evacuate In the novel
Daniel appears to be smarter than the rest of his family During the night before Katrina makes landfall Daniel has dreams In
these dreams certain things are revealed to the main character that really frightens him He believes that the dreams are
unreal but then he finds logic in them These dreams tell Daniel about his home state and the truth about what really
happened in New Orleans and Louisiana Moreover throughout the novel Daniel finds himself afraid of the future and the
possible outcome of Katrina He also comes to realize that certain things in his state are not what they seem Daniel then finds
out certain themes in his home state and is not pleased **Good words, ed. by N. Macleod** Norman Macleod,1866
