Mid-Century Romance John T. Connor, 2024-09-13 Mid Century Romance chronicles a revival of the historical novel in the middle decades of the twentieth century in the cultures of British modernism and international communism Born of a national turn in world politics these novels met the turbulence of mid century history with narratives of national becoming roadmaps to situate their readers in the pattern of social change Their writers were often mindful of the genre's romantic era heritage they saw themselves as following in the footsteps of Sir Walter Scott and they drew on the same rescued remains of primitive poetry and popular antiquities that romanticism first used to construct its versions of national identity culture and tradition This book shows how the impulse to salvage traces of ancestral culture and press them to new purpose links the mid century national historical novel to the rise of radical social history and magical realism Post war anticommunism shaped a tradition of the novel as a preserve of art and the individual Mid Century Romance counters with a different genealogy of the British and world novel whose object is society and the future of community the nation and its people It situates its cast of British writers including the modernists Hope Mirrlees and Virginia Woolf the communists Jack Lindsay and Sylvia Townsend Warner the eccentric modernist and sometime fellow traveller John Cowper Powys and the New Left luminary Raymond Williams in a transnational perspective that reaches from Bihar India to Bahia Brazil **Skin Color** Conrad P

Pritscher, 2014-02-05 **Skin Color** The Shame of Silence is a powerful and unapologetic indictment of our so called post racial moment and the hypocritical bad faith and myth making discourses that underwrite it Through a bold theorization of a radical form of Bildung or Paideia that refuses to settle for cognitive shallowness epistemological fixity and moral bankruptcy Pritcher has crafted a heteroglossic and interdisciplinary text that is written with existential urgency through the recognition that bodies of color continue to suffer with great pain angst and alienation under the terror and gravity of white supremacy Skin Color is nothing short of a clarion call for collective liberation of those whites those recovering racists who

are willing to take risks to exercise vulnerability and to be moved and ethically quickened by the ontological presence of those who have historically been and continue to be denied their humanity it is a text that is unafraid to mark blind spots and critique our collective educational failures at challenging and possibly eradicating the color line that continues to haunt us into the 21st century George Yancy Professor of Philosophy Duquesne University George Yancy is a professor of philosophy at Duquesne University He has authored edited and co edited 17 books including *Black Bodies White Gazes Look a White* and co edited with Janine Jones *Pursuing Trayvon Martin* **The Oxford Book of English Mystical Verse** Daniel Howard Sinclair Nicholson, Arthur Hugh Evelyn Lee, 1924 **An Introduction to Reformed Theology** William P.
