R. Evans,2002-04-04 Individual churches today have a lively ecumenical consciousness but they often express anxieties about what will become of them in a future united Church Questions are being asked about the goal of such unity In this book G R Evans asks what we

mean by a church and how different Christian bodies have understood the way a church is related to the Church She surveys the nature of unity and what the fullness of the communion being reached for might consist of the place of diversity of faith and order in a united Church or ways in which there can go on being many churches in one Church and how they might be related to it and questions about the common structures one Church would need and the way in which it could come to think and act as a single body of Christ The book concludes with a discussion of the concept of communion which now looks very hopeful ecumenically as a guide to the way forward
