J. Overy,Richard Overy,2010 British intellectual life between the wars stood at the heart of modernity The Morbid Age opens a window on to this creative but anxious era the golden age of the public intellectual and scientist Arnold Toynbee Aldous and Julian Huxley H G Wells Marie Stopes and a host of others Yet as Richard Overy argues a striking characteristic of so many of the ideas that emerged from this new age from eugenics to Freud s unconscious to modern ideas of pacifism and world government was the fear that the West was facing a possibly terminal crisis of civilization Ultimately Overy shows the coming of war was almost welcomed as a way to resolve the contradictions and anxieties of this period a war in which it was believed civilization would be either saved or utterly destroyed
