Allen Tate And The Augustinian Imagination A Study Of The Poetry:

Allen Tate and the Augustinian Imagination Robert S. Dupree, 1983-01-01 Allen Tate John V. Glass III, 2016-06-10
Based on the author's Ph D dissertation University of Mississippi 2009 Allen Tate Thomas A. Underwood, 2021-04-13
Despite his celebrity and his fame a series of literary feuds and the huge volume of sources have until now precluded a satisfying biography of Allen Tate Anyone interested in the literature and history of the American South or in modern letters will be fascinated by his life Poetry readers recognize Tate whom T S Eliot once called the best poet writing in America as the author of some of the twentieth century's most powerful modernist verse Others know him as a founder of *The Fugitive* the first significant poetry journal to emerge from the South Tate joined William Faulkner and others in launching what came to be known as the Southern Literary Renaissance In 1930 he became a leader of the Southern Agrarian movement perhaps America's final potent critique of industrial capitalism By 1938 Tate had departed politics and written *The Fathers* a critically acclaimed novel about the dissolution of the antebellum South He went on to earn almost every honor available to an American poet His fatherly mentoring of younger poets from Robert Penn Warren to Robert Lowell and of southern novelists including his first wife Caroline Gordon elicited as much rebellion as it did loyalty Long awaited and based on the author's unprecedented access to Tate's personal papers and surviving relatives *Orphan of the South* brings Tate to 1938 It explores his attempt first through politics and then through art to reconcile his fierce talent and ambition with the painful history of his family and of the South Tate was subjected to and also perpetuated fictional interpretations of his ancestry He alternately abandoned and championed Southern culture Viewing himself as an orphan from a region where family history is identity he developed a curious blend of spiritual loneliness and ideological assuredness His greatest challenge was transforming his troubled genealogy into a meaningful statement about himself and Southern culture as a whole It was this problem that consumed Tate for the first half of his life the years recorded here This portrait of a man who both made and endured American literary history depicts the South through the story of one of its treasured ambivalent and sometimes wayward sons Readers will gain a fertile understanding of the Southern upbringing education and literary battles that produced the brilliant poet who was Allen Tate **Christ the Form of Beauty** Francesca Aran Murphy, 1995-03-04 Reveals the importance of the sacramental imagination as the key to the renewal of Christology and of modern Christian literature *A Companion to Vergil's Aeneid and its Tradition* Joseph Farrell, Michael C. J. Putnam, 2014-01-28 *A Companion to Vergil's Aeneid and its Tradition* presents a collection of original interpretive essays that represent an innovative addition to the body of Vergil scholarship Provides fresh approaches to traditional Vergil scholarship and new insights into unfamiliar aspects of Vergil's textual history Features contributions by an international team of the most distinguished scholars Represents a distinctively original approach to Vergil scholarship The American Vision of Robert Penn Warren William Bedford Clark, 2021-12-14 In 1976 the bicentennial year Robert Penn Warren told Bill Moyers that he was in love with America but his

love for the nation was more often than not troubled and angry Warren once remarked that any intelligent person is inclined to criticize his country more strongly than he will criticize anything else And he should It s a way of criticizing himself too Trying to live more intelligently and more fully In *The American Vision* of Robert Penn Warren a noted Warren scholar traces the evolution of our first poet laureate s distinctive stance toward the American experiment in democracy showing how Warren sought to balance off the claims of self and society in the New World This book surveys the full six decades of Warren s career combining close reading with a historian s eye for social and political context While pointedly avoiding the reductive pitfalls of the new historicism Clark documents the informing role the Great Depression played in shaping Warren s attitudes toward art and politics and he demonstrates the necessity of regarding Warren s major achievements in fiction and verse as forms of public speech Read in this light Warren s vision offers a set of possibilities for renegotiating America s covenant with its Founders on new and pragmatic terms Based solidly on the best previous commentary on Warren and his work Clark s study represents a new approach to its subject and incorporates insights and information garnered from the Warren Papers at Yale A wide ranging account of the interplay between an author s imagination and contemporary history this book should prove of interest to all students of American culture especially those concerned with the interrelationships of literature politics and ideology Written in a lively and direct style it will appeal to specialists and general readers alike

Wallace Stevens and the Actual World Alan Filreis, 2014-07-14 The work of Wallace Stevens has been read most widely as poetry concerned with poetry and not with the world in which it was created deemed utterly singular it seems to resist being read as the record of a life and times In this critical biography Alan Filreis presents a detailed challenge to this exceptionalist view as he traces two major periods of Stevens's career from 1939 to 1955 the war years and the postwar years Portraying Stevens as someone whose alternation between cultural comprehension and ignorance was itself characteristically American Filreis examines the poet's impulse to disguise and compress the very fact of his debt to the actual world By actual world Stevens meant historical conditions often in order to impugn his own interest in such externalities as the last resort of a man whose famous interiority made him feel desperately irrelevant In light of events ranging from the U S entry into World War II to the Cold War Filreis shows how Stevens was driven to make a close approach to reality in an effort to reconcile his poetic language with a cultural language Wallace Stevens and the Actual World is not only an impressive feat of historical recovery and analysis but also a pleasure to read It will be useful to anyone interested in the relationship between American politics and literature during World War II and the Cold War Milton J Bates Marquette University Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

I'll Take My Stand, 2006-11-01 First published in 1930 the essays in this manifesto constitute one of the outstanding cultural documents in the history of the South In it twelve southerners Donald Davidson John Gould Fletcher Henry Blue Kline Lyle H Lanier Stark Young Allen Tate Andrew Nelson Lytle Herman Clarence Nixon Frank Lawrence Owsley John Crowe Ransom John Donald Wade and Robert Penn Warren defended individualism against the trend of baseless conformity in an increasingly mechanized and dehumanized society In her new introduction Susan V Donaldson shows that the Southern Agrarians might have ultimately failed in their efforts to revive the South they saw as traditional stable and unified but they nonetheless sparked debates and quarrels about history literature race gender and regional identity that are still being waged today over Confederate flags monuments slavery and public memory

Allen Tate and the Catholic Revival Peter A. Huff, 1996 Investigates the influence of the preconciliar Catholic Literary Revival on the southern literary critic and Catholic convert Allen Tate 1899-1979 examining Tate's attempt to incorporate the Revival's Christian humanism into a distinctive critique of secular industrial society

political economy and new destination will all find this book extremely useful Altha J Cravey author of *Women and Work in Mexico's Maquiladoras* In recent decades Latino immigration has transformed communities and cultures throughout the southeastern United States and become the focus of a sometimes furious national debate *Global Connections and Local Reception* is one of the first books to provide an in depth consideration of this profound demographic and social development Examining Latino migration at the local state national and binational levels this book includes studies of southeastern locales and a statewide overview of Tennessee Leading migration scholar Alejandro Portes offers a national analysis while Ra l Delgado Wise provides a Mexican perspective on the migration issue and its policy implications for both the United States and Mexico This collection contains a broad base of contributions from legal scholars sociologists anthropologists geographers and political scientists Readers will find demographic data charting trends in immigration descriptions of organizing and of individual experiences a quantitative comparison of new and old destinations a critical history of U S immigration policy in recent decades a report on access to housing and efforts to enact anti immigrant laws an assessment of how mass outmigration currently affects the national economy and communities in Mexico analysis of the way dominant ideology frames black brown relationships in southern labor markets and a concluding essay with detailed recommendations for making U S immigration policy just and humane Frances L Ansley is Distinguished Professor of Law Emeritus at the University of Tennessee College of Law in Knoxville She is the author of numerous book chapters and the principal humanities adviser to a documentary film Her articles have been published in the *California Law Review* *Cornell Journal of International Law* *Georgetown Journal of Poverty Law Policy* *University of Pennsylvania Journal of Labor Employment Law* and numerous additional publications Jon Shefner is associate professor of sociology and director of the Interdisciplinary Program in Global Studies at the University of Tennessee Knoxville He is the coeditor of *Out of the Shadows* *Political Action and the Informal Economy in Latin America* His recent book is *The Illusion of Civil Society Democratization and Community Mobilization in Low Income Mexico* Memory, Metaphors, and Meaning Nicolae Babuts, 2017-07-05 Literature explores the human condition the mystery of the world life and death as well as our relations with others and our desires and dreams It differs from science in its aims and methods but Babuts shows in other respects that literature has much common ground with science Both aim for an authentic version of truth To this end literature employs metaphors and it does so in a manner similar to that of scientific inquiry The cognitive view does not imply that there is a one to one correlation between the world and text that meaning belongs to the author or that literature is equivalent to perception What it does maintain is that meaning is crucially dependent on mnemonic initiatives and that without memory the world remains meaningless Nicolae Babuts claims that at the interface with the printed page readers process texts in a manner similar to the way they explain the visible world in segments or units of meaning or dynamic patterns Babuts argues that humans achieve recognition by integrating stimulus sequences with corresponding patterns that recognize and interpret each

segment of a text Memory produces meaning from these patterns In harmony with its goals memory may adopt specific strategies to deal with different stimuli Dynamic patterns link the unit of processing with the unit of meaning In sum Babuts proposes that meaning is achieved through metaphors and narrative and that both are ways to reach cognitive goals This original study offers perspectives that will interest cognitive psychologists as well as those simply interested in the process through which literature stirs the human imagination

The Rebuke of History Paul V. Murphy, 2003-01-14 In 1930 a group of southern intellectuals led by John Crowe Ransom Allen Tate Donald Davidson and Robert Penn Warren published *I'll Take My Stand: The South and the Agrarian Tradition* A stark attack on industrial capitalism and a defiant celebration of southern culture the book has raised the hackles of critics and provoked passionate defenses from southern loyalists ever since As Paul Murphy shows its effects on the evolution of American conservatism have been enduring as well Tracing the Agrarian tradition from its origins in the 1920s through the present day Murphy shows how what began as a radical conservative movement eventually became alternately a critique of twentieth century American liberalism a defense of the Western tradition and Christian humanism and a form of southern traditionalism which could include a defense of racial segregation Although Agrarianism failed as a practical reform movement its intellectual influence was wide ranging Murphy says This influence expanded as Ransom Tate and Warren gained reputations as leaders of the New Criticism More notably such neo Agrarians as Richard M Weaver and M E Bradford transformed Agrarianism into a form of social and moral traditionalism that has had a significant impact on the emerging conservative movement since World War II

Southern Literature and Literary Theory Jefferson Humphries, 1992-07-01 In this stimulating collection of essays twenty scholars apply new theoretical approaches to the fiction and poetry of southern writers ranging from Poe to Dickey from Faulkner to Hurston Departing from earlier traditions of southern literary scholarship this book seeks not to create a new orthodoxy but to suggest the diversity of critical tools that can now be used to explore the literature and culture of the South Including essays based on deconstructionist feminist and Marxist theory the book features contributions from such critics as Henry Louis Gates Harold Bloom Fred Chappell and Joan DeJean Yet for all their variety the essayists share the same central concern We have in common writes Jefferson Humphries one thing that sets us apart from our elders in our conception of the South and our approach to southern literature the basic assumption that the meaning and significance of literature is not in the immanence of the literary object or in history but in the complex ways in which the literary the historical and all the human sciences that study both are interrelated Instead of simply taking the South for granted the contributors to this volume see it as a text and an idea as something whose ideological underpinnings complexities and contradictions must be subjected to close reading and questioning *Southern Literature and Literary Theory* represents a

major effort to redefine the relationship of southern writing and the South itself to the larger world

The Evolution of Southern Culture Numan V. Bartley, 1988 The American South has long been a subject of endless scholarly fascination. Historians and social scientists have endeavored to decipher the enigma of the region and to identify the formative factors that have molded the southern experience. They have searched for a central theme that would explain southern behavior and have debated the extent to which the region was distinctive from the rest of the nation. More recently, historical scholarship has shown a growing interest in the evolution of southern culture and the forces that shaped it. The southern enigma is yet to be fully deciphered, but *The Evolution of Southern Culture* addresses questions crucial to an understanding of the region's history. The book brings together original, searching essays by nine of the nation's most distinguished scholars: Immanuel Wallerstein, Eugene D. Genovese, Elizabeth Fox-Genovese, Eric Foner, Nell Irvin Painter, George M. Fredrickson, Joel Williamson, Bertram Wyatt Brown. Three Catholic Writers of the Modern South, 1985

American Poets, 1880-1945, First Series Peter Quartermain, 1986 Essays on the writers whose works are the story of modern American poetry to World War II: the story of successive generations of writers increasingly gaining familiarity in and security with the American idiom, gaining confidence in being American poets without having to turn to Europe for models or for approval, nor of having to turn away from Europe.

Willa Cather's Southern Connections Ann Romines, 2000 Though Cather (1837-1947) moved with her family to Nebraska when she was nine, her fiction throughout her life drew heavily from the people, places, and issues of her native Reconstruction South. Novice and veteran literature scholars from around the US examine such connections as racial language, sexual dynamics, and clothes and gender. The 17 essays were selected from a 1997 symposium in Frederick County, Virginia. Annotation copyrighted by Book News Inc., Portland, OR.
