History's Shadow Steven Conn, 2008-09-15 Who were the Native Americans Where did they come from and how long ago Did they have a history and would they have a future Questions such as these dominated intellectual life in the United States during

the nineteenth century And for many Americans such questions about the original inhabitants of their homeland inspired a flurry of historical investigation scientific inquiry and heated political debate History s Shadow traces the struggle of Americans trying to understand the people who originally occupied the continent claimed as their own Steven Conn considers how the question of the Indian compelled Americans to abandon older explanatory frameworks for sovereignty like the Bible and classical literature and instead develop new ones Through their engagement with Native American language and culture American intellectuals helped shape and define the emerging fields of archaeology ethnology linguistics and art But more important the questions posed by the presence of the Indian in the United States forced Americans to confront the meaning of history itself both that of Native Americans and their own how it should be studied what drove its processes and where it might ultimately lead The encounter with Native Americans Conn argues helped give rise to a distinctly American historical consciousness A work of enormous scope and intellect History s Shadow will speak to anyone interested in Native Americans and their profound influence on our cultural imagination History s Shadow is an intelligent and comprehensive look at the place of Native Americans in Euro American s intellectual history Examining literature painting photography ethnology and anthropology Conn mines the written record to discover how non Native Americans thought about Indians Joy S Kasson Los Angeles Times

Sanctified Landscape David Schuyler, 2012-04-06 The Hudson River Valley was the first iconic American landscape

Beginning as early as the 1820s artists and writers found new ways of thinking about the human relationship with the natural world along the Hudson Here amid the most dramatic river and mountain scenery in the eastern United States Washington Irving and James Fenimore Cooper created a distinctly American literature grounded in folklore and history that contributed to the emergence of a sense of place in the valley Painters led by Thomas Cole founded the Hudson River School widely recognized as the first truly national style of art As the century advanced and as landscape and history became increasingly intertwined in the national consciousness an aesthetic identity took shape in the region through literature art memory and folklore even gardens and domestic architecture In Sanctified Landscape David Schuyler recounts this story of America s idealization of the Hudson Valley during the nineteenth and early twentieth centuries Schuyler s story unfolds during a time of great change in American history At the very moment when artists and writers were exploring the aesthetic potential of the Hudson Valley the transportation revolution and the rise of industrial capitalism were transforming the region The first generation of American tourists traveled from New York City to Cozzens Hotel and the Catskill Mountain House in search of the picturesque Those who could afford to live some distance from jobs in the city built suburban homes or country estates Given these momentous changes it is not surprising that historic preservation emerged in the Hudson Valley the first building in the United States preserved for its historic significance is Washington s Headquarters in Newburgh Schuyler also finds the seeds of the modern environmental movement in the transformation of the Hudson Valley landscape Richly illustrated and compellingly written Sanctified Landscape makes for rewarding reading Schuyler expertly ties local history to national developments revealing why the Hudson River Valley was so important to nineteenth century Americans and why it is still beloved today
