Supreme Court,1960 Complete with headnotes summaries of decisions statements of cases points and authorities of counsel annotations tables and parallel references **Incredible Modernism** John Attridge,2016-05-23 With the twentieth century came a new awareness of just how much an individual was obliged to accept on trust and this heightened awareness of social trust in turn prompted new kinds of anxiety about fraudulence and deception Beginning with the premise that the traditional liberal concept of trust as a bond of society entered a period of crisis around the turn of the twentieth century this collection examines the profound influence of this shift on a wide range of modernist writers including James Joyce Marcel Proust Gertrude Stein Ezra Pound Wyndham Lewis H D Ford Madox Ford Samuel Beckett Ralph Ellison and Wallace Stevens In examining the importance of trust and fraudulence during the period the contributors take up a diverse set of topics related to reception the institutions of modernism the history of authorship the nature of representation authenticity genre social order and politics Taken as a whole Incredible Modernism provides concrete historical coordinates for the study of twentieth century trust while also arguing that a problem of trust is central to the institutions and formal innovations of modernism itself Custer's Conqueror William J. Bordeaux,2010-04-09 William J Bordeaux was a bona fide member of the Brule band of the Sioux tribe His grandfather James Bordeaux was one of the early French fur traders who bravely carried on his trade and barter with the Sioux when the virgin prairies of the west were still an open frontier A lineal descendent of Red Cormorant Woman H ntk lutawin his grandmother he was well versed in his mother tongue Being proficient in several dialects of the native language he was able to converse with sage and grizzled old warriors and thus obtain information impossible for a white man to learn His close union with his own tribe and daily conversations with them is an assurance that no doubtful or transcribed evidence will appear on these pages In Bordeaux s search for material for a history of his people he spent considerable time traveling and talking to the oldest Indians on the different Sioux Indian Reservations Through his research he stored up and accumulated a wealth of stories and legends with awe inspiring fables and facts that would be valuable to story writers These fragmentary myths and authentic facts connected with his people would have been lost without these writings In his travels for the purpose of obtaining datum relative to the hostile activities by the different war chiefs he found one warrior that stood out alone excelling all other Sioux war braves as to courage and cunning Crazy Horse an Ogl la Sioux **The Dugum Dani** Karl G. Heider,2017-07-12 For many years anthropologists have speculated about primitive warfare its place in a particular culture its form and its consequences on other tribes This full scale ethnography of

the Dugum Dani centers on the issue of hostility between groups of human beings and the place and function of violence Warfare like rituals and kinship alliances is part of a total culture and for this reason Professor Heider has approached the Dani from a holistic point of view Other aspects of Dani life and organization are shown in interrelationship with the institution of warfare such as the social ecological and technological elements in the Dani way of life Professor Heider examines particularly the role of warfare itself in terms of the particular needs and lack of them The first section of this book documents the Dani and their warfare and provides one of the most detailed accounts of tribal life available The second section focuses on the material aspects of Dani culture to explore the interrelationships of the material objects with the other aspects of Dani culture this analysis is especially interesting since the Dani moved from a stone age culture to steel tools during the period of study itself Professor Heider also notes the distinctive aspects of Dani culture the paucity of color number and other attribute terms the near absence of art their five year post partum sexual abstinence and other traits that seem to suggest that the Dani have little interest in intellectual elaboration or sex and that despite their warfare they are not a particularly aggressive people Including previously unpublished photographs and descriptions of tribal life and warfare this book provides anthropologists with a full and vivid account of Dani culture and with new insights into the general problems of human aggression
