dissemination of stereotypes of modern architecture styles almost everywhere around the globe Paradoxically the reverse
process has also emerged In some countries the elites feel the necessity to counterbalance the loss of identity and defend
their own cultures against the intruding forces of globalization What started as a defensive notion has developed into a more
progressive attempt to re create what has allegedly been lost This trend is being strongly expressed in discourses about
architecture in countries of the South Who are the actors feeling compelled to construct new identities How are these new
