GOMBRICH* Sybille Moser-Ernst,2018-02-19 Ernst H Gombrich the Art Historian master of both Continental thought and English language became one of the world s most well known representatives of the discipline Half a century ago his testable theories transformed thinking on how to look at art After only a few years during which semiotics appeared to render Sir Ernst s common sense framework outdated the rise of cognitive approaches has enabled him to recover internationally the status he once had in France as a radical thinker within modern philosophy This book explores Gombrich s intellectual legacy by analysing some of the concepts and insights in the context of Image Science the *Steckenpferd* The international contributors are original authorities in their own right among them some of Gombrich s former students **Mind over Mind** Morton Klass,2004-09-01 *Mind Over Mind* explores the phenomenon of spirit possession from both anthropological and psychological perspectives Spirit possession is ritually important in many cultures from India to Brazil to Madagascar but has tended to be narrowly regarded from modern American and European perspectives as a psychopathological problem of multiple personality disorder This book proposes an integration of anthropological and psychological approaches concluding with a new analytical framework for understanding spirit possession and resolving the controversy surrounding the reality of possession The issues raised are thus essential to both the anthropology of religion and the psychology of altered states of consciousness At the same time *Mind over Mind* confronts the most challenging philosophical issues of human consciousness and human identity which can not be properly formulated without the insights of social and cultural anthropology At the most general level this study argues for the unequivocal importance of an interdisciplinary approach to spirit possession and for the integral significance of anthropology for the other human sciences *Psychological Bulletin* ,1922 Vol 49 no 4 pt 2 July 1952 is the association s Publication manual **The Journal of Comparative Neurology and Psychology** ,1905 Ernst Mach's World Elements E.C.
