Copyright Office,1946 Activism on the Web Veronica Barassi,2015-05-22 Activism on the Web examines the everyday tensions that political activists face as they come to terms with the increasingly commercialized nature of web technologies and sheds light on an important yet under investigated dimension of the relationship between contemporary forms of social protest and internet technologies Drawing on anthropological and ethnographic research amongst three very different political groups in the UK Italy and Spain the book argues that activists everyday internet uses are largely defined by processes of negotiation with digital capitalism These processes of negotiation are giving rise to a series of collective experiences which are defined by the tension between activists democratic needs on one side and the cultural processes reinforced by digital capitalism on the other In looking at the encounter between activist cultures and digital capitalism the book focuses in particular on the tension created by self centered communication processes and networked individualism by corporate surveillance and data mining and by fast capitalism and the temporality of immediacy Activism on the Web suggests that if we want to understand how new technologies are affecting political participation and democratic processes we should not focus on disruption and novelty but we should instead explore the complex dialectics between digital discourses and digital practices between the technical and the social between the political economy of the web and its lived critique Fidel Castro: My Life Ignacio Ramonet,Fidel Castro,2008-03-11 The intimate and highly revealing life story of the world s longest serving most charismatic and controversial head of state in modern times Fidel Castro was a dictatorial pariah to some and a hero and inspiration for many of the world s poor defiantly charting an independent and revolutionary path for Cuba over nearly half a century Numerous attempts were made to get Castro to tell his own story But only in the twilight of his years was he prepared to set out the

details of his remarkable biography for the world to read before his death in 2016 This book is nothing less than his living testament In these pages Castro narrates a compelling chronicle that spans the harshness of his elementary school teachers the early failures of the revolution his intense comradeship with Che Guevara and their astonishing against all odds victory over the dictator Batista the Cuban perspective on the Bay of Pigs and the ensuing missile crisis the active role of Cuba in African independence movements especially its large military involvement in fighting apartheid South Africa in Angola his relations with prominent public figures such as Boris Yeltsin Pope John Paul II and Saddam Hussein and his dealings with no less than ten successive American presidents from Eisenhower to George W Bush Castro talks proudly of increasing life expectancy in Cuba of the half million students in Cuban universities and of the training of seventy thousand Cuban doctors nearly half of whom work abroad assisting the poor in Africa Asia and Latin America He confronts a number of thorny issues including democracy and human rights discrimination toward homosexuals and the presence of the death penalty on Cuban statute books Along the way he shares intimacies about more personal matters the benevolent strictness of his father his successful attempt to give up cigars his love of Ernest Hemingway s novels and his calculation that by not shaving he saves up to ten working days each year Drawing on more than one hundred hours of interviews with Ignacio Ramonet a knowledgeable and trusted interlocutor this spoken autobiography will stand as the definitive record of an extraordinary life lived in turbulent times
