Maimon's Essay on a New Logic Or Theory of Thinking Timothy Franz, 2024-09-09 The Essay on a New Logic or Theory of Thinking originally published in Berlin in 1794 was Salomon Maimon's hard won success after a lifetime's pursuit of philosophical wisdom Timothy Franz presents its first English translation Franz translates the entirety of the New Logic Maimon's Letters to Aenesidemus two hostile reviews he vigorously annotated and his letters to Kant Reinhold and Fichte about the work Franz prefaces the text with a new history of Maimon's unique philosophical development an introduction that discusses Maimon's relation to Kant and a commentary that reconciles Maimon's idiosyncratically disjointed style with his unified vision of a systematic philosophy of reflection This makes Maimon's work available for further study

Bernstein, 2022-09-29 The relation between humans and nature is at the core of the great existential threats of our time from climate change extreme weather and environmental destruction to devastating pandemics We are becoming increasingly aware of the fact that unless we change our behavior radically and quickly the most likely outcome will be the destruction of countless species and forms of life including our own But we also need to change the way we think about nature and think about the relation between humans and nature this is a key intellectual task In this important book Richard J Bernstein argues that an adequate conception of humans and nature capable of facing up to the existential threats of our time requires taking full account of the major projects dealing with nature in the past Focusing on key figures of modernity Spinoza Hume Kant Hegel Marx Nietzsche and Freud Bernstein reconstructs their conceptions of nature and uncovers the reasons that led them to their distinctive views Working through the contradictions and incompatibilities among these diverse thinkers Bernstein identifies common themes that have shaped their struggles in dealing with the relation of humans to nature He offers a critical overview of the challenges illuminated by each perspective that must be confronted in our thinking of nature today As a prolegomenon to rethinking humanity and nature this book uncovers the rich conceptual resources available within the modern tradition that can help us to develop an adequate understanding of nature for our time *Hegel's Political Philosophy* Thom Brooks, Sebastian Stein, 2017 Hegel famously argues that his speculative method is a foundation for claims about socio political reality within a wider philosophical system This systematic approach is thought a superior alternative to all other ways of philosophical thinking Hegel's method and system have normative significance for understanding everything from ethics to the state Hegel's approach has attracted much debate among scholars about key philosophical questions and controversy about his proposed answers to them Is his method and system open to the charge of dogmatism Are his claims about the rationality of monarchy unequal gender relations an unelected second parliamentary chamber and a corporation based economy beyond revision This ground breaking collection of new essays by leading interpreters of Hegel's philosophy is dedicated to the questions that surround Hegel's philosophical method and its relationship to the conclusions of his political philosophy It contributes to the on going debate about the importance of a systematic context for political philosophy the relationship between theoretical and practical philosophy and engages with contemporary discussions about the shape of a rational social order

Scepticism in the Eighteenth Century: Enlightenment, Lumières, Aufklärung Sébastien Charles, Plínio J. Smith, 2014-07-08 The Age of Enlightenment has often been portrayed as a dogmatic period on account of the veritable worship of reason and progress that characterized Eighteenth Century thinkers Even today the philosophes are considered to have been completely dominated in their thinking by an optimism that leads to dogmatism and ultimately rationalism However on closer inspection

such a conception seems untenable not only after careful study of the impact of scepticism on numerous intellectual domains in the period but also as a result of a better understanding of the character of the Enlightenment As Giorgio Tonelli has rightly observed the Enlightenment was indeed the Age of Reason but one of the main tasks assigned to reason in that age was to set its own boundaries Thus given the growing number of works devoted to the scepticism of Enlightenment thinkers historians of philosophy have become increasingly aware of the role played by scepticism in the Eighteenth Century even in those places once thought to be most given to dogmatism especially Germany Nevertheless the deficiencies of current studies of Enlightenment scepticism are undeniable In taking up this question in particular the present volume which is entirely devoted to the scepticism of the Enlightenment in both its historical and geographical dimensions seeks to provide readers with a revaluation of the alleged decline of scepticism At the same time it attempts to resituate the Pyrrhonian heritage within its larger context and to recapture the fundamental issues at stake The aim is to construct an alternative conception of Enlightenment philosophy by means of philosophical modernity itself whose initial stages can be found herein

Moses Mendelssohn's Metaphysics and Aesthetics Reinier Munk, 2011-10-20 This book presents an extended dialogue in essay form between specialists in the work of Moses Mendelssohn and experts in important trends in related late seventeenth and eighteenth century thought The first group of contributors explores themes in Mendelssohn's metaphysics and aesthetics presenting both their internal argumentative coherence and their historical context The second outlines the context of Mendelssohn's views on specific topics and describes his contribution to the discussion of them The essays are organized in four sections The first pairs two essays on Mendelssohn's theory of language and writing The second section offers three essays addressing a number of topics in Mathematics and philosophy in Mendelssohn A group of eight essays follows dealing with Metaphysics in a historical context The fourth section presents five essays discussing Mendelssohn's Aesthetics in a historical context Moses Mendelssohn's Metaphysics and Aesthetics arises from a conference held in Amsterdam in 2009 which gathered numerous authorities to address the central theme Taken together these eighteen essays present a sophisticated portrait of Mendelssohn packed with

detail and rich in complexity Franz Rosenzweig and the Systematic Task of Philosophy Benjamin Pollock, 2009-03-23
Pollock argues that Rosenzweig's *The Star of Redemption* is devoted to the philosophical task of grasping the All the whole of what is as a system **After the Postsecular and the Postmodern** Anthony Paul Smith, Daniel Whistler, 2010-02-19
Continental philosophy of religion has been dominated for two decades by postsecular and postmodern thought This volume brings together a vanguard of scholars to ask what comes after the postsecular and the postmodern that is what is Continental philosophy of religion now Against the subjugation of philosophy to theology *After the Postsecular and the Postmodern* New Essays in Continental Philosophy of Religion argues that philosophy of religion must either liberate itself from theological norms or mutate into a new practice of thinking in order to confront the challenges religion presents for our time The essays do not propose a new orthodoxy but set the stage for new debates by reclaiming a practice of philosophy of religion that recovers and draws on the insights of a distinctly modern tradition of Continental philosophy confronts the challenge of rethinking the secular in the light of the postsecular event and calls for a move from strictly critical to speculative thought in order to experiment with what philosophy can do This collection of essays is indispensable for anyone interested in the relationship between philosophy and theology political questions regarding religion and in what contemporary speculative Continental philosophy has to add to philosophy of religion
