in the twentieth century through the 1930s receives its first sustained analysis in this book. The distinctive formal and technical conventions of archaic art especially Greek art particularly affected sculptors some frankly modernist others staunchly conservative and a few who like American Paul Manship negotiated the distance between tradition and modernity. Susan Rather considers the theory practice and criticism of early twentieth century sculpture in order to reveal the changing meaning and significance of the archaic in the modern world. To this end and against the background of Manship's career she explores such topics as the archaeological resources for archaism the classification of the non-Western art of India as archaic the interest of sculptors in modern dance Isadora Duncan and Ruth St Denis and the changing critical perception of archaism. Rather rejects the prevailing conception of archaism as a sterile and superficial academic style to argue its initial importance as a modernist mode of expression. The early practitioners of archaism including Aristide Maillol Andr Derain and Constantin Brancusi renounced the rhetorical excess overrefined naturalism and indirect techniques of late nineteenth century sculpture in favor of nonnarrative stylized and directly carved works for which archaic Greek art offered an important example. Their position found implicit support in the contemporaneous theoretical writings of Emmanuel Levy Wilhelm Worringer and Adolf von Hildebrand. The perceived relationship between archaic art and tradition ultimately compromised the modernist authority of archaism and made possible its absorption by academic and reactionary forces during the 1910s. By the 1920s Paul Manship was identified with archaism which had become an important element in the aesthetic of public sculpture of both democratic and totalitarian societies. Sculptors often employed archaizing stylizations as ends in themselves and with the intent of evoking the foundations of a classical art diminished in potency by its ubiquity and obsolescence. Such stylistic archaism was not an empty formal exercise but an urgent affirmation of traditional values under siege. Concurrently archaism entered the mainstream of fashionable modernity as an ingredient in the popular and commercial style known as Art Deco. Both developments fueled the condemnation of archaism and of Manship its most visible exemplar by the avant garde. Rather's exploration of the critical debate over archaism finally illuminates the uncertain relationship to modernism on the part of many critics and highlights the problematic positions of sculpture in the modernist discourse.

Goethe in English Derek Glass, Martin H. Jones, 2005. This bibliography was commissioned by the English Goethe Society as a contribution to the celebration in 1999 of the 250th anniversary of Goethe's birth. It sets out to record translations of his works into English that have been published in the twentieth century up to and including material published in that anniversary year. It aims to serve as wide a constituency as possible be it as a simple reference tool for tracing a translation of a given work or as a documentary source for specialized studies of Goethe reception in the English speaking world. The work records publications during the century not merely translations that originated during this period. It includes numerous reprintings of older material as well as some belated first publications of translations from the nineteenth

century It shows how frequent and how long enduring was the recourse of publishers and anthologists to a Goethe Victorian in diction a signal factor in perceptions and misperceptions Derek Glass was putting the finishing touches to the bibliography at the time of his sudden death in March 2004 Colleagues at Kings College London have edited the final manuscript which is now published jointly by the English Goethe Society and the Modern Humanities Research Association both as a worthy commemoration of Goethes anniversary and as a tribute to Derek himself Book Catalog of the Library and Information Services Division: Shelf list catalog Environmental Science Information Center.
