All People, All Times Jeffery S. Stevenson, 2009-09 All People All Times Rethinking Biblical Authority in Churches of Christ explores the assumptions traditionally held in a cappella Churches of Christ regarding how one knows what in Scripture is binding on all people at all times The development of the tripartite model for determining Bible authority i e command example and implication is examined and critiqued While many in Churches of Christ advocate abandoning the model altogether others refuse to see its limitations in a postmodern culture All People All Times offers a hermeneutical approach The Transformational Restoration Hermeneutic or TRH that sharpens the tripartite method by providing a biblically based grid to more accurately discern Scripture s emphases As well it introduces a sorely needed means for the formational use of Scripture In short the TRH recognizes not only the need to take Scripture seriously when it speaks authoritatively regarding external or doctrinal necessities but also when it speaks to the spiritual moral and relational priorities stressed in our postmodern era It is hoped the TRH can provide a hermeneutical bridge between the widening streams of a fellowship historically devoted to speaking where the Bible speaks For the last 18 of his 32 years in preaching Jeffery S Stevenson has served as the Preaching Minister for the Church of Christ at Louisville Ohio and the Director of Second Wind Christian Counseling Ministries Jeff holds degrees from Freed Hardeman University Bible the University of Akron Marriage and Family Therapy and a Doctorate from Ashland Ohio Theological Seminary Jeff has written on topics such as hermeneutics and biblical application in the Restoration Movement evangelism and Christian counseling He has published articles in the Gospel Advocate Christian Standard and Restoration Quarterly Jeff and his wife Tonnie have three grown daughters Micah Meghann and Mallory Jeff s likes reading walking cycling and model railroading

Facing Global Environmental Change Hans Günter Brauch, Navnita Chadha Behera, Patricia Kameri-Mbote, John Grin, Úrsula Oswald Spring, Béchir Chourou, Czeslaw Mesjasz, Heinz Krummenacher, 2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth sessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on c mate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world
