Ancient Chinese Thought, Modern Chinese Power Yan Xuetong, 2013-08-25 From China's most influential foreign policy thinker a vision for a Beijing Consensus for international relations The rise of China could be the most important political development of the twenty first century What will China look like in the future What should it look like And what will China's rise mean for the rest of world This book written by China's most influential foreign policy thinker sets out a vision for the coming decades from China's point of view In the West Yan Xuetong is often regarded as a hawkish policy advisor and enemy of liberal internationalists But a very different picture emerges from this book as Yan examines the lessons of ancient Chinese political thought for the future of China and the development of a Beijing consensus in international relations Yan it becomes clear is neither a communist who believes that economic might is the key to national power nor a neoconservative who believes that China should rely on military might to get its way Rather Yan argues political leadership is the key to national power and morality is an essential part of political leadership Economic and military might are important components of national power but they are secondary to political leaders who act in accordance with moral norms and the same holds true in determining the hierarchy of the global order Providing new insights into the thinking of one of China's leading foreign policy figures this book will be essential reading for anyone interested in China's rise or in international relations

A Chinese Reading of the Daodejing Rudolf G. Wagner, 2012-02-01 Many of the brightest Chinese minds have used the form of the commentary to open the terse and poetic chapters of the Laozi to their readers and also to develop a philosophy of their own None has been more sophisticated philosophically probing and influential in the endeavor than a young genius of the third century C E Wang Bi 226-249 In this book Rudolf G Wagner provides a full translation of the Laozi that extracts from Wang Bi's Commentary the manner in which he read the text as well as a full translation of Wang Bi's Commentary and his essay on the subtle pointers of the Laozi The result is a Chinese reading of the Laozi that will surprise and delight Western readers familiar with some of the many translations of the work A Chinese Reading of the Daodejing is part of Rudolf Wagner's trilogy on Wang Bi's philosophy and classical studies which also includes *The Craft of a Chinese Commentator* Wang Bi on the Laozi and *Language Ontology and Political Philosophy in China* Wang Bi's Scholarly Exploration of the Dark Xuanxue both published by SUNY Press

The Many Lives of Yang Zhu Carine Defoort, Ting-mien Lee, 2022-12-01 This volume presents the most important portrayals of an ancient Chinese master Yang Zhu throughout Chinese history from the fourth century BCE till today Due to the striking scarcity of reliable textual testimony regarding his life and thought all these portrayals are to a large extent inspired by their own historical contexts Mencius's criticism in the late Warring States the creation of a Confucian orthodoxy during the imperial era and the establishment of a Chinese philosophy in the Republic This volume adopts a historical approach tracing the most important portrayals of Yang Zhu in their own contexts and mutual connections It yields new insights not only into the figure of Yang Zhu but also into the stages

of China's intellectual history Scarcity of reliable textual support is to varying degrees a common predicament in the study of ancient Chinese masters but the case of Yang Zhu is particularly illuminating The remarkable dearth of textual material represents the almost nothing out of which early Chinese philosophers such as Yang Zhu have been fruitfully created

The Core Values of Chinese Civilization Lai Chen, 2016-12-20 Drawing on the core values of western civilization the author refines the counterparts in Chinese civilization summarized as four core principles duty before freedom obedience before rights community before individual and harmony before conflict Focusing on guoxue or Sinology as the basis of his approach the author provides detailed explanations of traditional Chinese values Recent scholars have addressed the concept of guoxue since the modern age sorting through it and piecing it together which has produced an extremely abundant range of information However given that the concepts and theories involved have been left largely unanalyzed this book develops a theoretical treatment of them in several important respects First it analyzes the mindset of guoxue examining the dominant ideas and values of the era from which the term guoxue arose focusing on its connection to early changes and trends in society and culture and distinguishing three key phases of development Past scholars mainly had in mind the range of objects studied in guoxue when defining it and what this book underscores is the meaning of guoxue as a modern body of research Secondly it assesses several phases in the modern evolution of the body of guoxue research from the beginning to the end of the 20th century i.e. ending with the later phase of the National Heritage movement Third and lastly the book explores the various main modes of modern guoxue which correspond step by step with the evolutionary phases of guoxue research

Thought Fred Dallmayr, Zhao Tingyang, 2012-07-27 Westerners seem united in the belief that China has emerged as a major economic power and that this success will most likely continue indefinitely But they are less certain about the future of China's political system China's steps toward free market capitalism have led many outsiders to expect increased democratization and a more Western political system The Chinese however have developed their own version of capitalism Westerners view Chinese politics through the lens of their own ideologies preventing them from understanding Chinese goals and policies In *Contemporary Chinese Political Thought: Debates and Perspectives* Fred Dallmayr and Zhao Tingyang bring together leading Chinese intellectuals to debate the main political ideas shaping the rapidly changing nation Investigating such topics as the popular China Model the resurgence of Chinese Confucianism and its applications to the modern world and liberal socialism the contributors move beyond usual analytical frameworks toward what Dallmayr and Zhao call a dismantling of ideological straitjackets Comprising a broad range of opinions and perspectives *Contemporary Chinese Political Thought* is the most up to date examination in English of modern Chinese political attitudes and discourse Features contributions from Ji Wenshun, Zhou Lian, Zhao Tingyang, Zhang Feng, Liu Shuxian, Chen Ming, He Baogang, Ni Peimin, Ci Jiwei, Cui Zhiyuan, Frank Fang, Wang Shaoguang and Cheng Guangyun *The Old Master* Hongkyung Kim, 2012-01-01 This unique highly contextualized translation of the Laozi is based on the earliest known edition of the work Text A of the Mawangdui Laozi written before 202 BCE No other editions are comparable to this text in its antiquity Hongkyung Kim also incorporates the recent archaeological discovery of Laozi related documents disinterred in 1993 in Guodian seeing these documents as proto materials for compilation of the Laozi and revealing clues for disentangling the work from complicated exegetical contentions Kim makes extensive use of Chinese commentaries on the Laozi and also examines the classic Chinese texts closely associated with the formation of the work to illuminate the intellectual and historical context of Laozi's philosophy Kim offers several original and thought provoking arguments on the Laozi including that the work was compiled during the Qin which has traditionally been

viewed as typical of Legalist states and that the Laozi should be recognized as a syncretic text before being labeled a Daoist one

The Writ of the Three Sovereigns Dominic Steavu, 2019-09-30 In 648 CE Tang imperial authorities collected every copy of the Writ of the Three Sovereigns Sanhuang wen from the four corners of the empire and burned them The formidable talismans at its core were said not only to extend their owners lifespan and protect against misfortune but also propel them to stratospheric heights of power elevating them to the rank of high minister or even emperor Only two or three centuries earlier this controversial text was unknown in most of China with the exception of Jiangnan in the south where it was regarded as essential local lore In the span of a few generations the Writ of the Three Sovereigns would become the cornerstone of one of the three basic corpora of the Daoist Canon a pillar of Daoism and a perceived threat to the state This study the only book length treatment of the Writ of the Three Sovereigns in any language traces the text s transition from local tradition to empire wide institutional religion The volume begins by painting the social and historical backdrop against which the scripture emerged in early fourth century Jiangnan before turning to its textual history It reflects on the work s centerpiece artifacts the potent talismans in celestial script as well as other elements of its heritage namely alchemical elixirs and true form diagrams During the fifth and sixth centuries with Daoism coalescing into a formal organized religion the Writ of the Three Sovereigns took on a symbolic role as a liturgical token of initiation while retaining its straightforward language of sovereignty and strong political overtones which eventually led to its prohibition The writ endured however and later experienced a revival as its influence spread as far as Japan Despite its central role in the development of institutional Daoism the Writ of the Three Sovereigns has remained an understudied topic in Chinese history Its fragmentary textual record combined with the esoteric nature of its content have shrouded it in speculation This volume provides a lucid reconstruction of the text s hidden history and enigmatic practices while shedding light on its contributions to the religious landscape of medieval China
