Cowboy Ed:

Cowboy Spur Maker Jane Pattie, Tom Kelly, 2008-10-07 Ed Blanchard was best known for making spurs that fit a cowboy's boots. Yet Blanchard was known to family and friends as a wild reckless cowboy long before horsemen of the West recognized him as a master maker of cowboy spurs. It was his years spent herding cattle and cinching his saddle on broncs that taught him his trade as both a cowboy and a spur maker. This lively illustrated story of the man and his craft relies heavily on the memories of Blanchard's cousin New Mexico rancher Tom Kelly of Water Canyon who grew up with Ed and his friends. Co-author Jane Pattie has researched the times and added historical background and she has also drawn on interviews she did with Blanchard for her earlier book *Cowboy Spurs and Their Makers*. But it is from Kelly that she has uncovered Blanchard's work in the cattle business and how he learned from a neighboring rancher the art of hammering hot steel into the shape of spurs. Kelly's ranch life as well as his own spurs are also pictured in this attractive and inviting little volume. Together Pattie and Kelly tell a dual tale of old times and of change, the story of spur making as experienced by one of its more prolific practitioners and the story of cowboys in the early part of the twentieth century. Through Blanchard's experiences the authors trace the changes of western life from horse to pickup truck, from hand forged spurs to those of commercial manufacture. Ranch life, cowboying and metalworking in the American West are interwoven through the book as they were in the real life of Ed Blanchard who emerges from these pages as a humorous down home regional character readers will be glad to get to know.

Cowboy Wild Sandra Shields, 2012 Love it or hate it the Calgary Stampede is a place where myth, history and spectacle collide. 100 years after an American vaudeville cowboy first dreamed it up, the Stampede remains an unrivalled homage to the West. *Cowboy Wild* was more than a decade in the making. Photographer David Campion roamed the world's biggest Wild West show and brought back a collection of images that speak to our fascination with the cowboy. With wry humour these photographs pull back the curtain and probe the contradictions that lie at the heart of a myth that transforms history into a story about the triumph of man over nature, nostalgically regretted even as it is celebrated. As the Stampede marks its 100th anniversary, the time is ripe for a book that goes beyond the hype. In the accompanying essay writer Sandra Shields uses the prism of the Stampede to offer a meditation on the meaning of the West and its enduring hold on our collective imagination.

The Cowboy Blake Allmendinger, 1992 The Cowboy uses literary, historical, folkloric and pop cultural sources to document the cowboy's role in the culture of the American West. In doing so Allmendinger makes use of early oral poems recited by cowboys in the course of their work and later poems, histories and autobiographies written by cowboys, most of which have never before been studied by scholars.

Consuming Knowledge: Studying Knowledge Use in Leisure and Work Activities Steven D. Silver, 2012-12-06 It is difficult to overstate the importance of personal consumption both to individual consumers and to the economy While consumers are recognized as valuing market goods and services for the activities they can construct from them in the frameworks of several disciplines consequences of the characteristics of goods and services they use in these activities have not been well studied In the discourse to follow I will contrast knowledge yielding and conventional goods and services as factors in the construction of activities that consumers engage in when they are not in the workplace Consumers will be seen as deciding on non work activities and the inputs to these activities according to their objectives and the values and cumulated skills they

hold I will suggest that knowledge content in these activities can be efficient for consumer objectives and also have important externalities through its effect on productivity at work and economic growth The exposition will seek to elaborate these points and contribute to multi disciplinary dialogue on consumption It takes as its starting point the contention that consumption is simultaneously an economic and social psychological process and that integration of content can contribute to explanation

Cow Boys and Cattle Men Jacqueline M. Moore, 2010 Cowboys are an American legend but despite ubiquity in history and popular culture misperceptions abound Technically a cowboy worked with cattle as a ranch hand while his boss the cattleman owned the ranch Jacqueline M Moore casts aside romantic and one dimensional images of cowboys by analyzing the class gender and labor histories of ranching in Texas during the second half of the nineteenth century As working class men cowboys showed their masculinity through their skills at work as well as public displays in town But what cowboys thought was manly behavior did not always match those ideas of the business minded cattlemen who largely absorbed middle class masculine ideals of restraint Real men by these standards had self mastery over their impulses and didn't fight drink gamble or consort with unsavory women Moore explores how in contrast to the mythic image from the late 1870s on as the Texas frontier became more settled and the open range disappeared the real cowboys faced increasing demands from the people around them to rein in the very traits that Americans considered the most masculine Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University
