Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation's drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP's use of statistics as well as how the nation fights the war on drugs Praise for the First Edition *Lies Damned Lies and Drug War Statistics* is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of *Drug Crazy How We Got into This Mess and How We Can Get Out* Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance **The UberReader** Avital Ronell, 2010-10-01 Avital Ronell has put together what must be one of the most remarkable critical oeuvres of our era Zeugmatically yoking the slang of pop culture

with philosophical analysis forcing the confrontation of high literature and technology or drug culture Avital Ronell produces sentences that startle irritate illuminate At once hilarious and refractory her books are like no others Jonathan Culler Diacritics For twenty years Avital Ronell has stood at the forefront of the confrontation between literary study and European philosophy She has tirelessly investigated the impact of technology on thinking and writing with groundbreaking work on Heidegger dependency and drug rhetoric intelligence and artificial intelligence and the obsession with testing Admired for her insights and breadth of field she has attracted a wide readership by writing with guts candor and wit Coyly alluding to Nietzsche's gay science The Reader presents a solid introduction to Avital Ronell's later oeuvre It includes at least one selection from each of her books two classic selections from a collection of her early essays Finitude's Score previously uncollected interviews and essays and some of her most powerful published and unpublished talks An introduction by Diane Davis surveys Ronell's career and the critical response to it thus far With its combination of brevity and power this Ronell primer will be immensely useful to scholars students and teachers throughout the humanities but particularly to graduate and undergraduate courses in contemporary theory Questions and Answers in Lethal and Non-Lethal Violence Carolyn R. Junk Mail Will Self, 2012-09-11 Everything that makes Will Self's fiction so arresting and original is in evidence here in this collection of his best articles book reviews and interviews from the Observer the Guardian the Independent the Evening Standard and many more Whether describing penis operations narcotics or merely pondering the nature of slacking these pieces are as witty and acerbic as one would expect from one of our foremost contemporary satirists **Drugs and Violence** United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations, 1990 *Avenue of Vanishing* William Olsen, 2007-04-24 In lyric and narrative verse William Olsen explores subcultures ranging from the suburban middle class to the urban drug culture to the art world and along the way constantly probes at the very nature of human language Drawing surprising and illuminating connections between the political and historical the prosaic and the personal civilization and nature these poems try to make sense of the individual's experience of time memory and society The range of Olsen's images form an organic connection between the physical and the abstract and his hypnotic mixture of colloquial and eloquent language create a sound and music that are uniquely his own That's what infinity did contain and threaten until friends complied by going one by one to resurface obligingly in memories and it sometimes still feels we left them at our leisure that such choice was good so long as a larger choice seemed to succeed it nor could gazing bereave us of common sense nor would all plenty and foison fall into penury nor would shame forever drop its heavy head Infinity felt like life and it said so and waited It even spelled our autumnal names in solid gold leaves that an

inexhaustible supply of wind tossed for such pleasure as we had said and said until it transformed into the profound conviction that the right track was lost imagine forever it turned our tears into pebbles that can't seep away that can't fly away that we don't dare to pronounce yet it seemed concocted out of a clear beautiful sky yet it peeped out the woodshed and drank from the gutter spout yet it wrestled with itself and sank in eager mud that presently it might be outwardly known along with all the other creatures that perish heartbreaking idea among many heartbreaking ideas from Infinity The Hip Hop Wars Tricia Rose, 2008-12-02 How hip hop shapes our conversations about race and how race influences our consideration of hip hop Hip hop is a distinctive form of black art in America from Tupac to the Pulitzer Prize winning Kendrick Lamar hip hop has long given voice to the African American experience As scholar and cultural critic Tricia Rose argues hip hop in fact has become one of the primary ways we talk about race in the United States But hip hop is in crisis For years the most commercially successful hip hop has become increasingly saturated with caricatures of black gangstas thugs pimps and hos This both represents and feeds a problem in black American culture Or does it In The Hip Hop Wars Rose explores the most crucial issues underlying the polarized claims on each side of the debate Does hip hop cause violence or merely reflect a violent ghetto culture Is hip hop sexist or are its detractors simply anti sex Does the portrayal of black culture in hip hop undermine black advancement A potent exploration of a divisive and important subject The Hip Hop Wars concludes with a call for the regalanization of the progressive and creative heart of hip hop What Rose calls for is not a sanitized vision of the form but one that more accurately reflects a much richer space of culture politics anger and yes sex than the current ubiquitous images in sound and video currently provide *Shooting Up* Łukasz Kamiński, 2017 From hallucinogenic mushrooms and LSD to coca and cocaine from Homeric warriors and the Assassins to the first Gulf War and today's global insurgents drugs have sustained warriors in the field and have been used as weapons of warfare either as non lethal psychochemical weapons or as a means of subversion Łukasz Kamiński explores why and how drugs have been issued to soldiers to increase their battlefield performance boost their courage and alleviate stress and fear as well as for medical purposes He also delves into the history of psychoactive substances that combatants self prescribe a practice which dates as far back as the Vikings *Shooting Up* is a comprehensive and original history of the relationship between fighting men and intoxicants from Antiquity till the present day and looks at how drugs will determine the wars of the future in unforeseen and remarkable ways **Reading Ronell** Diane Davis, 2010-10-01 Avital Ronell has won worldwide acclaim for her work across literature and philosophy psychoanalysis and popular culture political theory and feminism art and rhetoric drugs and deconstruction In works such as *The Test Drive* *Stupidity* *Crack Wars* and *The Telephone Book* she has perpetually raised new and powerful questions about how we think what thinking does and how we fool ourselves about the troubled space between thought and action In this collection some of today's most distinguished and innovative thinkers turn their attention to Ronell's teaching writing and provocations observing how Ronell reads and what comes from reading her By reading

Masocriticism Paul Mann, 1999-01-01 These essays on literary theory philosophy and cultural criticism describe in their form and content the end of criticism even while performing the endlessness of that endgame In a sense the book deconstructs all forms of critique and criticism including deconstruction and including its own self That the book is so painfully aware of the futility of its own enterprise even while pursuing it relentlessly and with such critical rigor is what makes this a book of masocriticism as well as about masocriticism

The Plaid Avenger's World Plaid Avenger, Klaus Shmidheiser, 2008 In the Plaid Avenger s world we will strip off the shallow window dressing in which you have been trained to see the world donned we will lay it bare to see what is really happening around the planet We do this in order to gain enough insight about the current state of the world to truly understand the how and why and where things are happening right now In this world no single government or press dictates our views no single political party shapes our opinion no single religion or ethnicity tints our not so rose colored glasses We will see the world in plaid a mystical weaving of facts figures cultures and viewpoints from every corner of the planet culminating into the fabric that is today p 2

Theory and the Novel Jeffrey Williams, 1998-12-03 Narrative features such as frames digressions or authorial intrusions have traditionally

been viewed as distractions from or anomalies in the narrative proper In *Theory and the Novel* Jeffrey Williams exposes these elements as more than simple disruptions analysing them as registers of narrative reflexivity that is moments that represent and advertise the functioning of narrative itself Williams argues that narrative encodes and advertises its own functioning and modal form He takes a range of novels from the English canon *Tristram Shandy* *Joseph Andrews* *The Turn of the Screw* *Wuthering Heights* *Lord Jim* and *Heart of Darkness* are amongst the novels examined and shows how narrative technique is never beyond or outside plot He poses a series of theoretical questions such as about reflexivity imitation and fictionality to offer a striking and original contribution to readings of the English novel as well as to discussions of theory in general

Synthetic Panics Philip Jenkins, 1999-07 America has a long history of drug panics in which countless social problems have been blamed on the devastating effects of some harmful substance In the last forty years such panics have often focused on synthetic or designer drugs like methamphetamine PCP Ecstasy methcathinone and rave drugs like ketamine and GHB Fear of these substances has provided critical justification for the continuing war on drugs *Synthetic Panics* traces the history of these anti drug movements demonstrating that designer chemicals inspire so much fear not because they are uniquely dangerous but because they bring into focus deeply rooted public concerns about social and cultural upheaval Jenkins highlights the role of the mass media in spreading anti drug hysteria and shows how proponents of the war on drugs use synthetic panics to scapegoat society's others and exacerbate racial class and intergenerational conflict *Breaking Up (at) Totality* Debra Diane Davis, 2000 Rhetoric and composition theory has shown a renewed interest in sophistic countertraditions as seen in the work of such postphilosophers as Jacques Derrida Michel Foucault and Hélène Cixous and of such rhetoricians as Susan Jarratt and Steven Mailloux As Debra Diane Davis traces today's theoretical interest to those countertraditions she also sets her sights beyond them Davis takes a third sophistic approach one that focuses on the play of language that perpetually disrupts the either/or binary construction of dialectic She concentrates on the nonsequential third excess that overflows language's dichotomies In this work laughter operates as a trope for disruption or breaking up which is from Davis's perspective a joyfully destructive shattering of our confining conceptual frameworks *The Police Corps Act* United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, 1990
