Desert Visions and the Making of Phoenix, 1860-2009 Philip VanderMeer,2010-12-16 Whether touted for its burgeoning economy affordable housing and pleasant living style or criticized for being less like a city than a sprawling suburb Phoenix by all environmental logic should not exist Yet despite its extremely hot and dry climate and its remoteness Phoenix has grown into a massive metropolitan area This exhaustive study examines the history of how Phoenix came into being and how it has sustained itself from its origins in the 1860s to its present status as the nation s fifth largest city From the beginning Phoenix sought to grow and although growth has remained central to the city s history its importance meaning and value have changed substantially over the years The initial vision of Phoenix as an American Eden gave way to the Cold War Era vision of a High Tech Suburbia which in turn gave way to rising concerns in the late twentieth century about the environmental social and political costs of growth To understand how such unusual growth occurred in such an improbable location Philip VanderMeer explores five major themes the natural environment urban infrastructure economic development social and cultural values and public leadership Through investigating Phoenix s struggle to become a major American metropolis his study also offers a unique view of what it means to be a desert city **Arizona Biltmore** Candice St. Jacques Miles,1985 *It Happened in Arizona: Remarkable Events That Shaped History* James A. postseason tournament except for one Division I A football. Instead of a tournament, fans are subjected to the Bowl Championship Series, an arcane mix of polling and mathematical rankings that results in just two teams playing for the championship. It is without a doubt the most hated institution in all of sports. A recent Sports Illustrated poll found that more than 90% of sports fans oppose the BCS, yet this system has remained in place for more than a decade. Building upon top-notch investigative reporting, Wetzell, Peter and Passan at last reveal the truth about this monstrous entity and offer a simple solution for fixing it. *Death to the BCS: Totally Revised and Updated* is brought up to date to cover the 2010-2011 season, listing which teams were screwed by the BCS such as TCU, how much money college football left on the table by not having a playoff based on 2011 tax filings, and how the calls for the abolition of the BCS grew even louder this past year. The book also includes findings from interviews with power players as well as research into federal tax records, congressional testimony, and private contracts. The first book to lay out the unseemly inner workings of the BCS in full detail, *Death to the BCS* is a rousing manifesto for bringing fairness back to one of our most beloved sports. **Romancing the Roads** Gerry Hempel

Davis, 2015-11-15 This updated compendium of facts, observations, discoveries, reviews, serendipities, humor, experiences, and more is not only for the road traveler but the armchair traveler as well. Unlike typical guides which read more like phone directories, *Romancing the Roads* is a shared diary of discoveries along America's highways and byways. Join Gerry on a tour of hotels, B&Bs, restaurants, national parks, antique stores, consignment shops, boutiques, and little-known places that make America such a great place for road tripping. Unless otherwise noted, the author has visited every place mentioned, from the ostrich farm along Interstate 10 in Arizona to the Biltmore hotel in Los Angeles. Even if you never get in the car and discover such wonders for yourself, you will enjoy this vicarious journey to places both sublime and ordinary as the author makes her way from Washington to California and east to the Mississippi River. **Architectural Digest**, 2007-09 Old House

Interiors, 2003-02 National architectural magazine now in its fifteenth year, covering period-inspired design 1700-1950. Commissioned photographs show real homes inspired by the past but livable. Historical and interpretive rooms are included; new construction additions and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events, and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising, all of it design-related, no lifestyle ads, is as important to them as the articles. **Travel & Leisure**, 2008
