Thompson,2024-10-28 The historical study of war in the Spain of Philip II forms the starting point for the articles in this volume They approach this not so much from a military angle but as a problem of organization procurement and finance In a sense the articles represent an assessment of the effectiveness of the Spanish government and so given the apparent precocity of government growth in 16th century Spain they can also be seen as a critical commentary on the operational capabilities of the early modern absolutist state Six of the essays here focus on the Spanish Armada in terms of its political and military objectives but demonstrating how these were conditioned by basic systems limitations not least in the procurement of suitable cannon In the final articles Dr Thompson turns to the impact of war and its financing on the social structure bearing in particular on the definition of nobility and its sale and on local democracy and making full use here as elsewhere of the relatively unexplored local sources Two of the papers here appear for the first time in English whilst a third has been newly prepared for this volume L tude historique de la guerre sous Philippe II roi d Espagne est la base des articles contenus dans le pr sent recueil Ceci est abord non tant sous l angle militaire mais comme un probl me d organisation d acquisition de mat riel et de financement En un certain sens ces documents repr sentent une valuation de l efficacit du gouvernement espagnol et peuvent par cons quent tant donn e l apparence pr cocit de la croissance gouvernementale en Espagne au 16 si cle tre consid r s comme un commentaire critique quant aux capacit s op rationnelles de l Etat absolu proto moderne Une demi douzaine des essais font l examen de l Armada espagnole en terme d objectifs politiques et militaires tout en d montrant comment ces derniers taient conditionn s par des contraintes structurales **Islam, Christianity and the Mystic Journey** Ian Richard
