Air University Library Index to Military Periodicals ,1975      Arab Armour Vs Israeli Armour Chris McNab,2021-04-13 A detailed study of one of the greatest tank battles since World War II as some 950 Egyptian tanks confronted about 800 tanks of the Israeli Defense Forces IDF in the Sinai Peninsula This momentous clash came to be known as the Six Day War and was a critical laboratory for two competing and contrasting systems of armored warfare The Six Day War in 1967 was a lightning Israeli campaign that changed the face of the Middle East Israel s armored brigades despite being heavily outnumbered on paper by Arab AFVs managed to dominate the Arab forces tactically and technologically through excellent gunnery and decentralized battlefield leadership The fighting took place on three different fronts the Sinai Front the Jordanian Front and the Golan Heights Each presented its own unique set of tactical and terrain challenges from the long range battles between massed Egyptian and Israeli armor in the scorching flatlands of the Sinai Desert to relatively close quarters engagements across steep and narrow terrain in the Golan Heights Not only did the Six Day War see the direct clash of opposing Cold War tactical approaches but also the direct confrontation of Western and Soviet MBTs On the Israeli side the IDF had the British Centurion the American M48 Patton the M51 Super Sherman and the French AMX 13 although they focused their armored spearheads on the Centurions and Pattons The Arabs armored power was expressed through T 34 85s T 54 55s PT 76s and JS 3s IS 3s Each vehicle brought its own set of advantages and disadvantages although ultimately it was the long range tank killing gunnery of the Centurion that often took the day Drawing on compelling first hand accounts from both unit commanders and individual crews this Duel title explains the tactical and mechanical dynamics of one of history s greatest post war armored engagements      **Reader's Guide to Military History** Charles Messenger,2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations      **United States Army in World War II.** ,1968      **United States Army in World War II.: The technical services** United States. *Desert Armour* Robert Forczyk,2023-10-10 Deserts tend to excite the imaginations of armoured tacticians who envision the wide open spaces as perfect for swiftly manoeuvring large mechanized forces However both Allied and Axis commanders

found their pre war assumptions surrounding mechanized warfare challenged by the opening campaigns in the desert A partly mechanized Italian army was destroyed in the first three months of the war The Deutsches Afrika Korps entered the theatre with a battle proven doctrine for conducting combined arms warfare tanks that were effective and well trained leaders and crews only to find itself undone by a combination of Rommel s unsuitability for independent command and insufficient Axis theatre logistics The British Army started the campaign with two different concepts of how to use armour either as fast independent mechanized units capable of rapid manoeuvre or as plodding tools of infantry support both concepts worked well against the Italian Army but then frequently misfired against the Afrika Korps In Desert Armour Robert Forczyk has examined all these forces and operations to provide a focused analytic account of armoured operations in North Africa placing the emphasis on the tactical and operational level perspectives of both Allied and Axis combatants **Fiscal**
