Mitchell, 1996 **Blacks in the Army Air Forces During World War II** Alan M. Osur, 1977 This book is based upon a PH D dissertation written by an Air Force officer who studied at the University of Denver Currently an Associate Professor of History at the Air Force Academy Major Osur s account relates how the leadership in the War Department and the U S Army Air Forces USAAF tried to deal with the problem of race and the prejudices which were reflected in the bulk of American society It tells a story of black racial protests and riots which such attitudes and discrimination provoked The author describes many of the discriminatory actions taken against black airmen whose goal was equality of treatment and opportunities as American citizens He also describes the role of black pilots as they fought in the Mediterranean theater of operations against the Axis powers In his final chapters he examines the continuing racial frictions within the Army Air Forces which led to black servicemen protests and riots in 1945 at several installations Despite these problems the author concludes that the Army Air Forces made substantial progress in race relations and in opening up additional career opportunities for black airmen in the post 1945 period Foreword by USAF Major General John W. Huston Office of Air Force History Chief *Anything, Anywhere, Anytime*, 1991 **The Army Air Forces in World War II, Volume Four: The Pacific, Guadalcanal to Saipan, August 1942 to July 1944**, **Masters of the Air** MTI Donald L. Miller, 2024-01-23 A history recounting the events and experiences of the World War II bomber pilots of the U S Eighth Air Force the armed forces group that conducted daytime bombing of Germany in advance of the Allied soldiers arrival on the ground *Uncertain Allies* Eric Setzekorn, 2024-10-15 *Uncertain Allies* looks at the U S military s experience in the China Burma India CBI theater during World War II through the eyes of Joseph Stilwell the commanding general of all American forces in those three countries Accomplished historian Eric Setzekorn focuses on two key themes uncertain allies and ambiguous missions Despite being allies relationships between the Americans and Chinese as well as the Americans and the

British were marked by a profound lack of trust in the CBI theater. This was particularly problematic because most combat personnel under Stilwell's command were Chinese. As a result, the lack of trust directly impacted tactical and operational planning. The second reoccurring theme, ambiguous missions, refers to the poorly defined goals for the theater. The CBI's mission was vague, and Stilwell lacked clear objectives or benchmarks of success. Underlying both themes is the key flaw in Stilwell's conduct in the CBI theater: a failure to understand the American political context in which he operated. Stilwell advocated for a transactional military and political relationship despite clear indications that President Roosevelt, other political leaders, and the American public at large desired a long-term cooperative relationship. In this context of deep and widespread public support for forging a close and lasting alliance with China, Stilwell's proposals to make military aid and American support on a quid pro quo basis was an isolated position that inevitably ran into staunch opposition. The result was a dangerous disconnect between American military operations and national policy. Setzekorn, who is fluent in Chinese, relied on a wide variety of sources when writing this penetrating account of the U.S. military's time in the CBI theater, including Chinese and Japanese language archival material. The declassification of numerous U.S. government sources over the past fifteen years also enables Setzekorn to make a full assessment and analysis of World War II era strategic thinking and military policy.

**War in the Pacific** Bernard C. Nalty, 1999. The collective effort of ten military historians describes World War II's Pacific campaign, describing each step of the conflict with clarity and in exhaustive detail. Color maps. Photos, many in color.

**Communiques of General MacArthur** Douglas MacArthur and His General Staff, 2024-09-13. After defeat by Japanese invaders and a harrowing escape from the Philippines, General Douglas MacArthur arrived in Australia in March 1942. Placed in charge of the newly created Southwest Pacific Area, MacArthur was desperate to retain his new post so that he might reconquer the Philippines and, in so doing, reclaim his honor. Thus began the daily issuance of communiques from his headquarters that related a grueling World War II campaign of more than a thousand days as Allied forces fought a relentless enemy from the northern shores of Australia to the heart of Manila. Never before available in print, this volume of communiques brings to life the regular updates issued to a public anxious for news of the great advance across the Southwest Pacific. These daily pronouncements present not only a record of the campaign but also a master class of public relations management as MacArthur attempted to portray himself as the great hero deserving of enduring fame regardless of the truth prevailing on the battlefield.

**MacArthur's Coalition** Peter J. Dean, 2018-04-03. From 1942-1945, the Allies' war in the Southwest Pacific was effectively a bilateral coalition between the United States and Australia under the command of General Douglas MacArthur. By charting the evolution of the military effectiveness of the U.S.-Australian alliance, MacArthur's Coalition puts the relationship between the United States and Australia at the center of the war against Japan. Drawing on new primary source material, Peter J. Dean has written the first substantial book-length treatment of the coalition as a combined military force. This expansive and ambitious book provides a fresh perspective on the Pacific War by providing a

close up in depth account of operations in the Southwest Pacific from the Kokoda Trail campaign to the reconquest of the Philippines and Borneo Dean's work takes the reader deep into the key military headquarters in the Southwest Pacific and reveals the discussions debates and arguments between key commanders and staff officers during the course of planning and waging a monumental conflict Drawing upon archival records across three continents Dean brings the qualities of these senior officers to life by exploring the critical importance of personalities and leadership in overcoming cultural doctrinal and organizational divides in the largely unequal alliance Set against the practicalities of fighting a fanatical enemy in some of the most inhospitable terrain in the war his book shows how despite these divides and MacArthur's difficult personality the US Australian coalition was able to forge a highly effective and ultimately triumphant fighting machine With its unprecedented view of the joint nature of operations in the Southwest Pacific and its focus on frontline commanders and units in forging a successful fighting force MacArthur's Coalition illuminates a critical aspect of the Allied victory in World War II

**Sky As Frontier** David T. Courtwright, 2005 Aviation's frontier stage lasted a scant three decades then vanished as flying became a settled experience Sky as Frontier recreates that pioneer world and shows how commercial and military imperatives destroyed it by routinizing flight Jacket

**Air Force History Publications** Air Force History and Museums Program (U.S.), 2008

**American Women During World War II** Doris Weatherford, 2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion American Women during World War II provides a handy one volume collection of information and images suitable for any public or professional library

*History of United States Naval Operations in World War II. operations and access to Allied documents with critical information from the Japanese side      MacArthur's Airman Thomas E. Griffith, Jr., 2017-01-20 A fighter pilot who flew 75 combat missions in World War I George C Kenney was a charismatic leader who established himself as an innovative advocate of air power As General MacArthur's air commander in the Southwest Pacific during World War II Kenney played a pivotal role in the conduct of the war but until now his performance has remained largely unexplored Thomas Griffith offers a critical assessment of Kenney's numerous contributions to MacArthur's war efforts He depicts Kenney as a staunch proponent of airpower's ability to shape the outcome of military engagements and a commander who shared MacArthur's strategic vision He tells how Kenney played a key role in campaigns from New Guinea to the Philippines adapted aircraft pilots doctrine and technology to the demands of aerial warfare in the southwest Pacific and pursued daring strategies that likely would have failed in the European theater Kenney is shown to have been an operational and organizational innovator who was willing to scrap doctrine when the situation called for ingenuity such as shifting to low level attacks for more effective bombing raids Griffith tells how Kenney established air superiority in every engagement provided close air support for troops by bombing enemy supply lines attacked and destroyed Japanese supply ships and carried out rapid deployment by airlifting troops and supplies Griffith draws on Kenney's diary and correspondence the personal papers of other officers and previously untapped sources to present a comprehensive portrayal of both the officer and the man He illuminates Kenney's relationship with MacArthur General Hap Arnold and other field commanders and closely examines factors in air warfare often neglected in other accounts such as intelligence training and logistical support MacArthur's Airman is a rich and insightful study that shows how air ground and marine efforts were integrated to achieve major strategic objectives It firmly establishes the importance of MacArthur's campaign in New Guinea and reveals Kenney's instrumental role in turning the tide against the Japanese
