Arquitectura Occidental:

Arquitectura occidental Christian Norberg-Schulz, 1999 En este libro publicado por primera vez en 1973 Christian Norberg Schulz describe la historia de la arquitectura occidental como una historia de formas significativas En base a esta perspectiva que remite a la filosofía existencialista y a la fenomenología el autor analiza las principales etapas y los edificios mas importantes en la historia de la arquitectura desde el antiguo Egipto hasta nuestros días Las construcciones de los diversos periodos culturales son descritas como una expresión de valores religiosos y filosóficos prevalentes El análisis meticuloso del origen significativo de los ejemplos de cada época permite superar una visión puramente estilística de la historia de la arquitectura y reconciliarla con la propia evolución de las preocupaciones humanas *Introducción a la historia de la arquitectura* José Ramón Alonso Pereira, 2005 Este libro recoge con una visión general y unitaria el devenir de la arquitectura occidental a través del tiempo desde sus orígenes remotos hasta nuestra misma contemporaneidad no es ni pretende ser una historia convencional de la arquitectura sino una introducción a su estudio que desvela sus claves y permita acceder a su realidad tanto al profesional como al aficionado y especialmente a quien se acerca a la arquitectura por primera vez **Historia de la arquitectura occidental: De Grecia al Islam** Fernando Chueca Goitia, 1974 **The Architecture of San Juan de Puerto Rico** Arleen Pabon-Charneco, 2016-11-18 As San Juan nears the 500th anniversary of its founding Arleen Pabon Charneco explores the urban and architectural developments that have taken place over the last five centuries transforming the site from a small Caribbean enclave to a sprawling modern capital As the oldest European settlement in the United States and second oldest in the Western Hemisphere San Juan is an example of the experimentation that took place in the American borderland from 1519 to 1898 when Spanish sovereignty ended The author also investigates post 1898 examples to explore how architectural ideas were exported from the mainland United States Pabon Charneco covers the varied architectural periods and styles aesthetic theories and conservation practices of the region and explains how the development of the architectural and urban artifacts reflect the political cultural social and religious aspects that metamorphosed a small military garrison into a urban center of international significance Quién fue quién en la transición en Castilla-La Mancha (1977-1982) José Antonio Castellanos López, 2015-03-05 El presente trabajo ayuda al conocimiento de la representación política en la Comunidad Autónoma de Castilla La Mancha durante el periodo de la transición Esta obra a la vez aspira a proyectarse más allá de la exposición biográfica de los representantes aquí estudiados pues procura disponer de los componentes necesarios para poder traducirse en una contribución a la historia política de la región Desde este punto de vista el objeto de estudio de esta investigación se centra en aquellos parlamentarios nacionales y diputados provinciales que tuvieron una especial significación en la construcción de la autonomía castellano manchega En aplicación de este criterio no han sido aquí abordadas aquí las biografías de los elegidos para las Cortes de Castilla La Mancha que exigieran un estudio específico y monográfico sin duda por hacer y que vendrá a ser una necesaria continuación del presente que
