

POETRY: *A Magazine of Verse*

II

What music's devious voice can say, beguiling
The flattered spirit, your voice can richlier say,
Moving the happy creature to such smiling
As the young sun brings flowers at break of day.
Nor can the southwest wind, who turns green boughs,
And sings in watery reeds, outvie your voice—
No, though the whole wide world of birds he rouse,
And boughs and birds, together, all rejoice.
Not water's self, shy singer among stones,
Vowelling softly of his secret love,
Can murmur to green roots such undertones,
Nor with low laughter have such power to move.
No rival—none. There is no help for us.
Be it confessed—I am idolatrous.

III

Think, love, how when a starry night of frost
Is ended, and the small pale winter sun
Shines on the garden trellis, ice-embossed,
And the stiff frozen flower-stalks, every one;
And turns their fine embroideries of ice
Into a loosening silver, skein by skein,
Warming cold leaves and stones, till, in a trice,
The garden smiles, and breathes, and lives again;
And further think, how the poor frozen snail
Creeps out with trembling horn to feel that heat,

The Stoics Louisa Siefert, 2023-08-29 Louisa Siefert was a prolific poet critic playwright and novelist who published many works that were bestsellers in nineteenth century France This bilingual critical edition of Siefert's *Les Stoïques* 1870 aims to restore Louisa

Siefert's intellectual legacy while providing ample material for further scholarship on her unique poetic voice Siefert's intellectual power and aesthetic originality are especially pronounced in her *Les Stoïques* a volume that exemplifies her transdisciplinary mind and rich sonnet practice The more than forty poems collected here are presented in the original French with masterful translations into English by Norman R Shapiro one of the most highly regarded English translators of French poetry Shapiro's inspired translations of Siefert's texts give readers gain a sense of her prosodic mastery and flair as well as the way she uses poetry to think about the relation between mind and body In her introduction Adrianna M Paliyenko reconstructs from original archival research the reception of *Les Stoïques* from May 1870 to the present describing how many nineteenth century readers considered Siefert's philosophical verse to be central to her contribution to French poetic history and in turn how the gendering of poetic expression and the canon sidelined Siefert's intellectual accomplishment A monumental achievement this book brings the work of a major French poet to a broader audience Siefert's poetic primer on the Stoic way of thinking about why humans suffer or find serenity and joy and other big questions of life will strike a chord with modern readers

[Dangerous Drugs](#) Ronny Spaans,2025-10-01 In the 17th century the Dutch Republic was the centre of the world trade in exotic drugs and spices They were sought after both as medicines and as luxury objects for the bourgeois class giving rise to a medical and moral anxiety in the Republic This ambivalent view on exotic drugs is the theme of the poetry of Joannes Six van Chandelier 1620-1695 Six who himself ran the drug shop The Gilded Unicorn in Amsterdam addresses a number of exotic medicines in his poems such as musk incense the miracle drug theriac Egyptian mumia and even the blood of Charles I of England In *Dangerous Drugs* these texts are studied for the first time The study shows how Six through a process of self presentation as a sober and restrained merchant but also as a penitent sinner thirsting for God's grace links early modern drug abuse to different desires such as lust avarice pride and curiosity The book shows also how an early modern debate on exotic drugs contributed to an important shift in early modern natural science from a drug lore based on mythical and fabulous concepts to a botany based on observation and systematic examination
