The Mexican Novel Comes of Age Walter M. Langford, 1971 **Life After Death (book 4 Gianni Legacy)** Kr Bankston, 2012-12-20 Three years have passed and Dezi Devastator Gianni is enjoying his life with Kayla tucked far away from the turmoil they left behind in their tropical oasis His business is booming with new conquests and partnerships being forged Aidan grows daily into the heir and legacy that Dezi has always envisioned him to be He is fully happy content and at peace There is unfortunately trouble brewing on the beautifully picturesque horizon before them from the unlikeliest of places and people the Encyclopedia of Latin American Literature Verity Smith, 1997-03-26 This work is a guide to writers works and topics in Central and South America and the Caribbean It contains over 400 entries written by 160 contributors which are organized into four major types topic individual writer individual work and survey *The Facts on File Companion to the World Novel* Michael Sollars, Arbolina Llamas Jennings, 2008 **Ambiguity and Gender in the New Novel of Brazil and Spanish America** Judith A. Payne, Earl E. Fitz, 1993-05 In this first book length study to compare the new novels of both Spanish America and Brazil the authors deftly examine the differing perceptions of ambiguity as they apply to questions of gender and the participation of females and males in the establishment of Latin American narrative models Their daring thesis the Brazilian new novel developed a more radical form than its better known Spanish speaking cousin because it had a significantly different approach to the crucial issues of ambiguity and gender and because so many of its major practitioners were women As a wise strategy for assessing the canonical new novels from Latin America the coupling of ambiguity and gender enables Payne and Fitz to discuss how borders literary generic and cultural are maintained challenged or crossed Their conclusions illuminate the contributions of the new novel in terms of experimental structures and narrative techniques as well as the significant roles of voice theme and language Using Jungian theory and a poststructural optic the authors also demonstrate how the Latin American new novel faces such universal subjects as myth time truth and reality Perhaps the most original aspect of their study lies in its analysis of Brazil's strong female tradition Here issues such as alternative visions contrasexuality self consciousness and ontological speculation gain new meaning for the future of the novel in Latin America With its comparative approach and its many bilingual quotations *Ambiguity and Gender in the New Novel of Brazil and Spanish America* offers an engaging picture of the marked differences between the literary traditions of Portuguese speaking and Spanish speaking America and thus new insights into the distinctive mindsets of these linguistic cultures *Cuba and Puerto Rico* Carmen Haydée Rivera, Jorge Duany, 2023-02-28 The intertwined stories of two archipelagos and their diasporas This volume is the first systematic comparative study of Cuba and Puerto Rico from both a historical and contemporary perspective In these essays contributors highlight the interconnectedness of the two archipelagos in social categories such as nation race class and gender to encourage a more nuanced and multifaceted study of the relationships between the islands and their diasporas Topics range from historical and anthropological perspectives on

Cuba and Puerto Rico before and during the Cold War to cultural and sociological studies of diasporic communities in the United States The volume features analyses of political coalitions the formation of interisland sororities and environmental issues Along with sharing a similar early history Cuba and Puerto Rico have closely intertwined cultures including their linguistic literary food musical and religious practices Contributors also discuss literature by Cuban and Puerto Rican authors by examining the aesthetics of literary techniques and discourses the representation of psychological space on the stage and the impacts of migration Showing how the trajectories of both archipelagos have been linked together for centuries and how they have diverged recently Cuba and Puerto Rico offers a transdisciplinary approach to the study of this intricate relationship and the formation of diasporic communities and continuities Publication of this work made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities

Boyle's "The Tortilla Curtain": Urban Conditions, Racism, and Ecological Disaster in Fortress Los Angeles Laura Schomaker,2015-02-01 Los Angeles is famous for its sunny weather for the Hollywood film studios and for being the residence of the rich and beautiful And although or precisely because all this is more illusion than reality the city frequently serves as setting for various pieces of fiction However Los Angeles does not only play a huge role in the media but since lately also in the realm of urban studies Having long been a kind of outsider in the field it is now regarded as a prototypical example for urban development by the L A School In this context its image is less sunny and positive but reveals a deep rooted racism against Latin American immigrants in combination with a fortress mentality on the part of its white population as well as a unique urban ecology in which natural catastrophes seem to be regular occurrences This paper intends to outline the significance of Los Angeles in urban studies and trace the thereby acquired findings in a fictional representation of the city T C Boyle s novel The Tortilla Curtain In the process it is shown how urban conditions racism and nature especially in the form of ecological disasters intersect and influence each other
