Roadmap for Humanities and Social Sciences in STEM Higher Education Sayantan Mandal, 2024-09-01 This edited book focuses on the interconnections of STEM and

Humanities and Social Sciences HSS in higher education and offers novel approaches to reintegrating them. It paradoxically informs readers of how HSS got relegated to the periphery in the capitalist driven higher education market and the pressing need to re-organise higher education to meet the demands of competencies in the same education industry. The contributors, including eminent scholars from academia and industry decision makers and researchers, bring nuanced perspectives on integrating HSS into STEM through the global north and south lens. The book is divided into seven parts providing a comprehensive understanding of the critical position of STEM, its interaction with HSS, some exemplars to elucidate holistic education, the importance of HSS in industry and the roadmap facilitating the organic integration across disciplines. It provides an in-depth analysis of the difficulties HSS faces in science and technical higher education and offers creative solutions to these difficulties, a plausible roadmap for teachers and educational planners wishing to incorporate HSS into STEM higher education. The book stresses the importance of integrating the social sciences and humanities to foster innovation and success in STEM education. It is a must-read for those dedicated to integrating and advancing HSS in STEM higher education, such as educational policymakers, institutional leaders, higher education managers and educational policy and management researchers.

Teaching Art Creatively Penny Hay, 2022-10-24 *Teaching Art Creatively* is packed with ideas and inspiration to enrich teachers' knowledge and understanding of art and design in the primary classroom. It synthesises the philosophical and practical elements of teaching, encouraging a move away from traditional didactic approaches to contemporary classroom pedagogies to develop children's creative potential. With an emphasis on recognising the value of children's art and how to support children's creative and artistic processes, key topics explored include improving your own creativity, competence and confidence, helping children become independent artists, starting points and imaginative contexts for art and design, individual group and whole class work, art inside and outside the classroom, how to develop visual literacy, the value of working alongside artists, the contribution of art and design to children's overall creative development. *Teaching Art Creatively* offers a new model of visual arts education in the primary years. Illustrated throughout with examples of exciting projects, children's work and case studies of good practice, it will be essential reading for every professional who wishes to embed creative approaches to teaching in their classroom.

Arts, Crafts and Home Industry, 1957 *Teaching Primary Humanities* Russell Grigg, 2014-05-22 As primary subjects are increasingly being taught on an interdisciplinary level, Russell Grigg and Sioned Hughes have created an innovative new text, *Teaching Primary Humanities*. This new text explores current debate, encourages reflection and provides clear guidance on planning teaching and assessing the humanities from the Early Years to Key Stage 2. Through a blend of theory and real-life examples, Grigg and Hughes demonstrate the contribution that history, geography and religious education can make to enhancing children's thinking, literacy, numeracy and ICT skills. Whether you are a trainee or a practitioner, this book will develop your knowledge of how young children's understanding of place, time and community can be fostered through a play-based curriculum. It will also

benefit teachers of older children looking to encourage more independent learning in their schools About the authors Dr Russell Grigg is Head of the South West Wales Centre of Teacher Education He is a trained primary inspector for England and Wales He has written widely in the field of history and primary education including Wales in the Victorian Age and Becoming an Outstanding Primary Teacher Dr Sioned Hughes is Senior Lecturer in Initial Teacher Training at the South West Wales Centre of Teacher Education She has published many educational materials especially in primary geography Her work on Patagonia was recognised by the Welsh Books Council as the Bestselling Children s Book in 2011

Masking in Pandemic U.S. Urmila Mohan,2022-09-19 This anthropological study explores the beliefs and practices that emerged around masking in the U S during the COVID 19 pandemic Americans responded to this illness as unique subjects navigating the flux of social and corporeal boundaries supporting certain beliefs and acting to shape them as compelling realities Debates over health and safety mandates indicated that responses were fractured with varied subjectivities in play people lived in different worlds and bodies were central in conflicts over breathing masking and social distancing Contrasting approaches to practices marked the limits and possibilities of imaginaries signaling differences and similarities between groups and how actions could be passageways between people and possibilities During a time of uncertainty and loss the efficacious intimacy of bodies and materials embedded beliefs values and emotions of care in mask sewing and usage By exploring these practices the author reflects on how American subjects became relational selves and sustained response able communities helping people protect each other from mutating viruses as well as moving forward in a shifting terrain of intimacy and distance connection and containment
