Fleck,2022-10-10 How can medieval art explain Jerusalem s centrality in the world faiths of Christianity and Islam This book delves into that topic by examining how Jerusalem was creatively represented and reimagined in several intriguing Christian and Islamic artworks in the later Middle Ages c 1187 to 1356 The book considers how European Catholic crusaders Eastern Christian sects and diverse Muslim factions displayed Jerusalem s architecture to express their interpretation of the holy city s sanctity and influence These examples demonstrate how artworks can reflect Jerusalem s importance to these faiths in the past and illuminate our understanding of its status into the modern era **A World Art History and Its Objects** David Carrier,2008-11-28 Is writing a world art history possible Does the history of art as such even exist outside the Western tradition Is it possible to consider the history of art in a way that is not fundamentally

Eurocentric In this highly readable and provocative book David Carrier a philosopher and art historian does not attempt to write a world art history himself Rather he asks the question of how an art history of all cultures could be written or whether it is even possible to do so He also engages the political and moral issues raised by the idea of a multicultural art history Focusing on a consideration of intersecting artistic traditions Carrier negotiates the way meaning and understanding shift or are altered when a visual object from one culture for example is inserted into the visual tradition of another culture A World Art History and Its Objects proposes the use of temporal narrative as a way to begin to understand a multicultural art history

The Struggle for Jerusalem's Holy Places Wendy Pullan, Maximilian Sternberg, Lefkos Kyriacou, Craig Larkin, Michael Dumper, 2013-11-20 The Struggle for Jerusalem's Holy Places investigates the role of architecture and urban identity in relation to the political economy of the city and its wider state context seen through the lens of the holy places Reflecting the broad disciplinary backgrounds of the authors this book provides perspectives from architecture urbanism and politics and provides in depth investigations of historical ethnographic and policy related case studies The research is substantiated by fieldwork carried out in Jerusalem over the past ten years as part of the ESRC Large Grants project Conflict in Cities By analysing new dynamics of radicalisation through land seizure the politicisation of parklands and tourism the strategic manipulation of archaeological and historical narratives and material culture and through examination of general appropriation of Jerusalem's varied rituals memories and symbolism for factional uses the book reveals how possibilities of co existence are seriously threatened in Jerusalem Shedding new light on the key role played by everyday urban life and its spatial settings for any future political agreements about the city and its religious sites this book is a useful reference work for students and scholars of Middle East Studies Architecture Religion and Urban Studies Art and Architecture of the Synagogue in Byzantine Palaestina Asaf Friedman, 2019-05-24 The Byzantine era was a time of the formation of the Abrahamic religions and a battleground for people's hearts and minds This book shows that during the time of the Byzantine Empire the synagogues in Palaestina developed a visual language adhering to traditional literary sources Until now scholars believed that Judaism was oblivious to all art forms regarding them as mere decoration This book shows that contrary to those beliefs Jewish art was in fact flourishing in this period The visual language that emerged is a trope that utilizes literal and figurative readings to arrive at an inquisitive mixture a probing language that facilitates learning It is a visual language of becoming of inward introspection and outward scrutiny This new analysis goes beyond the limits of compositional rules and requires an analytical as well as emotive thought process to form a cultural interpretation that reveals the hidden language This means that some parts of Judaism and some parts of Christianity were in agreement despite the commandment of Thou shalt not make unto thee any graven image and operated under the assumption that paintings were not necessarily the creation of idols Thus we see that the modern movements of art and architecture were not the first to deal with images through themes such as abstraction and denotation The language developed during the Byzantine period could rival the best
