Art De Chirico:

De Chirico. Ediz. inglese Magdalena Holzhey, 2005 Greek born Italian painter Giorgio De Chirico 1888 1978 was hugely influential in the early years of the Surrealist movement His paintings during the teens in Paris where he moved in 1911 caused such a stir that such important figures as Picasso and Paul Eluard immediately praised them This phase of his work which he later termed *pittura metafisica* metaphysical painting was marked by dramatic compositions involving sharp perspective striking shadows geometrical planes voids of space and a general feeling of anxiety and loneliness the sense of absurdity evoked by the mannequin like figures in almost nightmarish landscapes seemed to suggest a Freudian expression of the unconscious After 1930 De Chirico turned to a more classical style of painting and continued in the same vein for the rest of his career his later work was widely criticized especially by the Surrealists who had so admired his early paintings

De Chirico Giorgio De Chirico, 1996 Giorgio de Chirico 1888 1978 is widely regarded as one of the masters of 20th century art The originator of Metaphysical Painting and precursor of the Surrealists de Chirico was born in Volos Greece studied at the Academy of Fine Arts in Munich and was initially influenced by Bocklin and Klinger However he soon developed his own distinctive style producing the first of his enigmatic paintings in Italy around 1910 De Chirico's early works evoked an uneasy atmosphere through their use of strange perspectives illogical shadows and open spaces and he developed a theory of metaphysical insight which located familiar objects in essentially mysterious relationships In de Chirico's oeuvre a naturalistic vision always alternates like waking and sleeping or dreaming with another vision presenting abnormal forms and situations If de Chirico's first period of Metaphysical painting between 1910 and 1918 remains his most celebrated and has provided us with some of his most memorable images it is also true that his later Metaphysical period was also a time of intense creativity and evocative art making But this period is his least well known De Chirico moved on from his baroque and romantic paintings of the Forties and Fifties works which diminished his standing among a number of art critics to a new Metaphysical period which related strongly to the rich early phase of his work This book is a celebration of that period in de Chirico's career and evaluates not only his paintings but also the mythic and symbolic sculptures produced at this time De Chirico The New Metaphysics is an essential resource for any reader interested in appreciating de Chirico's unique contribution to 20th century art

Merjian, 2014-04-01 Painted in Paris on the eve of World War One the Metaphysical cityscapes of Giorgio de Chirico 1888-1978 redirected the course of modernist painting and the modern architectural imagination alike *Giorgio de Chirico and the Metaphysical City* examines the two most salient dimensions of the artist's early imagery its representations of architectural space and its sustained engagement with the philosophy of Friedrich Nietzsche Centering upon a single painting from 1914 deemed by the painter the fatal year each chapter examines why and how de Chirico's self-declared Nietzschean method takes architecture as its pictorial means and metaphor The first full-length study in English to focus on the painter's seminal work from pre-war Paris the book places de Chirico's literary images back in the context of the city's avant-garde particularly the circle of Guillaume Apollinaire Merjian's study sheds light on one of the most influential and least understood figures in 20th century aesthetics while also contributing to an understanding of Nietzsche's paradoxical consequences for modernism *Art of Enigma* Keala Jewell, 2010-11-01 *Giorgio de Chirico* Victoria Noel-Johnson, 2019-07-25 An innovative analysis of the artistic poetics of the master of metaphysical painting Through a selection of important works made during this master's career this volume aims to conduct a critical revision of the artist's complex practice for the centenary of his so-called volte-face in 1919 the year he was criticised for leaving metaphysical painting 1910-1918 in favour of styles and techniques inspired by Classicism and the grand masters Edited by

Metaphysics of Silence Lucio Giuliadori,2019-06-25 Many are the philosophical implications which enfold De Chirico's Metaphysical art Therefore the viewer is inevitably involved in what we could define as a metaphysical journey where thinkers such as Nietzsche and Schopenhauer are essential pillars Through his unsettling uncanny beautiful art De Chirico aspires to unveil the secret essence of things concealed behind the surface accessible to us through the senses To this regard his art is utterly philosophical his pictures are investigations of the unknown they don't describe they inquire and by doing this they floor us as they dwell on that mysterious yet familiar limbo sited between ordinary and extraordinary reality logic and absurd physics and metaphysics If surrealists were focused on what dwelled within De Chirico was totally concerned about the perceivable world too easily spotting an enigma in the world of dreams even banal much more intriguing on a philosophical level is trying to depict it on the things we look at with our own eyes The Italian artist managed to do this in a wonderful way and this book concerns the marvellous path he undertook underpinned on a constant powerful extraordinary combination of art and knowledge **Giorgio de Chirico.
