staff who have come together to create such an environment we have strived to not only meet the academic needs of these children but also to foster emotional well being social inclusion and holistic development however the journey is far from over and there is much more to be done this book aims to provide a comprehensive overview of the 21 disabilities recognized under the rpwd act 2016 each disability is explored with the hope that it will equip educators parents policymakers and community leaders with the knowledge and tools they need to make meaningful strides towards inclusivity the importance of recognizing the unique needs of every child the role of individualized education plans ieps and the value of early intervention are some of the themes that will be discussed in detail it is my belief that understanding these disabilities in depth is the first step towards creating a truly inclusive education system one that empowers every child to reach their full potential it is also my hope that this book will spark meaningful conversations on how we as a society can come together to break down barriers not just physical or architectural but those that exist in our minds disability is not a limitation it is an invitation to rethink our norms our practices and our expectations of what it means to be truly inclusive i dedicate this book to the countless children with special needs who have taught me more than i could ever hope to teach them their resilience their joy and their determination have been a constant source of inspiration it is for them and for all those who continue to advocate for a more inclusive future that i offer this work may we continue to grow in understanding and compassion as we work towards a world where every child regardless of ability has the opportunity to flourish rahul dev principal directorate of education gncet of delhi
